Women In The Latin American Development Process:

Women in the Latin American Development Process Christine E. Bose, 1995 This interdisciplinary volume provides a historical and international framework for understanding the changing role of women in the political economy of Latin America and the Caribbean The contributors challenge the traditional policies goals and effects of development and examine such topics as colonialism and women s subordination the links to economic social and political trends in North America the gendered division of paid and unpaid work differing economic structures cultural and class patterns women s organized resistance and the relationship of gender to class race and ethnicity nationality Author note Christine E Bose is Associate Professor of Sociology Women s Studies and Latin American and Caribbean Studies at the University at Albany SUNY Edna Acosta Bel n is Distinguished Service Professor of Latin American and Caribbean Studies and Women s Studies and the Director of the Center for Latin American and Caribbean Studies and the Director of the Center for Latin American and Caribbean Studies at the University at Albany SUNY

Latin American Development Julie Cupples, 2013-07-18 Latin America s diverse political and economic struggles and triumphs have captured the global imagination The region has been a site of brutal dictators revolutionary heroes the Cold War struggle and as a place in which the global debt crisis has had some of its most lasting and devastating impacts Latin America continues to undergo rapid transformation demonstrating both inspirational change and frustrating continuities This text provides a comprehensive introduction to Latin American development in the twenty first century emphasizing political economic social cultural and environmental dimensions of development It considers key challenges facing the region and the diverse ways in which its people are responding as well as providing analysis of the ways in which such challenges and responses can be theorized This book also explores the region s historical trajectory the implementation and rejection of the neoliberal model and the role played by diverse social movements Relations of gender class and race are considered as well as the ways in which media and popular culture are forging new global imaginaries of the continent The text also considers the increasing difficulties that Latin America faces in confronting climate change and environmental degradation This accessible text gives an overarching historical and geographical analysis of the region and critical analysis of recent developments It is accompanied by a diverse range of critical historical and contemporary case studies from all parts of the continent providing readers with the conceptual tools required to analyse theories on Latin American development Each chapter ends with a summary section discussion topics suggestions for further reading websites and media resources This is an indispensable resource for scholars students and practitioners

The Routledge Handbook of Latin American Development Julie Cupples, Marcela Palomino-Schalscha, Manuel Prieto, 2018-12-07 The Routledge Handbook of Latin American Development seeks to engage with comprehensive contemporary and critical theoretical debates on Latin American development The volume draws on contributions from across the humanities and social sciences and unlike earlier volumes of this kind explicitly highlights the

disruptions to the field being brought by a range of anti capitalist decolonial feminist and ontological intellectual contributions The chapters consider in depth the harms and suffering caused by various oppressive forces as well as the creative and often revolutionary ways in which ordinary Latin Americans resist fight back and work to construct development defined broadly as the struggle for a better and more dignified life The book covers many key themes including development policy and practice neoliberalism and its aftermath the role played by social movements in cities and rural areas the politics of water oil and other environmental resources indigenous and Afro descendant rights and the struggles for gender equality With contributions from authors working in Latin America the US and Canada Europe and New Zealand at a range of universities and other organizations the handbook is an invaluable resource for students and teachers in development studies Latin American studies cultural studies human geography anthropology sociology political science and economics as well as for activists and development practitioners

The Labyrinth of Latin American Development Henry Veltmeyer,1999

The Women, Gender and Development Reader Nalini Visvanathan,Lynn Duggan,Nan Wiegersma,Laurie Nisonoff,2011-11-25

The Women Gender and Development Reader II is the definitive volume of literature dedicated to women in the development process Now in a fully revised second edition the editors expertly present the impacts of social political and economic change by reviewing such topical issues as migration persistent structural discrimination the global recession and climate change Approached from a multidisciplinary perspective the theoretical debates are vividly illustrated by an array of global case studies This now classic book has been designed as a comprehensive reader presenting the best of the now vast body of literature The book is divided into five parts incorporating readings from the leading experts and authorities in each field The result is a unique and extensive discussion a guide to the evolution of the field and a vital point of reference for those studying or with a keen interest in women in the development process

Handbook Of Research On The International Relations Of Latin America And The Caribbean G. Pope Atkins,2018-02-12

The study of Latin American and Caribbean international relations has a long evolution both within the development of international relations as a general academic undertaking and in terms of the particular characteristics that distinguish the approaches taken by scholars in the field This handbook provides a thorough multidisciplinary reference guide to the literature on the various elements of the international relations of Latin America and the Caribbean Citing over 1600 sources that date from the nineteenth century to the present with emphasis on recent decades the volume s analytic essays trace the evolution of research in terms of concepts issues and themes The Handbook is a companion volume to Atkins Latin America and the Caribbean in the International System Fourth Edition but also serves as an invaluable stand alone reference volume for students scholars researchers journalists and practitioners both official and private

Gender in Latin America Sylvia H. Chant,Nikki Craske,2003

A comprehensive state of the art review of gender in one of the world s most diverse and dynamic regions The authors draw on a wide range of sources including their own field research to explore changes and continuities in gender roles relations and identities during

the late twentieth century into the twenty first Debunking traditional universalizing stereotypes diversity in gender is highlighted in relation to the cross cutting influences of age class sexuality ethnicity rural urban residence and migrant status

Gender, Planning and Human Rights Tovi Fenster, 2002-09-11 Challenging the traditional treatment of human rights cast in purely legal frameworks the authors argue that in order to promote the notion of human rights its geographies and spatialities must be investigated and be made explicit A wealth of case studies examine the significance of these components in various countries with multi cultured societies and identify ways to integrate human rights issues in planning development and policy making The book uses case studies from UK Israel Canada Singapore USA Peru European Union Australia and the Czech Republic

Regional Development: Theory and Practice Baleshwar Thakur, H.S. Sharma, Suresh Misra, S. Chattopadhyay, Surendra Singh, 2017-01-01 The Five Volume Series on Regional Development Theory and Practice is a festschrift dedicated to Professor R P Misra a distinguished scholar widely recognized as one of the pioneers who initiated and promoted Regional Planning studies in India This five volume series with over one hundred research papers on different aspects of regional development is a fitting tribute to the scholar who spent much of his life time thinking researching and writing about development in general and regional development in particular These five volumes each dealing with a specific aspect of regional development Vol 1 Concept of Regional Development Vol 2 Measuring Development Vol 3 Development Patterns and Structures Vol 4 Development Policies and Vol 5 Development Challenges Each of the five volumes begins with an introduction which is unique in the sense that this is not merely an introduction to the contributions contained in the volume but also talks of the theory of regional development contemporary development in the discipline and the contrarian views expressed by various academics and policy makers Another significant aspect of these introductions is the global view and a comparative scenario of the developed developing and under developed economies of the world that the editors have kept in view in a debate seeking an universal theory of regional development Regions are specifics and often unique and regional development implies focusing on the assets of the territory its potential and constraints

A World-Systems Reader Thomas D. Hall, 2000-03-01 This book brings together some of the most influential new research from the world systems perspective The authors survey and analyze new and emerging topics from a wide range of disciplinary perspectives from political science to archaeology Each analytical essay is written in accessible language so that the volume serves as a lucid introduction both to the tradition of world systems thought and the new debates that are sparking further research today

Gendering Globalization on the Ground Gay Young, 2014-11-13 How has globalization worked for women working on the frontlines of neoliberalism on the Mexico US border This border divides US from Others and produces social inequalities that form a site where marginalized border women encounter the othering power of neoliberalism and confront inequalities of gender and class Within this context a critical comparison of socially similar women working either in export production industries or in small scale commerce and low level services in Ciudad Ju rez reveals how export factory work

constrains women's empowerment at home as well as the wages they earn and the well being of their households This volume challenges the neoliberal rationale of empowering women to support market growth and argues instead for understanding women's empowerment as a process of transformation from disempowerment by gender power relations to challenging masculinist domination in households and ultimately the economy and society Because structures of gender and globalization are mutually constituted women's empowerment as gender democracy is integral to producing alternative democratic globalization Using a feminist methodology that gives attention to the standpoint of women located on the downside of social hierarchies and takes into account strategically diverse points of view this study develops analysis to counter neoliberal globalization as it touches down in the lives of ordinary women and men on the border and beyond

Gender, Development, and Humanitarian Work Caroline Sweetman, 2001 While the difficulties of integrating gender equity goals into interventions are acknowledged the authors argue that gender blind responses can further endanger the survival of women and their families and their long term position in society and also deny them the opportunity of exercising their potential as peace builders Feminist Political Ecology Dianne Rocheleau, Barbara Thomas-Slayter, Esther Wangari, 2013-04-15 Feminist Political Ecology explores the gendered relations of ecologies economies and politics in communities as diverse as the rubber tappers in the rainforests of Brazil to activist groups fighting racism in New York City Women are often at the centre of these struggles struggles which concern local knowledge everyday practice rights to resources sustainable development environmental quality and social justice The book bridges the gap between the academic and rural orientation of political ecology and the largely activist and urban focus of environmental justice movements

Globalization: Culture and identity Roland Robertson, Kathleen E. White, 2003 *Transforming Gender and Development in East Asia* Esther Ngan-ling Chow, 2013-12-02 Transforming Gender and Development in East Asia brings together a collection of original essays from top scholars in the United States and Asia to explore the centrality of gender in the process of economic development in East Asia Contributors demonstrate through ethnography personal narratives field observation and in depth interviews the essential parts women have played in the national growth economic restructuring and industrialization of East Asian countries including South Korea Taiwan China Hong Kong Singapore and China

Encompassing Gender Mary M. Lay, Janice J. Monk, Deborah Rosenfelt, 2002 From Beijing to Seattle women's movements within academe and in local global communities are growing at an unprecedented rate raising pointed questions about paradigms of Western feminism development global trade and scholarship Despite this growing visibility the perspectives of far too many women especially from the Global South are still excluded from mainstream U S scholarship Presented with the task of preparing students for life in this new and rapidly shrinking world many scholars have found themselves overwhelmed by the need to cross disciplinary and geographic borders But some faculty are leading the way often in defiance of academic traditions and prejudices to a curriculum that reflects consequences of globalization Encompassing Gender is the long

awaited anthology of more than 40 essays by 60 scholars many of them working in curriculum transformation groups that cut across the humanities the sciences and the social sciences all of them committed to an interdisciplinary approach to internationalizing the curriculum

The Two-Headed Household Sarah Hamilton, 2010-11-23 The Two Headed Household is an ethnographic account of gender relations and intrahousehold decisionmaking as well as a policy oriented study of gender and development in the indigenous Andean community of Chanchalo Ecuador Hamilton's main argument is that the households in these farming communities are two headed Men and women participate equally in agricultural production and management in household decisionmaking and share in the reproductive tasks of child care food preparation and other chores Based on qualitative fieldwork and regional household survey data this book investigates the effect on women's lives of gender bias in agricultural development programs and labor and commodities markets Despite household economic reliance on these programs and markets there is extraordinary evidence of social and economic gender equality Traditional Andean kinship structures enable women and men to enter marriage as materially equal partners As seen in case studies of five women and their families the author continually encounters joint decisionmaking and shared household and agricultural responsibilities In fact it often seems that women have the final say in many decisions There is the belief that a dynamic balance of power between male and female heads provides an impetus toward mutually desired economic and social goals Despite the strong influence of the patriarchal power of the hacienda system Andean gender ideology accords women and men equal measures of physical mental and emotional fortitude The belief that maintaining traditional forms of economic collaboration helped them survive on the hacienda was reinforced under the economic and political domination of the patriarchal systems of the landed elite church and state Today these people are proud of their strong women strong families and community solidarity which they believe distinguishes them from Ecuadorean and American societies Hamilton suggests that women in developing countries should not be viewed as simply or even inevitably victims of gender biased structural or cultural institutions They may resist male bias perhaps even with the support of local level institutions The Two Headed Household demonstrates that analysis of gender relations should focus on forms of cooperation among women and men as well as on forms of conflict and will be of interest to scholars and students in anthropology gender and development and Latin American Studies

Latin America Transformed Robert N Gwynne, Kay Cristobal, 2014-04-23 Praise for the first edition Accomplishes its task to provide readers with a broad multi disciplinary view on globalization's many impacts on Latin America the organization of the collection is logical and thoughtful and the structural perspectives offered are convincing and powerful I recommend it to other Latin American social scientists Growth and Change An impressive timely and lively volume which is especially valuable for teaching purposes Journal of Latin American Studies Authoritatively written by leading scholars in their respective fields Area Latin America Transformed 2nd Edition explains the region's economic political social and cultural transformations its association with globalization and the search for modernity and contributes to

a greater understanding of how these transformations are affecting the people of Latin America Using a political economy approach to unravel the concepts of globalization and modernity within Latin America emphasis is placed on interpreting the macro level structures that frame the transformations taking place The book also investigates the dynamics of people s livelihoods as they make sense of rework and live out these structural transformations The international team of authors involved with the successful first edition have updated their focus and substantially rewritten their material to examine the challenges facing Latin America in the twenty first century Three completely new chapters have also been added Latin America Transformed 2nd Edition is now even more useful for undergraduate and postgraduate courses that examine economic political social and cultural change in Latin America

Caribbean Labor and Politics Perry Mars,Alma H. Young,2004 A pioneering collection of studies linking the political and labor backgrounds of two distinguished and dynamic leaders of the Caribbean and the Third World

The Revolution Question Julie D. Shayne,2004 Theoretically sophisticated and empirically rich Julie Shayne s study elucidates the gender dynamics of revolution with implications beyond her Latin American cases while also bringing life to the experiences of some extraordinary revolutionary feminists Valentine M Moghadam Director of Women s Studies and Professor of Sociology Illinois State University and Chief Gender Section Social and Human Sciences UNESCO The Revolution Question offers a valuable and compelling examination of the crucial question of why feminism matters to social change Until we all accept this fundamental truth there will be no possibility for real social change Margaret Randall author of When I Look into the Mirror and See You Women Terror Resistance Julie Shayne has produced a well written and thoughtful account of the importance of women to the success of revolutionary movements and the largely inadvertent role of the revolutionary leadership in creating the conditions for the rise of feminist movements Scholars and students will find her extensive interviews to be valuable and thought provoking making this an excellent resource for the classroom Karen Kampwirth Associate Professor of Political Science and Chair of the Latin American Studies Program Knox College What do women do for revolutions And what do revolutions do for women Julie Shayne explores the roles of women in revolutionary struggles and the relationship of these movements to the emergence of feminism Focusing upon the three very different cases of El Salvador Chile and Cuba Shayne documents the roles of women in armed and unarmed political activities She argues that women contribute to and participate in revolutionary movements in ways quite distinct from men Despite the fact that their political contributions tend to be seen as less important than those of their male comrades the roles that women play are actually quite significant to the expansion of revolutionary movements Shayne also explains how given the convergence of political and ideological factors feminism is often born in the wake of revolutionary movements As a result revolutionary feminism is a struggle that addresses larger structures of political and economic inequalities Based on in depth interviews with activists in all three countries The Revolution Question offers new insight into the complex gender relations underlying revolutionary social movements and enables us to re assess both the

ways that women affect political struggle and the ways in which political struggle affects women Julie D Shayne is an Assistant Professor of Sociology and Women s Studies at Emory University
