Essay:

My Family

My family is the best! I have a mommy and a daddy and a big sister. Mommy makes yummy pancakes for breakfast. They have chocolate chips! Daddy tells funny jokes and tickles me. My big sister helps me with my homework. She knows everything!

My School
School is fun
We learn and play
Friends all day

Books and crayons
Songs and games
Happy all day

The Lost Teddy

Tim had a teddy bear. He loved his teddy. One day, Tim couldn't find his teddy. He looked under his bed. No teddy. He looked in his toy box. No teddy.

My Pet Dog

Fluffy is my bestest friend
His tail wags and never ends
We play fetch in the yard all day
And cuddle when it's time to say
goodnight
He barks at squirrels in the trees
And chases after falling leaves

The Writing On The Wall:

The Writing on the Wall John Malcolm Russell, 1999 The walls of the Assyrian palaces as well as throne bases doors and thresholds were adorned with inscriptions These inscriptions were surrounded in mystery and esoteric knowledge of their creation and meaning and deal with a number of different subjects concerned with Assyrian kings and their achievements and exploits

The Writing on the Wall Will Hutton, 2006-11-14 This controversial book suggests and urges that America must help China become a superpower in order to guarantee its own financial success and possibly even world peace

Writing on the Wall Philip Van Notten, 2005 Although the significance of 9 11 is subject to debate it is symbolic of a general sentiment of discontinuity whereby society is vulnerable to undefined and highly disruptive events Recent catalysts of this sentiment are eye catching developments such as the SARS Severe Acute Respiratory Syndrome and bird flu outbreaks the Enron and Parmalat scandals political assassinations in Sweden and the Netherlands regime changes in Iraq and Afghanistan and terrorist attacks in Bali Istanbul Madrid and various parts of the Middle East However recent discontinuities should not be seen as evidence that discontinuities occur more frequently now than they did before Looking back in history we see that disruptive processes are common For example 25 years ago few Europeans would have predicted the upcoming upheavals on their own continent the collapse of communism Berlin as the capital of a reunited Germany the wars in the former Yugoslavia the single European currency and the near doubling of the number of European Union member states Changes elsewhere have been no less discontinuous and unforeseen the fall of the Asian tigers the emergence of the Internet and mobile telecommunication and the presidency of Nelson Mandela Societal discontinuity is a relatively new area of concern in policy development Since the 1970s the consideration of change and discontinuity has gained some ground over predictive forecasting which tended to reason from continuous developments and linear processes Rather than making forecasting the future it has become popular to use scenarios as a manner to consider several possible futures Scenarios are coherent descriptions of alternative hypothetical futures that reflect different perspectives on past present and future developments which can serve as a basis for action Scenario development aims to combine analytical knowledge with creative thinking in an effort to capture a wide range of possible future developments in a limited number of outlooks Scenario development assumes that the future is uncertain and the directions in which current developments might range from the conventional to the revolutionary In theory scenario development is a way to consider future discontinuity However there are indications that the theoretical promise is not reflected in scenario practice Research has shown that scenarios do not consider the idea of discontinuity as a matter of course In our research we found that a scenario study would benefit from efforts to create and foster a culture of curiosity for exploring the future and the possible discontinuities rather than simply commissioning a scenario study to provide insights about the future Only then can one read the writing on the wall of future developments
