Free and Easy Website Design for Museums and Historic Sites Kelsey J. S. Ransick, 2015-12-16 Museums and historic sites faced with small budgets and staff can find it intimidating to redesign or create a website from scratch Concerns over resources make coding and designing or hiring someone to do so daunting and expensive It does not have to be so Content creation is inescapable when making a website but designing and constructing a unique website can be as simple as taking an afternoon to use a color chart to pick a color scheme and paste in text from a Word document All of the tools discussed in the book are free at the base level and some offer upgrade packages with even more features The advice and techniques are all created with an eye to making websites work for smaller institutions with limited budgets and timeframes Every museum professional has come across issues when adapting general software for an institution s specific needs and the information in this book will anticipate some of these needs by offering easytoimplement workarounds and information on related software or services that integrate with each website Features include Howto guides for Wix Weebly WordPress and Google Sites Detailed comparisons of WYSIWYG What You See Is What You Get editors by cost features and easeofuse so that you can easily identify which platforms meet your needs Mythbusting of common website and computer assumptions Stepbystep content and design planning guide Basic HTML coding tricks and tips for the slightly more advanced users or those who want to become so A free companion Web site includes links to online resources ongoing updates to this book to keep it current and links to other free online tools and software Go to <https://freethemuseumwixsite.com/aaslh> to request access on this author created and managed companion site

U-Go Healthy 2020 Sisca Mayang Phuspa, Ratih Andhika Akbar Rahma, 2022-09-20 The growth rate of the global halal industry has increased in recent years from 7.5% in 2015 to more than 8% in 2016 and is expected to continue to increase in 2017 and beyond Indonesia in particular has great potential in the development of the halal industry sector because of the percentage of Indonesia s population which

constitutes 12.7% of the world's Muslim population. The large potential of Indonesia in the halal industry sector can support national economic growth. The market for halal industry in Indonesia, especially the food, travel, fashion, medicines, and cosmetics sectors, has reached around 11% of the global market in 2016. Behind the development of the halal industry globally, there are challenges, especially in the health sector. The fact about guaranteeing halal products on drugs is still very alarming because the data from LPPOM MUI shows that out of 30 thousand types of drugs registered with BPPOM and circulating in the community, only 34 drugs are halal certified. In the food sector, data shows that Indonesia is the highest spending country for halal food compared to other countries in the world with a total expenditure of 170 billion US dollars. In the field of Occupational Health and Safety (OHS), it is inseparable in the development of human resources in the halal industry. The security and quality of the halal industry are also closely related to the quality of human resources and the nation's competitiveness. The current development of the halal industry is fairly rapid in non-Muslim majority countries such as Thailand, South Korea, Russia, Mexico, Japan, and Spain. On the contrary, Indonesia has become a contested market target for halal products for foreign countries. This condition will backfire for Indonesia if there are no quick steps to follow up on this problem. Because Indonesian people will only be targeted by consumers in the halal industry market. Strengthening regulatory development programs based on science and scientific evidence according to standard development programs as well as strengthening the system of guidance and supervision of industrial security and its implementation in anticipation of the digital era needs to be done. To answer this problem, U-GO Healthy Forum will hold International seminars and Call for Paper with the theme "The Role of Health Expert in Solving Contemporary Issues in Halal Industry" as the initial step to strengthen the security system of the halal industry.

Content Marketing & Strategy Smriti Khanna, Dr. Elgin Alexander, Dr. Maninder Singh Gill, Dr. Veer P. Gangwar, 2023-02-14

Creating and sharing high quality media content is at the heart of content marketing which aims to increase traffic, leads, conversions, and repeat business. Content marketing in contrast to traditional forms of advertising focuses on fostering favourable brand associations by regularly publishing informative and entertaining material that is of genuine value to the target audience. Websites, podcasts, social media, blogs, applications, print publications, press releases, and a variety of other mediums all contribute to modern content marketing. With the help of the content marketing, your company may become recognized as an authority in your field. Your credibility as a subject matter expert will rise in direct proportion to the amount of useful information you provide to your audience. When people like what you've written, they're more likely to forward it along to others online, which ultimately increases site traffic. To a larger extent, your content's value will determine how many people visit your site. In the long run, this might help you attract more potential buyers who may become paying customers. Relationship development is just as important as sales when using content marketing. Customers will develop confidence and loyalty in you as a business partner if you consistently provide high quality material that contributes to their success. This in turn will increase your sales.
