days On the screen flashes the rich and surpassing culture of old Chaldea which belonged to the ancient Cushite empire of Ethiopians Next comes veiled and mysterious India the scene of charming story and magic fable with her subtle mysticism and philosophy Tarrying a while with the conquest and life of the ancient Medes and Persians the trail runs far afield into the dominions of Western Europe and the striking questions array themselves demanding to be answered Who were the Celts Who were the Teutons and what was the origin of the so called Aryan race The author was as much astounded as will be the reader as to what this study reveals It leaves us wondering if there is any Aryan race We learn in the study of the races of Western Europe to understand the hatreds of Europe that underlaid the world war We learn that when the Celt and Teuton call the Ethiopians of the new world Uncle and Auntie they are using titles that are scientifically true Our story passes on to another remnant of the ancient Cushite empire that baffling race the Iberians now represented by the Basques then to the Berbers of North Africa another branch of the Cushite race Some scientists have called them the descendents of the People of Atlantis Next succeed the singular facts about the life of the mysterious Etruscans of old Italy who were the teachers of the Romans then we follow the life and tragedy of the fleeting Pelasgians who were the fountain out of which later Greek culture welled They were the people of the legends of Greek mythology It is almost impossible to find anything but scanty fragments in the world s literature about any of these people of pre historic days but our text has compiled these fragments so many of them as to form fascinating chapters Today all of these subjects remain unexplained mysteries in the average book We dwell for a while on the marvels of the lost civilization of the gean and stop to study the Greece of Homer and the meaning of the Greek legends All having direct relation to the ancient Cushites Historic Greece in all her glory but viewed from new angles passes before us with the older and superior civilization of Asia Minor which has been almost entirely overlooked in modern literature Next we come to the fact that the Phoenicians called themselves Ethiopians and that the Hebrew writers gave them the same name then we reflect upon the strange relationship of the family of Cushite tongues to the so called Indo European group of languages The trail leads us high up to where we get a breathless view of the astounding Ethiopian religion which gives us the answer to many strange and incomprehensible traits in the Ethiopian of today Next follows the chapter on the Wonderful Ethiopians who produced fadeless colors that have held their hues for thousands of years who drilled through solid rock and were masters of many other lost arts and who many scientists believe must have understood electricity who made metal figures that could move and speak and may have invented flying machines for the flying horse Pegasus and the ram of the golden fleece may not have been mere fairy tales Next out of the forgotten wastes of the dark continent rise before us ancient African empires representing other civilizations of the time of the Cretan age Then across the screen comes flashing the Ancient Cushite Trade Routes which contrary to our notion were the medium by which rich and varied products were interchanged
