The Zeppelin in Combat Douglas H. Robinson,1966 **The Zeppelin in Combat** Douglas Hill Robinson,1980 **The Zeppelin in Combat** Douglas H. Robinson,Douglas Hill Robinson,1994 The standard reference now revised and expanded Dr Robinson has opened up his vast photo archives to enhance this new edition of his classic work Much of the new photographic material is published here for the first time *Air and Sea Power in World War I* Maryam Philpott,2013-05-30 The Great War tore the fabric of Europe apart killing over 35 million men and challenging the notion of heroism in war *Air and Sea Power in World War I* focuses on the experience of World War I from the perspective of British pilots and sailors themselves to demonstrate that the army centric view of war studies has been too limited The Royal Flying Corps created in 1912 adapted quickly to the needs of modern warfare driven by the enthusiasm of its men In contrast the lack of modernisation in the Royal Navy despite the unveiling of HMS Dreadnought in 1906 undermined Britain s dominance of the seas By considering five key aspects of the war experience this book analyses how motivation was created and sustained What training did men receive and how effectively did this prepare them for roles that were predominantly non combative How was motivation affected by their individual relationship with weaponry development and how different was defensive service on the Home Front when in close proximity to ordinary civilian life Finally *Air and Sea Power in World War I* looks at the changing reputation of the services during and after the conflict and the extent to which these notions were created by the memoirs of pilots and sailors Featuring new primary source material including the journals of service men themselves this book will be essential reading for students and scholars of World War I and of Naval Aviation and Military History

Koleśnik, 1982 **Fighting the Great War at Sea** Norman Friedman, 2014-10-22 The overriding image of the First World War is the bloody stalemate of the Western Front but although much of the action did occur on land the overall shape of the war _ even the inevitability of British participation _ arose out of its maritime character It was essentially a struggle about access to worldwide resources most clearly seen in the desperate German attempts to deal with the American industrial threat which ultimately levered the United States into the war and thus a consequence of British sea control rn This radical new book concentrates on the way in which each side tried to use or deny the sea to the other and in so doing it describes rapid wartime changes not only in ship and weapon technology but also in the way naval warfare was envisaged and fought Combat produced many surprises some like the impact of the mine and torpedo are familiar but this book also brings to light many previously unexplored subjects like creative new tactical practices and improved command and control rn The contrast between expectation and reality had enormous consequences not only for the course of the war but also for the way navies developed afterwards This book melds strategic technical and tactical aspects to reveal the First World War from a fresh perspective but also demonstrates how its perceived lessons dominated the way navies prepared for the Second **From the Dreadnought to Scapa Flow: Victory and aftermath** Arthur Jacob Marder, 1961 Documented account of British naval policy from the rise of the battleship to its decline in the age of nuclear warfare **Aerospace Historian**, 1983 **Subject Catalog** Library of Congress, **Subject Catalog, 1981** Library of Congress, 1981 Academic American Encyclopedia, 1993 The British Library General Catalogue of Printed Books to 1975 British Library, 1985 *German Military Aviation* Edward L.
