Webster, Louise Stiver, D. Y. Begay, Lynda Teller Pete, 2017-08-15 Navajo Textiles provides a nuanced account the Navajo weavings in the Crane Collection at the Denver Museum of Nature Science one of the largest collections of Navajo textiles in the world Bringing together the work of anthropologists and indigenous artists the book explores the Navajo rug trade in the mid nineteenth century and changes in the Navajo textile market while highlighting the museum s important though still relatively unknown collection of Navajo textiles In this unique collaboration among anthropologists museums and Navajo weavers the authors provide a narrative of the acquisition of the Crane Collection and a history of Navajo weaving Personal reflections and insights from foremost Navajo weavers D Y Begay and Lynda Teller Pete are also featured and more than one hundred stunning full color photographs of the textiles in the collection are accompanied by technical information about the materials and techniques used in their creation An introduction by Ann Lane Hedlund documents the growing collaboration between Navajo weavers and museums in Navajo textile research The legacy of Navajo weaving is complex and intertwined with the history of the Din themselves Navajo Textiles makes the history and practice of Navajo weaving accessible to an audience of scholars and laypeople both within and outside the Din community *Handweaving* Isabel Buschman, 1991 Buschman annotates more

than 550 books and periodical titles published on the techniques and history of handweaving from 1928 through October 1989 She includes works on how to weave basic weaving texts books on looms and equipment and patterns both for weaving and for woven articles handweaving history and historic fabrics from around the world works on Native American weaving ranging from the Chilkats of the Northwest coast of North America to the Pueblos and Navajos of our Southwest Mexico and Central America and on through the rich weaving culture of the Andes reference works containing specialized bibliographies and information on fibers dyes education and marketing and periodicals With author title and subject indexes *Designing with the Wool* Noël Bennett, 1979 A step by step manual that illustrates techniques for constructing looms and other weaving tools and making Navajo rug designs Blanket Weaving in the Southwest Joe Ben Wheat, 2022-06-21 Exquisite blankets sarapes and ponchos handwoven by southwestern peoples are admired throughout the world Despite many popularized accounts serious gaps have existed in our understanding of these textiles gaps that one man devoted years of scholarly attention to address During much of his career anthropologist Joe Ben Wheat 1916 1997 earned a reputation as a preeminent authority on southwestern and plains prehistory Beginning in 1972 he turned his scientific methods and considerable talents to historical questions as well He visited dozens of museums to study thousands of nineteenth century textiles oversaw chemical tests of dyes from hundreds of yarns and sought out obscure archives to research the material and documentary basis for textile development His goal was to establish a key for southwestern textile identification based on the traits that distinguish the Pueblo Navajo and Spanish American blanket weaving traditions and thereby provide a better way of identifying and dating pieces of unknown origin Wheat s years of research resulted in a masterful classification scheme for southwestern textiles and a book that establishes an essential baseline for understanding craft production Nearly completed before Wheat s death *Blanket Weaving in the Southwest* describes the evolution of southwestern textiles from the early historic period to the late nineteenth century establishes a revised chronology for its development and traces significant changes in materials techniques and designs Wheat first relates what Spanish observers learned about the state of native weaving in the region a historical review that reveals the impact of new technologies and economies on a traditional craft Subsequent chapters deal with fibers yarns dyes and fabric structures including an unprecedented examination of the nature variety and origins of bayeta yarns and with tools weaves and finishing techniques A final chapter constructed by editor Ann Hedlund from Wheat s notes provides clues to his evolving ideas about the development of textile design Hedlund herself a respected textile scholar and a protégé of Wheat s is uniquely qualified to interpret the many notes he left behind and brings her own understanding of weaving to every facet of the text She has ensured that Wheat s research is applicable to the needs of scholars collectors and general readers alike Throughout the text Wheat discusses and evaluates the distinct traits of the three textile traditions More than 200 photos demonstrate these features including 191 color plates depicting a vast array of chief blankets shoulder blankets ponchos sarapes diyugi mantas and dresses from museum collections nationwide In addition

dozens of line drawings demonstrate the fine points of technique concerning weaves edge finishes and corner tassels Through his groundbreaking and painstaking research Wheat created a new view of southwestern textile history that goes beyond any other book on the subject Blanket Weaving in the Southwest addresses a host of unresolved issues in textile research and provides critical tools for resolving them It is an essential resource for anyone who appreciates the intricacy of these outstanding creations Bighorse the Warrior Tiana Bighorse,1994-05-01 An account of Bighorse s life recalled by his daughter Tiana providing glimpses into Navajo life and values of a century ago Working the Navajo Way Colleen M. O'Neill,2005 O Neill chronicles a history of Navajo labor that illuminates how cultural practices and values influenced what it meant to work for wages or to produce commodities for the marketplace Through accounts of Navajo coal miners weavers and those who left the reservation in search of wage work she explores the tension between making a living the Navajo way and working elsewhere BOOK JACKET **Women Ethnographers and Native Women Storytellers** Susan Berry Brill de Ramírez,2015-11-19 This book focuses on the collaborative work between Native women storytellers and their female ethnographers and or editors but the book is also about what it is that is constitutive of scientific rigor factual accuracy cultural authenticity and storytelling signification and meaning Regardless of discipline academic ethnographers who conducted their field work research during the twentieth century were trained in the accepted scientific methods and theories of the time that prescribed observation objectivity and evaluative distance In contradistinction to such prescribed methods regarding the ethnographic work conducted among Native Americans it turns out that the intersubjectively relational work of women both ethnographers and the Indigenous storytellers with whom they worked has produced far more reliably factual historically accurate and tribally specific Indigenous autobiographies than the more scientifically objective approaches of most of the male ethnographers This volume provides a close lens to the work of a number of women ethnographers and Native American women storytellers to elucidate the effectiveness of their relational methods Through a combined rhetorical and literary analysis of these ethnographies we are able to differentiate the products of the women s working relationships By shifting our focus away from the surface level textual reading that largely approaches the texts as factually informative documents literary analysis provides access into the deeper levels of the storytelling that lies beneath the surface of the edited texts Non Native scholars and editors such as Franc Johnson Newcomb Ruth Underhill Nancy Lurie Julie Cruikshank and No l Bennett and Native storytellers and writers such as Grandma Klah Mar a Chona Mountain Wolf Woman Mrs Angela Sidney Mrs Kitty Smith Mrs Annie Ned and Tiana Bighorse help us to understand that there are ways by which voices and worlds are more and less disclosed for posterity The results vary based upon the range of factors surrounding their production but consistent across each case is the fact that informational accuracy is contingent upon the the degree of mutual respect and collaboration in the women s working relationships And it is in their pioneering intersubjective methodologies that the work of these women deserves far greater attention and approbation **Weaving a**

Axford,1975 *Celebrating the Wounded Healer Psychotherapist* Sharon Klayman Farber,2016-10-04 Why would someone decide to become a psychotherapist It is well known within the field that psychoanalysts and psychotherapists are often drawn to their future professions as a result of early traumatic experiences and being helped by their own psychoanalytic treatment While dedicating their lives to relieving emotional suffering without being judgmental they fear compromising their reputations if they publicly acknowledge such suffering in themselves This phenomenon is nearly universal among those in the helping professions yet there are few books dedicated to the issue In this innovative book Farber and a distinguished range of contributors examine how the role of the wounded healer was instrumental in the formulation of psychoanalysis and how using their own woundedness can help clinicians work more effectively with their patients and advance theory in a more informed manner Celebrating the Wounded Healer Psychotherapist will be of interest to psychoanalysts and psychoanalytic psychotherapists graduate students in clinical disciplines including psychology social work ministry chaplaincy and nursing as well as the general public A bibliography of the Athapaskan languages Richard T.
