Making Pictorial Print Alison Hedley,2021-12-21 At the end of the nineteenth century print media dominated British popular culture produced in greater variety and on a larger scale than ever before Within decades new visual and auditory media had ushered in a mechanized milieu displacing print from its position at the heart of cultural life During this period of intense change illustrated magazines maintained a central position in the media landscape by transforming their letterpress orientation into a visual and multimodal one Ultimately this transformation was important for the new media cultures of the twentieth and twenty first centuries Making Pictorial Print recovers this chapter in the history of new media applying concepts from media theory and the digital humanities to analyse four popular late Victorian magazines the Illustrated London News the Graphic Pearson s Magazine and the Strand and the scrapbook media that appropriated them Using the concept of media literacy these case studies demonstrate the ways in which periodical design aesthetics affected the terms of engagement presented to readers creating opportunities for them to participate in and even contribute to popular culture Shaped by publishers advertisers and readers themselves the pages of these periodicals document the emergence of modern mass culture as we know it and offer insight into the new media of our digital present

Trump: Tribalism and the God Module James A. Lahde,2020-09-15 Trump Tribalism and the God Module By Jim A Lahde What makes Trump Tribalism and the God Module unique and interesting is the God Module a cluster of nerves in the human brain that addicts humans to tribal ideologies while blinding them to contrary ideologies Classic tribalism and the role God Modules play in driving liberal rebel forces to ferment chaos in large established conservative cultures where community solidarity is lost Rebels like Father of the New Left Marxist professor Herbert Marcuse who in the 1970s influenced students like Soul Alinsky Mrs Clinton and Mr Obama to destroy capitalism by dividing the country via identity politics Classic Internecine Tribalism In a few decades that pathologic Marxist philosophy turned into Postmodernism that was driven by the Gang of 5 The media social sciences Income Elite Democrat Party and public education institutions What readers should take away is an appreciation for how the God Module does not differentiate between how religious and secular tribes function how successful classic tribalism nationalism has been for the human species and how destructive internecine tribalism has been to many large established historic tribes like Rome as well as large established democratic tribes like America

Small Business Management Timothy S. S. Hatten,2024

Women Poets, Male Publishers Lise Jaillant,2025-03-17 We are often told that the women s movement of the 1960s and 1970s led to the rediscovery of forgotten women writers Without feminist presses such as Virago these women would have sunk into obscurity Thanks to Carmen Callil and other trailblazing feminist publishers a canon of women s literature emerged and

living writers managed to survive and sometimes thrive in a literary marketplace that had so far been dominated by men. Although obstacles remained the story is one of the triumphs over a misogynistic publishing industry a sector that had once sought to erase women writers of the past marginalise living authors and close the doors to any future legacy. There are two problems with this oft repeated story. First it focuses mainly on fiction rather than poetry. Founded in 1973 Virago did not start publishing poetry until the early 1980s. Second it neglects the major role that conservative male publishers played in re-discovering women poets in post 1960s Britain. With the growing influence of the Women's Liberation movement these publishers realised that there was a growing market for poetry by women. At the same time the Arts Council of Great Britain started pushing for more diversity nudging its clients to make more room for women and ethnic minorities. Drawing on extensive archival work and oral history interviews this open access book pushes the boundaries of a scholarship that has focused mainly on women's poetry in relation to women's presses. Archival documents show the influence of the Arts Council and the market in pushing conservative publishers towards more diversity. This evolution has had long term consequences on the canon of women's poetry a canon that was largely shaped by conservative publishing houses rather than radical feminist presses.
