Cli-Fi and Class Debra J. Rosenthal, Jason de Lara Molesky, 2023-10-09 Since its emergence in the late twentieth century climate fiction or cli fi has concerned itself as much with economic injustice and popular revolt as with rising seas and soaring temperatures Indeed with its insistent focus on redressing social disparities cli fi might reasonably be classified as a form of protest literature As environmental crises escalate and inequality intensifies literary writers and scholars alike have increasingly scrutinized the dual exploitations of the earth s ecosystems and the socioeconomically disadvantaged Cli Fi and Class focuses on the representation of class dynamics in climate change narratives With fifteen essays on the intersection of the economic and the ecological addressing works ranging from the novels of Joseph Conrad Cormac McCarthy and Octavia Butler to the film Black Panther and the Broadway musical Hadestown this collection unpacks the complex ways economic exploitation impacts planetary well being and the ways climatic change shapes those inequities in turn

Environmental Justice as Social Work Practice Christina L. Erickson, 2018-05-30 Environmental Justice as Social Work Practice places the natural environment as central to practice Utilizing the Phases of Practice and micro to macro levels of practice the book integrates neatly into a college semester course Chapters cover important components of social work such as theory ethics conceptual foundations as well as distinct chapters on micro mezzo and macro practice Each chapter expands the discipline's commitment to and applied efforts in the environmental movement while recognizing the unique contributions social work has to offer to ameliorate environmental inequities Chapters include real world stories from environmental social work practitioners case studies and boxed sections highlighting organizations and people who bridge

the human and natural justice divide Each chapter concludes with learning activities and critical thinking questions providing learning activities that map easily to a course syllabus A matrix identifying the placement of educational competencies from the Council on Social Work Education is included The textbook provides a framework for social work educators to bravely and competently teach environmental social work as a stand alone college course or to incorporate into a traditional practice course

Environmental Justice, Popular Struggle and Community Development Anne Harley,Eurig Scandrett,2019-06-05 Struggles for environmental justice involve communities mobilising against powerful forces which advocate development driven increasingly by neoliberal imperatives In doing so communities face questions about their alliances with other groups working with outsiders and issues of class race ethnicity gender worker community and settler indigenous relationships Written by a wide range of international scholars and activists contributors explore these dynamics and the opportunities for agency and solidarity They critique the practice of community development professionals academics trade union organisers social movements and activists and inform those engaged in the pursuit of justice as community development and environment interact

The Earth, the City, and the Hidden Narrative of Race Carl C. Anthony,2017-10-16 This book by Carl C Anthony offers a new story about race and place intended to bridge long standing racial divides The long ignored history of African American contributions to American infrastructure and the modern economic system is placed in the larger context of the birth of the universe and the evolution of humanity in Africa The author interweaves personal experiences as an architect planner environmentalist and black American with urban history racial justice cosmology and the challenge of healing the environmental and social damage that threatens the future of humankind Thoughtful writing about race urban planning and environmental and social equity is sparked by stories of life as an African American child in post World War II Philadelphia a student and civil rights activist in 1960s Harlem a traveling student of West African architecture and culture and a pioneering environmental justice advocate in Berkeley and New York This book will appeal to everyone troubled by racism and searching for solutions including individuals exploring their identity and activists eager to democratize power and advance equitable policies in historically marginalized communities This is a rich insightful encounter with an American urbanist with a uniquely expansive perspective on human origins who sets forth what he calls an inclusive vision for a shared planetary future

Working-Class Environmentalism Karen Bell,2019-12-16 This book presents a timely perspective that puts working class people at the forefront of achieving sustainability Bell argues that environmentalism is a class issue and confronts some current practice policy and research that is preventing the attainment of sustainability and a healthy environment for all She combines two of the biggest challenges facing humanity that millions of people around the world still do not have their social and environmental needs met including healthy food clean water affordable energy clean air and that the earth s resources have been over used or misused Bell explores various solutions to these social and ecological crises and lays out an agenda for simultaneously achieving greater well being equality and sustainability The result will be an invaluable

resource for practitioners and policy makers working to achieve environmental and social justice as well as to students and scholars across social policy sociology human geography and environmental studies The Routledge Handbook of Environmental Justice Ryan Holifield, Jayajit Chakraborty, Gordon Walker, 2017-09-14 The Routledge Handbook of Environmental Justice presents an extensive and cutting edge introduction to the diverse rapidly growing body of research on pressing issues of environmental justice and injustice With wide ranging discussion of current debates controversies and questions in the history theory and methods of environmental justice research contributed by over 90 leading social scientists natural scientists humanists and scholars from professional disciplines from six continents it is an essential resource both for newcomers to this research and for experienced scholars and practitioners The chapters of this volume examine the roots of environmental justice activism lay out and assess key theories and approaches and consider the many different substantive issues that have been the subject of activism empirical research and policy development throughout the world The Handbook features critical reviews of quantitative qualitative and mixed methodological approaches and explicitly addresses interdisciplinarity transdisciplinarity and engaged research Instead of adopting a narrow regional focus it tackles substantive issues and presents perspectives from political and cultural systems across the world as well as addressing activism for environmental justice at the global scale Its chapters do not simply review the state of the art but also propose new conceptual frameworks and directions for research policy and practice Providing detailed but accessible overviews of the complex varied dimensions of environmental justice and injustice the Handbook is an essential guide and reference not only for researchers engaged with environmental justice but also for undergraduate and graduate teaching and for policymakers and activists **Love Canal Revisited : Race, Class, and Gender in Environmental Activism** Elizabeth D. Blum, 2008 Historical snapshots of the Love Canal area Gender at Love Canal Race at Love Canal Class at Love Canal Historical implications of gender race and class at Love Canal Routledge Handbook of Religion and Ecology Willis Jenkins, Mary Evelyn Tucker, John Grim, 2016-07-22 The moral values and interpretive systems of religions are crucially involved in how people imagine the challenges of sustainability and how societies mobilize to enhance ecosystem resilience and human well being The Routledge Handbook of Religion and Ecology provides the most comprehensive and authoritative overview of the field It encourages both appreciative and critical angles regarding religious traditions communities attitude and practices It presents contrasting ways of thinking about religion and about ecology and about ways of connecting the two terms Written by a team of leading international experts the Handbook discusses dynamics of change within religious traditions as well as their roles in responding to global challenges such as climate change water conservation food and population It explores the interpretations of indigenous traditions regarding modern environmental problems drawing on such concepts as lifeway and indigenous knowledge This volume uniquely intersects the field of religion and ecology with new directions within the humanities and the sciences This interdisciplinary volume is an essential reference for scholars and students across the

social sciences and humanities and for all those looking to understand the significance of religion in environmental studies and policy General Technical Report PNW-GTR ,2002 **At Home in the World** Kathleen A. Cairns,2021-05 From the beginning of California's statehood adventurers scientists and writers reveled in its majestic landscape Some were women though few garnered attention or invitations to join the Sierra Club the organization created in 1892 to preserve wilderness Over the next sixty years the Sierra Club and other groups gained prestige and members including an increasing number of women But these organizations were not equipped to confront the massive growth of industry that overtook postwar California This era needed a new approach and it came from an unlikely source white middle class housewives with no experience in politics These women successfully battled smog nuclear power plants piles of garbage in the San Francisco Bay and over building in the Santa Monica Mountains In *At Home in the World* Cairns shows how women were at the center of a broader and more inclusive environmental movement that looked beyond wilderness to focus on people's daily life These women challenged the approach long promoted by establishment groups and laid the foundation for the modern environmental movement **Corruption and the Management of Public Safety** Simon Ashley Bennett,2024-03-05 Graft is a common and persistent social pathogen that afflicts the developed and developing world in equal measure This book describes through the medium of international case studies how graft undermines public safety and how following a near miss incident or accident investigators can use actor network theory ANT to ascertain to what degree and through what mechanisms graft contributed to the event The book introduces the reader to graft through a variety of case studies and explains how graft works against the public interest The relatable case studies include the 1989 Hillsborough football stadium disaster 2007 Adam Air crash 2015 ongoing Volkswagen diesel emissions scandal and 2020 Beirut ammonium nitrate explosion Lebanon It demonstrates the threat graft poses to public safety economic success and corporate and national reputation By the end of the book the reader will understand the nature and extent of the problem of graft how graft undermines safety confidence and reputation and how ANT can be used to identify and quantify graft in respect of the governance of technological systems and to ascertain to what degree and through what mechanisms graft contributed to a near miss incident or accident Primarily aimed at an academic audience this book will offer essential insights to students researchers and faculty within the fields of risk crisis and disaster management as well as corporate governance and safety The accessible nature of the book will also appeal to safety practitioners risk managers and accident investigators **This Sacred Earth** Roger S. Gottlieb,2003-11-07 Updated with nearly forty new selections to reflect the tremendous growth and transformation of scholarly theological and activist religious environmentalism the second edition of *This Sacred Earth* is an unparalleled resource for the study of religion's complex relationship to the environment Coalitions across the Class Divide Fred Rose,2018-10-18 Too often struggles for jobs and economic justice have been divided from social goals such as peace or protecting the environment How do we create an economy where both the process and product of work serve life

sustaining goals Coalitions across the Class Divide argues that the seeds of this new society are being sown by those who learn to bridge working and middle class movements and cultures A new generation of activists is seizing a historic opportunity to organize coalitions across the labor peace environmental and other movements that have previously worked in isolation or at odds Fred Rose brings the challenges and potential of coalition organizing to life through an in depth look at cases of conflict and cooperation From the timber wars in the Pacific Northwest to military conversion coalitions emerging with the end of the Cold War these cases teach practical lessons about the processes and pitfalls of organizing across movements and classes
