Theatre and Aural Attention George Home-Cook, 2015-05-10 Theatre and Aural Attention investigates what it is to attend theatre by means of listening Focusing on four core aural phenomena in theatre noise designed sound silence and immersion George Home Cook concludes that theatrical listening involves paying attention to atmospheres **Designers' Shakespeare** John Russell Brown, Stephen Di Benedetto, 2016-05-05 Theatre Design involves everything seen on stage not only scenery but costumes wigs makeup properties lighting sound even the shape and material of the stage itself Designers Shakespeare presents and analyses the work of a half dozen leading practitioners of this specialist art By focusing specifically on their Shakespearean work it also offers a fresh exciting perspective on some of the best known drama of all time Shakespeare's plays offer an unusual range of opportunities to designers As they were written for a theatre which gave no opportunity for scenic support or embellishment designers are freed from any compulsion to imitate original practices This has resulted in the extraordinarily diverse range of works presented in this volume which considers among others the work of Josef Svoboda Karl Ernst Herrmann Ming Cho Lee Alison Chitty Robert Wilson Societas Raffaello Sanzio Filter Theatre Catherine Zuber John Bury Christopher Morley Ralph Koltai and Sean Kenny Designers Shakespeare joins Actors Shakespeare and Directors Shakespeare as essential reading for lovers of Shakespeare from theatre goers and students to directors and theatre designers *Activating the Inanimate: Visual Vocabularies of Performance Practice* Celia Morgan, Filipa Malva, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2013 The dynamic exchange of perspectives that constituted the 2nd Global Conference of Performance Visual Aspects of Performance Practice demonstrated that the foundational concept of the project is a vibrant platform for sharing and extending ideas within all aspects of scenographic practice in performance This volume is a compilation of papers that formed the basic structure of that conference The first four chapters present a developing schema of visual languages within theatre From Beckett Ibsen Svoboda to Wilson they navigate the symbolic and visual prioritizing of postdramatic scenographic forms Part 2 reconsiders the predetermined divisions that deflate experiential encounters with the inanimate Dance puppetry and slapstick provide examples of interaction between performers and their environment Part 3 addresses various renderings of design processes exploring the role of drawing fabric and body in creating a narrative Part 4 negotiates the sensitive interface between public and performance while looking at the Burning Man Festival flash mobs and opera media casting The final chapters represent a global collective of process strategies that confront the production and methodologies of meaning They engage with cultural presumptions and subjectivities in post Cultural Revolution China Spanish flamenco American Indian post colonial resistances and the traditions of Australian Aboriginal artists **Theatre Noise** Lynne Kendrick, David Roesner, 2012-01-24

This book is a timely contribution to the emerging field of the aurality of theatre and looks in particular at the interrogation and problematisation of theatre sound s Both approaches are represented in the idea of noise which we understand both as a concrete sonic entity and a metaphor or theoretical sometimes even ideological thrust Theatre provides a unique habitat for noise It is a place where friction can be thematised explored playfully even indulged in friction between signal and receiver between sound and meaning between eye and ear between silence and utterance between hearing and listening In an aesthetic world dominated by aesthetic redundancy and aerodynamic signs theatre noise recalls the aesthetic and political power of the grain of performance Theatre noise is a new term which captures a contemporary agitative acoustic aesthetic It expresses the innate theatricality of sound design and performance articulates the reach of auditory spaces the art of vocality the complexity of acts of audience the political in produced noises Indeed one of the key contentions of this book is that noise in most cases is to be understood as a plural as a composite of different noises as layers or waves of noises Facing a plethora of possible noises in performance and theatre we sought to collocate a wide range of notions of and approaches to noise in this book by no means an exhaustive list of possible readings and understandings but a starting point from which scholarship like sound could travel in many directions

Both Swords and Ploughshares Ineke Bockting, Linda Martz, 2015-10-13 This collection of essays examines interactions of war peace and religion in the United States a country where religious faith was and still is often deeply felt and widely held where faith has provided a set of values to uphold with fervor or to transgress in protest and where religion has been used to legitimize both armed violence and passive resistance These essays analyze the mythos of America as a place of religious freedom yet one imbued with a socially imposed civil religion and underpinned by a heavy presumption of Protestant dominance With subjects ranging from the War of Independence to the early 21st century the contributions to this volume focus on a variety of historical and chronological circumstances in order to consider what concrete tangible outcomes what artifacts were produced by the interface of war peace and religion the swords and ploughshares of the title This volume thus presents a variety of often multifaceted responses that reflect its interdisciplinary scope Some contributions refer to fine art pieces including statues paintings and murals and others to works of literature theology or public speaking Some of these interfaces were performed on stage or in film while yet others were heard on the radio or read in newspapers or journals Some of the essays gathered here concern individuals working through the meaning of armed conflict in terms of their own personal faith while others examine the impact of such conflicts on a larger scale as with whole faith communities or in the shaping of national or foreign policy The first part Communities looks at interfaces that served to structure a whole community The second Margins examines instances where the relationship between religion and war and peace has occupied a more marginal space within a faith community The final section turns this interface Outward situating it away from American soil or noting how foreign war shaped the spirituality of those returning
