Wood You Believe: The Twinless Self Jim Cogley, 2014 What we don't know can still deeply affect us This book contains groundbreaking material that expands the horizons of self awareness For many people it has implications that are enormous and far reaching It is a medical fact that more than one in eight people began their journey into life not on their own They had a wombtwin or were part of a multiple pregnancy It is a medical fact that for every set of twins born at least one in five were triplets There is ever increasing evidence that the memory of this early loss can be carried through life as a form of psychological trauma that has previously been unrecognized and usually misdiagnosed The symptoms of having experienced loss in the womb or shortly after include A sadness and sense of loss that persists A loneliness that eats into the bones A difficulty with close relationships A burden of guilt that is irrational A black hole that nothing can fill A tendency towards isolation A creativity that is stunted A difficulty with letting go A search that is endless A depressive mentality A restlessness of spirit A poor sense of self Whether the twin loss took place during the first few months in the latter stages of the pregnancy during or after birth the symptoms seem to vary very little Could this be you or someone that you know If so this book could shed light on the mysterious world of what it's like to be a wombtwin survivor and point the way towards healing and recovery Here are the stories of so many who discovered the key to the mystery that had plagued them all their lives Written in language that is easily understood the steps towards identification and resolution are clearly outlined Here is a book that could truly change your life It could be the most important book you will ever read

Barriere-Mendez,2015-08-06 I stand here with a difficult task to propose and to discuss an Applied Theory of Self that saved my life Let me say that again saved my life I wish someone else had written it thirty years ago and had placed it in my hands It would have been a life with less heartache and headaches A better fuller life And so this is why I m here I m here to say that the reality you see is not real I m here to say that those words you speak and those acts you author are not yours I m here to say that life is not out there as you have been taught but inside of you and that it is yours I m here to say that all that exist and will ever exist is now here right now That it will always be NOW I m here to say that this is your movie that this is your life and I m here to ask what is it about Your movie what is it about The question is not what is it about during but what is it about at the end I m here to say that that decision you make right now you are always making I m also here to say that I m not going to get metaphysical on you Not religious Not even philosophical I m here to say that if you wish you can see what

I m about to say in a spiritual way but it s not a requirement I m here to say that it s all about fears that if you know and learn about fears you ll know all that there s to be known about you and about man I m here to point the way to authenticity and to point the way out of the woods You must do the heavy lifting and the walking yourself because this is your journey This is your life This is your movie I m here to ultimately ask at the end of this movie of yours what is it going to be about I ve got three steps I ve got twelve insights I ve got ninety two enumerated addendums to these insights These insights and their addendums will propose a simpler truer reality where you can be yourself fearlessly I ve got a book Out of the Woods that may save your life
