Theology And The Political The New Debate Series Sic 5:

Crisis and Change Jan-Olav Henriksen, Tage Kurtén, 2012-03-15 A common basis for the project on which this volume is based is that one cannot understand religion and ethics without paying attention to the different contexts in and by means of which these cultural elements are expressed This approach makes both religion and ethics liquid and allows us to see them as based on specific contingencies rather than as expressions of some essential features The changing societal and cultural conditions in late modern Western societies pose new challenges for established religion theology and ethics Not only does religion itself appear to be in some kind of crisis but also many of the established ways of understanding and doing religion theology and ethics appear obsolete inadequate or dated Against such a backdrop the articles in the present volume represent attempts to rethink theology and religion with regard to these late modern conditions The volume is the result of a joint undertaking of two research groups one based in bo Finland and the other in Oslo Norway which have since 2006 focused on exploring the contextual character of theology in understanding both Christian belief and Christian ethics The challenge of the idea that Christianity appears in new ways and in new contexts and of investigating what that means is pursued in various ways *Orthodoxy, Process and Product* Mathijs Lamberigts, Lieven Boeve, Terrence Merrigan, 2009 From 2002 2008 three research groups from the departments of systematic theology and church history at the Faculty of Theology K U Leuven joined forces in an interdisciplinary project entitled Orthodoxy Process and Product The aim of the project was a church historical and systematic theological study of the determination of truth in church and theology The present volume contains contributions from all senior members of the project research group The contributions are the result of a research conference in 2006 in which both the question of the nature of truth as such and the process of determination of theological truth was approached from many different angles Thus questions from philosophy systematic theology and history of church and theology are discussed including such themes as the implications of various philosophical theories of truth for theology the question of religious pluralism and its ramifications for theological truth claims theological truth claims in the thought of Gregory of Nyssa Augustine John Driedo and at the Second Vatican Council In addition the meta question of the relationship between the historical and the systematic aspects of theological truth and the way in which the historical and systematic theological disciplines interact play an important role in this volume **Theology and the Political** Creston Davis, John Milbank, Slavoj Zizek, 2005-06-17 A reassertion of the importance of theology to political action that goes beyond both liberal democratic theory and neoconservatism **Justice, Unity, and the Hidden Christ** Matthew John Paul Tan, 2014-01-07 Does social justice promote Christian unity With reference to paragraph 12 of Unitatis Redintegratio Vatican II s declaration on ecumenism this book argues that an emphasis on justice and unity without proper consideration of social context actually risks obscuring a clear public declaration of Christ by having Christians uncritically accept the presumptions that underpin the sociopolitical status quo This constitutes a failure in Christian interpretation the crux of which is a failure

in ecclesiology Matthew John Paul Tan suggests the beginnings of a corrective with reference to works by Pope Benedict XVI theologians such as Graham Ward and postmodern theorists like Michel Foucault Ultimately Tan invites the reader to begin considering how answering this seemingly simple question will implicate not only theology but also philosophy and political theory as well as considering the need for the church to engage in a bolder confessional politics in place of the politics of the public square often favored by Christian and non Christian commentators

Paul, Philosophy, and the Theopolitical Vision Douglas Harink, 2010-02-12 The apostle Paul was a man of many journeys We are usually familiar with the geographical ones he made in his own time This volume traces others Paul s journeys in our time as he is co opted or invited to travel sometimes as abused slave sometimes as trusted guide with modern and recent Continental philosophers and political theorists Kierkegaard Nietzsche Heidegger and Benjamin Taubes Badiou Zizek and Agamben Paul journeys here among the philosophers In these essays you are invited to travel with them into the regions of philosophy hermeneutics political theory and theology You will certainly hear the philosophers speak But Paul will not remain silent Above the sounds of the journey his voice comes through loud and clear

Kuzma, 2025-11-21 What if the Cross is not a comfortable symbol of faith but the most radical rupture in human history In Crux philosopher Joseph D Kuzma turns to five of continental philosophy s most provocative thinkers Jacques Lacan Slavoj i ek Ren Girard Alain Badiou and Giorgio Agamben to unveil the scandalous strangeness of Christianity s central event Far from offering easy answers or theological comfort these unlikely guides reveal the Cross as an unbearable disruption that shatters our categories of meaning love violence truth and power This is not apologetics but a philosophical confrontation with what should not make sense yet remains inescapably real For readers willing to abandon safe distance and enter the rupture Crux offers an encounter with the Cross that wounds before it heals that breaks before it saves revealing Christianity s most unsettling and transformative implications

The Renaissance of the Levant Michael Kreutz,2019-03-18 Since the Mediterranean connects cultures Mediterranean studies have by definition an intercultural focus Throughout the modern era the Ottoman Empire has had a lasting impact on the cultures and societies of the Southern and Eastern Mediterranean However the modern Balkans are usually studied within the context of European history the southern Mediterranean within the context of Islam Although it makes sense to connect both regions this is a vast field and requires a command of different languages not necessarily related to each other Investigating both Greek and Arabic sources this book will shed some light on the significance of ideas in the political transitions of their time and how the proponents of these transitions often became so overwhelmed by the events that they helped trigger adjustments to their own ideas Also the discourses in Greek and Arabic reflect the provinces of the Ottoman Empire and it is instructive to see their differences and commonalities which helps explain contemporary politics

Political Liberalism, Confucianism, and the Future of Democracy in East Asia Zhuoyao Li,2020-04-17 This book contributes to both the internal debate in liberalism and the application of political liberalism to the process of democratization in East Asia Beyond John Rawls original intention to limit the scope of political liberalism to only existing and well ordered liberal democracies political liberalism has the potential to inspire and contribute to democratic establishment and maintenance in East Asia Specifically the book has two main objectives First it will demonstrate that political liberalism offers the most promising vision for liberal democracy and it can be defended against contemporary perfectionist objections Second it will show that perfectionist approaches to political Confucianism suffer from practical and theoretical difficulties Instead an alternative model of democracy inspired by political liberalism will be explored in order to achieve a multivariate structure for citizens to come to terms with democracy in their own ways to support a neutral state that ensures the establishment and stability of democracy and to maintain an active public role for Confucianism to prevent it from being banished to the private sphere This model represents a more

promising future for democracy in East Asia Bulletin of the Public Library of the City of Boston Boston Public Library,1910 **Victorian Religious Discourse** J. Nixon,2004-08-20 This collection of essays attempts to address the disparate historical and critical ways religion informs the literature and culture of nineteenth century England showing how a representative group of major Victorians negotiated its impact The collection attempts to present Victorian religious discourse not as monologic but as dialogic if not protean It seeks to make available new understandings of nineteenth century British literature as well as to elucidate the extent to which religious discourse is vested in Victorian cultural thoughts and practice **Constituting Religion** Tamir Moustafa,2018-07-25 Most Muslim majority countries have legal systems that enshrine both Islam and liberal rights While not necessarily at odds these dual commitments nonetheless provide legal and symbolic resources for activists to advance contending visions for their states and societies Using the case study of Malaysia *Constituting Religion* examines how these legal arrangements enable litigation and feed the construction of a rights versus rites binary in law politics and the popular imagination By drawing on extensive primary source material and tracing controversial cases from the court of law to the court of public opinion this study theorizes the judicialization of religion and the radiating effects of courts on popular legal and religious consciousness The book documents how legal institutions catalyze ideological struggles which stand to redefine the nation and its politics Probing the links between legal pluralism social movements secularism and political Islamism *Constituting Religion* sheds new light on the confluence of law religion politics and society This title is also available as Open Access *In Times of Crisis* Steven E. Aschheim,2001-02-01 The nineteenth and twentieth century relationship between European culture German history and the Jewish experience produced some of the West s most powerful and enduring intellectual creations and perhaps in subtly paradoxical and interrelated ways our century s darkest genocidal moments *In Times of Crisis* explores the flashpoints of this vexed relationship mapping the coordinates of a complex triangular encounter of immense historical import In essays that range from the question of Nietzsche s legacy to the controversy over Daniel Goldhagen s *Hitler s Willing Executioners* the distinguished historian Steven E Aschheim presents this encounter as an ongoing dialogue between two evolving cultural identities He touches on past dimensions of this exchange such as the politics of Weimar Germany and on present dilemmas of grasping and representing it such as the Israeli discourse on the Holocaust His work inevitably traces the roots and ramifications of Nazism but at the same time brings into focus historical circumstances and contemporary issues often overshadowed or distorted by the Holocaust These essays reveal the ubiquitous charged inscriptions of Nazi genocide within our own culture and illuminate the projects of some later thinkers and historians from Hannah Arendt to George Mosse to Saul Friedlander who have wrestled with its problematics and sought to capture its essence From the broadly historical to the personal from the politics of Weimar Germany to the experience of growing up German Jewish in South Africa the essays expand our understanding of German Jewish history in particular but also of historical processes in general **The Making**

Religion of a Different Color W. Paul Reeve, 2015-01-30 Mormonism is one of the few homegrown religions in the United States one that emerged out of the religious fervor of the early nineteenth century Yet members of the Church of Jesus Christ of Latter day Saints have struggled for status and recognition In this book W Paul Reeve explores the ways in which nineteenth century Protestant white America made outsiders out of an inside religious group Much of what has been written on Mormon otherness centers upon economic cultural doctrinal marital and political differences that set Mormons apart from mainstream America Reeve instead looks at how Protestants racialized Mormons using physical differences in order to define Mormons as non White to help justify their expulsion from Ohio Missouri and Illinois He analyzes and contextualizes the rhetoric on Mormons as a race with period discussions of the Native American African American Oriental Turk Islam and European immigrant races He also examines how Mormon male female and child bodies were characterized in these racialized debates For instance while Mormons argued that polygamy was ordained by God and so created angelic celestial and elevated offspring their opponents suggested that the children were degenerate and deformed The Protestant white majority was convinced that Mormonism represented a racial not merely religious departure from the mainstream and spent considerable effort attempting to deny Mormon whiteness Being white brought access to political social and economic power all aspects of citizenship in which outsiders sought to limit or prevent Mormon participation At least a part of those efforts came through persistent attacks on the collective Mormon body ways in which outsiders suggested that Mormons were physically different racially more similar to marginalized groups than they were white Medical doctors went so far as to suggest that Mormon polygamy was spawning a new race Mormons responded with aspirations toward whiteness It was a back and forth struggle between what outsiders imagined and what Mormons believed Mormons ultimately emerged triumphant but not unscathed Mormon leaders moved away from universalistic ideals toward segregated priesthood and temples policies firmly in place by the early twentieth century So successful were Mormons at claiming whiteness for themselves that by the time Mormon Mitt Romney sought the White House in 2012 he was labeled the

whitest white man to run for office in recent memory Ending with reflections on ongoing views of the Mormon body this groundbreaking book brings together literatures on religion whiteness studies and nineteenth century racial history with the history of politics and migration
