The World Republic of Letters Pascale Casanova, 2004 **Pascale Casanova's World of Letters and Its Legacies**

, 2022-10-04 Pascale Casanova's *World of Letters and Its Legacies* proposes a wide ranging appraisal of the work influence and intellectual profile of a major figure in the humanities and social sciences from sociology to literary theory and criticism Both a tribute to the life and work of Pascale Casanova and a critical examination of the dissemination of her theoretical ideas around the world and in fields as diverse as world literature comparative literature translation studies and the sociology of literature the essays selected here are signed by leading scholars in these disciplines including David Damrosch Claire Ducournau Mads Rosendahl Thomsen Tiphaine Samoyault and Jing Tsu among others *The World Republic of Letters* Pascale Casanova, 2004 The world of letters has always seemed a matter more of metaphor than of global reality In this book Pascale Casanova shows us the state of world literature behind the stylistic refinements a world of letters relatively independent from economic and political realms and in which language systems aesthetic orders and genres struggle for dominance Rejecting facile talk of globalization with its suggestion of a happy literary melting pot Casanova exposes an emerging regime of inequality in the world of letters where minor languages and literatures are subject to the invisible but implacable violence of their dominant counterparts Inspired by the writings of Fernand Braudel and Pierre Bourdieu this ambitious book develops the first systematic model for understanding the production circulation and valuing of literature worldwide Casanova proposes a baseline from which we might measure the newness and modernity of the world of letters the literary equivalent of the meridian at Greenwich She argues for the importance of literary capital and its role in giving value and legitimacy to nations in their incessant struggle for international power Within her overarching theory Casanova locates three main periods in the genesis of world literature Latin French and German and closely examines three towering figures in the world republic of letters Kafka Joyce and Faulkner Her work provides a rich and surprising view of the political struggles of our modern world one framed by sites of publication circulation translation and efforts at literary annexation

Nineteenth-Century Transatlantic Reprinting and the Embodied Book Professor Jessica DeSpain, 2014-09-28 Until the Chace Act in 1891 no international copyright law existed between Britain and the United States which meant publishers were free to edit text excerpt whole passages add new illustrations and substantially redesign a book's appearance In spite of this ongoing process of transatlantic transformation of texts the metaphor of the book as a physical embodiment of its author persisted Jessica DeSpain's study of this period of textual instability examines how the physical book acted as a major form of cultural exchange between Britain and the United States that called attention to volatile texts and the identities they manifested Focusing on four influential works Charles Dickens's *American Notes for General Circulation* Susan Warner's *The Wide Wide World* Fanny Kemble's *Journal of a Residence on a Georgian Plantation* and Walt Whitman's *Democratic Vistas* DeSpain shows that for authors readers and publishers struggling with the unpredictability of the textual body the physical

book and the physical body became interchangeable metaphors of flux At the same time discourses of destabilized bodies inflected issues essential to transatlantic culture including class gender religion and slavery while the practice of reprinting challenged the concepts of individual identity personal property and national identity *The Fabric of Cultures* Eugenia Paulicelli, Hazel Clark, 2009-06-02 Fashion is both public and private material and symbolic always caught within the lived experience and providing an incredible tool to study culture and history The Fabric of Cultures examines the impact of fashion as a manufacturing industry and as a culture industry that shapes the identities of nations and cities in a cross cultural perspective within a global framework The collected essays investigate local and global economies cultures and identities and the book offers for the first time a wide spectrum of case studies which focus on a diversity of geographical spaces and places from global capitals of fashion such as New York to countries less known or identifiable for fashion such as contemporary Greece and soviet Russia Highly illustrated and including essays from all over the world The Fabric of Cultures provides a comprehensive survey of the latest interdisciplinary scholarship on fashion identity and globalisation
