Marques, June Schmieder-Ramirez, Petros G. Malakyan, 2023-03-29 This handbook integrates the best leadership and followership theories and practices between the Global North West countries of Western individualistic cultures in Europe North America Australia and Oceania and the Global South East countries of Eastern collectivistic cultures in Asia Africa South America and South East Asian and Oceania There is a need to bring the Global North West and the Global South East together to address global challenges such as the climate change global hunger and poverty domestic and international terrorism social justice gender inequality and domestic and global abuse of human and natural resources This innovative volume proposes that the democratic leadership of the Global North West and the human centered followership of the Global South East can transform the world if leadership and followership values education and practices are integrated It utilizes findings from positive psychology social psychology organizational behavior and world religions and contemplative wisdom traditions to highlight the case for global leadership and followership      **De-Westernizing Communication Research** Georgette Wang, 2010-12-14 The rise of postmodern theories and pluralist thinking has paved the way for multicultural approaches to communication studies and now is the time for decentralization de Westernization and differentiation This trend is reflected in the increasing number of communication journals with a national or regional focus Alongside this proliferation of research output from outside of the mainstream West there is a growing discontent with communication theories being Westerncentric Compared with earlier works that questioned the need to distinguish between the Western and the non Western and to build Asian communication theories there seems to be greater assertiveness and determination

in searching for and developing theoretical frameworks and paradigms that take consideration of and therefore are more relevant to the cultural context in which research is accomplished This path breaking book moves beyond critiquing Westerncentrism in media and communication studies by examining where Eurocentrism has come from how is it reflected in the study of media and communication what the barriers and solutions to de centralizing the production of theories are and what is called for in order to establish Asian communication theories      Working with Differences in Communities Ann Schaubert,2002
