Women In Green Voices Of Sustainable Design:

Women in Green Kira Gould, Lance Hosey, 2007 Exploring a variety of topics ranging from communities to buildings to product design this book explains how the sustainable design field is influenced by women and women's ways of working It explains the often overlooked roles women have played as key catalysts in sustainability Who's Green 2007, 2006-11

The Shape of Green Lance Hosey, 2012-06-11 Does going green change the face of design or only its content The first book to outline principles for the aesthetics of sustainable design The Shape of Green argues that beauty is inherent to sustainability for how things look and feel is as important as how they're made In addition to examining what makes something attractive or emotionally pleasing Hosey connects these questions with practical design challenges Can the shape of a car make it more aerodynamic and more attractive at the same time Could buildings be constructed of porous materials that simultaneously clean the air and soothe the skin Can cities become verdant productive landscapes instead of wastelands of concrete Drawing from a wealth of scientific research Hosey demonstrates that form and image can enhance conservation comfort and community at every scale of design from products to buildings to cities Fully embracing the principles of ecology could revolutionize every aspect of design in substance and in style Aesthetic attraction isn't a superficial concern it's an environmental imperative Beauty could save the planet She Is Me Lori Sokol, 2025-07-30 Women are entering the national and international arena more than ever today from political campaigns to corporate boards to entrepreneurship and their success is showing Statistics show that when women lead countries those countries are less apt to go to war There is also a positive correlation between the number of women on corporate boards and greater profits Women entrepreneurs have also been shown to generate higher revenues and create more jobs than male entrepreneurs She Is Me veteran journalist Lori Sokol PhD introduces readers to thirty five women hailing from all walks of life who have successfully utilized qualities like compassion empathy introspection and solidarity to create change and transform lives Through interviews with women including Gloria Steinem Billie Jean King and Nobel Peace Prize recipient Leymah Gbowee readers will come to understand how these traits which have long been considered soft and weak in our patriarchal culture are actually proving more effective in transforming lives securing our planet and saving the world Design Education for a Sustainable Future Rob Fleming, 2013-04-26 Sustainability is a powerful force that is fundamentally reshaping humanity's relationship to the natural world and is ushering in the Age of Integration The move from well intentioned environmental friendliness to the higher bar of integral sustainability and regenerative design demands a new type of design professional one that is deeply collaborative ethically grounded empathically connected and technologically empowered As a response this book argues for a great leap forward in design education from an individualistic and competitive model casually focused on greening to a new approach defined by an integral consciousness shaped by the values of inclusivity and cooperation and implemented by a series of integrative behaviors including an ethically infused design brief a co creative design process on going value

engineering pre-emptive engineering design validation through simulation on line enabled integrated learning the use of well vetted rating systems This book contains the integral frameworks whole system change methodologies and intrinsic values that will assist professors and their students in an authentic and effective pursuit of design education for a sustainable future

Sustainable Residential Interiors Annette Stelmack, Associates III, Kari Foster, Debbie Hindman, 2014-09-03 The Second Edition of *Sustainable Residential Interiors* addresses cutting edge processes strategies and principles as well as details for in depth product vetting criteria Award winning leading interior designer Annette Stelmack shares her expertise from the perspective of LEED Building Design reduce CO₂ emissions and waste improve indoor air quality free of toxins and are responsive to environmental impacts Encourages forward thinking by featuring inspirational statements from mentors peers and industry leaders Urges interior designers to commit to designing safe healthy environments that are integral to a professional code of ethics which ensure the delivery of positive outcomes for the client and any building's future occupants

Profits and Sustainability Geoffrey Jones, 2018-01-26 Are profits and sustainability compatible This book brings unique perspectives to this key debate by exploring the history of green entrepreneurship since the nineteenth century and its spread globally in industries including renewable energy organic food natural beauty ecotourism recycling architecture and finance The book uses the lens of the extraordinary and often eccentric men and women who defied convention and imagined that business could help save the planet rather than consume it The social and religious beliefs that drove many of these individuals are explored as the book looks at how they overcame huge obstacles to execute their strategies The green entrepreneurs seen here are shown to have created new markets and industries and driven innovations in sustainable practices even at times when most consumers and governments marginalized the entire subject The struggles of early pioneers appear to have been rewarded by the growth of environmental awareness among consumers business leaders and others in recent years but the Earth's environmental health continues to deteriorate If profits and sustainability have proved challenging to reconcile the book argues that one reason was how they were both defined Greenopia New York City
