More Than Play Dionne Koller, 2025 Tens of millions of children in the United States participate in youth sport a pastime widely believed to be part of a good childhood Yet most children who enter youth sport are driven to quit by the time they enter adolescence and many more are sidelined by its high financial burdens Until now there has been little legal scholarly attention paid to youth sport or its reform Dionne Koller sets the stage for a different approach by illuminating the law and policy assumptions supporting a model that puts children's bodies to work in an activity that generates significant surplus value In doing so she identifies the wide array of beneficiaries

who have a stake in a system that is much more than just play and the political choices that protect these parties interests at children s expense **Physical Activity and Sport During the First Ten Years of Life** Richard Bailey,Jennifer P.

Agans,Jean Côté,Andy Daly-Smith,Phillip D. Sports Crazy Steven J. Overman,2019-02-11 Sports Crazy How Sports Are Sabotaging American Schools exposes the excesses of middle and high school sports and the detrimental effects our sports obsession has on American education Institutions are increasingly emulating college and professional sports models and losing sight of a host of educational and health goals Steven J Overman describes how this agenda is driven largely by partisan fans and parents of athletes who exert an inordinate influence on school priorities and he explains how and why school administrators shockingly and consistently capitulate to these demands The author underscores the incongruity of public schools involved in an entertainment business and the effects this diversion has on academic integrity learning life experience and overall educational outcomes Overman examines out of control school sports within the context of a school s educational mission and curriculum with telling

reference to impacts on physical education He explores as well the outsized place of interscholastic sports beyond the classroom and scrutinizes the distorted relationship between intramural or recreational sports and elitist varsity athletics Overman s chapter on tackle football explains many reasons why this sport should be eliminated from the school extracurriculum and replaced by flag or touch football Overman presents a brief history of interscholastic sports and he compares and contrasts the American experience of school sponsored sport to the European model of community based clubs Which approach better serves students Overman recommends reforms in the context of a radical proposal to phase out interscholastic sports in favor of an intramural or club model This approach would alleviate such problems as elitism and gender bias and reign in hypercompetitiveness while freeing schools to educate students rather than provide public entertainment

Take Back the Game Linda Flanagan, 2022-08-23 A really brilliant book Malcolm Gladwell So important Glennon Doyle Longlisted for the Porchlight Business Book Awards 2022 A close look at how big money and high stakes have transformed youth sports turning once healthy fun activities for kids into all consuming endeavors putting stress on children and families alike Some 75% of American families want their kids to play sports Athletics are training grounds for character friendship and connection at their best sports insulate kids from hardship and prepare them for adult life But youth sports have changed so dramatically over the last 25 years that they no longer deliver the healthy outcomes everyone wants Instead unbeknownst to most parents kids who play competitive organized sports are more likely to burn out or suffer from overuse injuries than to develop their characters or build healthy habits What happened to kids sports And how can we make them fun again In Take Back the Game coach and journalist Linda Flanagan reveals how the youth sports industry capitalizes on parents worry about their kids futures selling the idea that more competitive play is essential in the feeding frenzy over access to colleges and universities Drawing on her experience as a coach and a parent along with research and expert analysis Flanagan delves into a national obsession that has Compelled kids to specialize year round in one sport Increased the risk of both physical injury and mental health problems Encouraged egregious behavior by coaches and parents Reduced access to sports for low income families A provocative and timely entrant into a conversation thousands of parents are having on the sidelines Take Back the Game uncovers how youth sports became a serious business the consequences of raising the stakes for kids and parents alike and the changes we need now

Carrying Lawn Chairs Mark Robertson, 2016-08-01 There is an obsession with youth sports in the US and around the world It seems that most parents want to get their kids started in youth sports and other pursuits as early as possible to supposedly give them a leg up on other kids whose parents are also probably starting them at a young age in sports and other activities A major thrust of the book is that young kids should be allowed to have their childhood and

be involved in much authentic and natural play That's how they discover who they are and thus are in a better position to meet the demands of the competitive world in their adult years I think that organized youth sports gets in the way of young kids being involved in authentic play and having real fun I say a number of controversial things in the book For example I think it is dysfunctional for throngs of adults to flock to organized youth sports for very young kids The kids don't want to be there The adults are on edge about how their kids are performing No one seems to be having any fun I realize that many parents and grandparents and others so want to be at these games but again I think it is dysfunctional Unlike most books on problems with youth sports I don't say what can be done to improve organized youth sports for very young kids I am against organized sports for kids under 10 and maybe even 12 I'm not against sports I'm a big sports fan and follow major league sports I have a story about a hockey team that played when they youth were in their teens and they have fond memories of playing and even traveling together but they were older and more able to deal with organized sports and its many demands I talk about winning and many other things related to youth sports and the many shortcomings that I think are a part of organized youth sports especially for the very young I point out that what the young kids really want more than anything is the love of their parents There are many aspects of organized youth sports that get in the way of young kid being made to feel loved by their parents In the second part of the book I talk about other aspects of parenting related to various topics including government education discipline morality excellence drugs technology self esteem teasing comparisons individuality neighborhoods word use and other aspects of society related to raising children This is a book about youth and sports but it is more about the parent child dynamic in today's society and the many perils for young people these days I come to this book not out of any professional expertise but out of observations made from many years being involved in organized youth sports in many roles This book approaches organized youth sports from an angle that may have never been covered in any book Again I'm not for changing youth sports for young kids I'm against organized youth sports for young kids My book is not a how to book for parents I don't consider myself a parental guru My goal is to put ideas out there for parents to run with I come from the point of view that most parents already know a lot about parenting from experience I just want to make a contribution to parenting and improving the lives and increasing the happiness of young people Some may even get upset at some of the ideas I put forth or at the very least disagree And I'm not even guaranteeing I'm right about everything I put forth I just put forth the conclusions that I have made after many years of observation of the youth sports scene and the family and society in general I want my book to improve the lives of families and young people One thing about the written word is that it is interpreted in many ways That is a risk in any book but it can be hoped that the overall message will get through to most readers Thank you Mark Robertson Carrying Lawn Chairs Youth Sports and Other Parental Mindsets

Competing with Character Kevin Kush, 2008 When asked why they participate in organized sports young athletes rank giving everyone a chance to play and having fun far above winning But even though millions of kids play youth sports each

year an estimated seventy percent of them quit by age thirteen and never play again Why Here s what they say It s not fun anymore The coach played favorites was too negative There s too much pressure In addition kids are seeing more and more negative behaviour by parents and coaches In one survey three quarters of young athletes reported seeing out of control adults at their games After twenty years of experience as a teacher and coach Kevin Kush thinks it s time to create a youth sports environment where character sportsmanship and fun are once again priorities In *Competing with Character* he examines the good and the bad going on today on youth playing fields along the sidelines and in the stands He urges us to remember that children look to adults as role models

Child's Play Michael A. Messner, Michela Musto, 2016-05 Is sport good for kids When answering this question both critics and advocates of youth sports tend to fixate on matters of health whether condemning contact sports for their concussion risk or prescribing athletics as a cure for the childhood obesity epidemic *Child s Play* presents a more nuanced examination of the issue considering not only the physical impacts of youth athletics but its psychological and social ramifications as well The eleven original scholarly essays in this collection provide a probing look into how sports in community athletic leagues in schools and even on television play a major role in how young people view themselves shape their identities and imagine their place in society Rather than focusing exclusively on self proclaimed jocks the book considers how the culture of sports affects a wide variety of children and young people including those who opt out of athletics Not only does *Child s Play* examine disparities across lines of race class and gender it also offers detailed examinations of how various minority populations from transgender youth to Muslim immigrant girls have participated in youth sports Taken together these essays offer a wide range of approaches to understanding the sociology of youth sports including data driven analyses that examine national trends as well as ethnographic research that gives a voice to individual kids *Child s Play* thus presents a comprehensive and compelling analysis of how for better and for worse the culture of sports is integral to the development of young people and with them the future of our society

Just Let the Kids Play Bob Bigelow, Tom Moroney, Linda Hall, 2001-08-01 Bob s message is a must for all parents and coaches He challenges adults to understand their effect on youngsters and that kids needs have to be met first Bob Trupin Westport CT This is not just another book touting improved sportsmanship and better coaching to remedy the violence in youth sports today *Just Let the Kids Play* is the first book to identify the youth sports systems as the cause of the problem and offers practical ways to rebuild them so they better serve the physical and emotional needs of children First round NBA draft pick part time NBA scout and youth coach Bob Bigelow joins journalists Tom Moroney and Linda Hall to put youth sports under harsh review They explain the controversial belief that elite traveling teams at young ages should be abolished and replaced with equal playing time team parity and shortened seasons among others Focusing on soccer basketball baseball and hockey they highlight ten programs nationwide where these principles are working and offer ways to integrate them into existing programs without sacrificing a child s chances for success Soccer moms and hockey dads will discover that it really is

possible to sleep in on Saturdays without sacrificing their child's future
