

THEORIES OF TRUTH IN CHINESE PHILOSOPHY

A COMPARATIVE APPROACH

ALEXUS MCLEOD

Theories Truth Chinese Philosophy Comparative

Jan Woleński

Theories Truth Chinese Philosophy Comparative:

Theories of Truth in Chinese Philosophy Alexis McLeod, 2015-12-01 Theories of Truth in Chinese Philosophy deals with debates surrounding the concept of truth in early Chinese thought from the earliest periods through to the Han dynasty Alexis McLeod focuses first on the question of whether there is a concept of truth in early Chinese thought giving a critical overview of the positions of contemporary scholars on this issue outlining their arguments and considering objections and possible problems and alternatives McLeod then goes on to consider a number of possible theories of truth in early Chinese philosophy giving an overview of what he takes to be the main contenders for truth concepts in the early material and surrounding concepts and positions In addition the author considers how these theories of truth might be relevant in contemporary debates surrounding truth as well as in the context of theories of truth in the history of philosophy both in Western and Indian thought

Semantic-Truth Approaches in Chinese Philosophy Bo Mou, 2018-11-06 This book explains a distinctive pluralist account of truth jointly rooted perspectivism JRP for short This explanation unifies various representative while philosophically interesting truth concern approaches in early Chinese philosophy on the basis of people's pre-theoretic way things are capturing understanding of truth It explains how JRP provides effective interpretative resources to identify and explain one unifying line that runs through those distinct truth concern approaches and how they can thus talk with and complement each other and contribute to the contemporary study of the issue of truth In so doing the book also engages with some distinct treatments in the modern study of Chinese philosophy Through testing its explanatory power in effectively interpreting those representative truth concern approaches in the Yi Jing philosophy Gongsun Long's philosophy Later Mohist philosophy classical Confucianism and classical Daoism JRP is also further justified and strengthened Mou defends JRP as an original unifying pluralist account in the context of cross-tradition philosophical engagement which can also effectively engage with other accounts of truth including other types of pluralist accounts in contemporary philosophy The purpose of this book is dual 1 it is to enhance our understanding and treatment of the truth concern as one strategic foundation of various movements of thought in classical Chinese philosophy that are intended to capture how things are 2 on the other hand it is to explore how the relevant resources in Chinese philosophy can contribute to the contemporary exploration of the philosophical issue of truth in a philosophically interesting and engaging way

Dao Companion to Chinese Philosophy of Logic Yiu-ming Fung, 2020-06-10 This book is a companion to logical thought and logical thinking in China with a comparative and interdisciplinary perspective It introduces the basic ideas and theories of Chinese thought in a comprehensive and analytical way It covers thoughts in ancient pre-modern and modern China from a historical point of view It deals with topics in logic including logico-philosophical concepts and theories rooted in China Indian and Western Logic transplanted to China and the development of logical studies in contemporary China and other Chinese communities The term philosophy of logic or logico-philosophical thought is used in this book to represent logical thought in

a broad sense which includes thinking on logical concepts modes of reasoning and linguistic ideas related to logic and philosophical logic Unique in its approach the book uses Western logical theories and philosophy of language Chinese philology and history of ideas to deal with the basic ideas and major problems in logical thought and logical thinking in China In doing so it advances the understanding of the lost tradition in Chinese philosophical studies *The Nature of Truth, second edition* Michael P. Lynch, Jeremy Wyatt, Junyeol Kim, Nathan Kellen, 2021-03-16 The definitive and essential collection of classic and new essays on analytic theories of truth revised and updated with seventeen new chapters The question What is truth is so philosophical that it can seem rhetorical Yet truth matters especially in a post truth society in which lies are tolerated and facts are ignored If we want to understand why truth matters we first need to understand what it is The Nature of Truth offers the definitive collection of classic and contemporary essays on analytic theories of truth This second edition has been extensively revised and updated incorporating both historically central readings on truth's nature as well as up to the moment contemporary essays Seventeen new chapters reflect the current trajectory of research on truth

Comparative Approaches to Chinese Philosophy Bo Mou, 2017-07-05 This anthology explores how Chinese and Western philosophies could jointly and constructively contribute to a common philosophical enterprise Philosophers with in depth knowledge of both traditions present a variety of distinct comparative approaches offering a refined introduction to the further reaches of Chinese philosophy in the comparative context especially regarding its three major constituents Confucianism philosophical Daoism and the Yi Jing philosophy This book examines various issues concerning philosophical methodology ethics metaphysics epistemology philosophy of language and logic and investigates both the living spring source of Chinese philosophy and its contemporary implications and development through contemporary resources The balanced coverage accessible content and breadth of approaches presented in this anthology make it a valuable resource for students of Chinese Philosophy Comparative Philosophy and other related courses **The Art of Chinese Philosophy** Paul Goldin, 2020-04-07 Goldin thus begins the book by asking the basic question What are we reading while also considering why it has been so rarely asked Yet far from denigrating Chinese philosophy he argues that liberating these texts from the mythic idea that they are the product of a single great mind only improves our understanding and appreciation By no means does a text require single and undisputed authorship to be meaningful nor is historicism the only legitimate interpretive stance The first chapter takes up a hallmark of Chinese philosophy that demands a Western reader's cognizance its preference for non deductive argumentation Chinese philosophy is an art hence the title he demonstrates more than it is a rigorous logical method Then comes the core of the book eight chapters devoted to the eight philosophical texts divided into three parts Philosophy of Heaven Philosophy of the Way and Two Titans at the End of an Age The Bloomsbury Research Handbook of Chinese Philosophy Methodologies Sor-hoon Tan, 2016-08-25 The Bloomsbury Research Handbook of Chinese Philosophy Methodologies presents a new understanding of the changing methods used to study Chinese philosophy By identifying the

various different approaches and discussing the role and significance of philosophical methods in the Chinese tradition this collection identifies difficulties and exciting developments for scholars of Asian philosophy Divided into four parts the nature of Chinese philosophical thought is illuminated by discussing historical developments current concerns and methodological challenges Surveying recent methodological trends this research companion explores and evaluates the methodologies that have been applied to Chinese philosophy From these diverse angles an international team of experts reflect on the considerations that enter their methodological choices and indicate new research directions The Bloomsbury Research Handbook of Chinese Philosophy Methodologies is an important contribution to the education of the next generation of Chinese philosophers

The Philosophical Thought of Wang Chong Alexis McLeod, 2018-09-03 This book is a study of the methodological metaphysical and epistemological work of the Eastern Han Dynasty period scholar Wang Chong It presents Wang's philosophical thought as a unique and syncretic culmination of a number of ideas developed in earlier Han and Warring States philosophy Wang's philosophical methodology and his theories of truth knowledge and will and determinism offer solutions to a number of problems in the early Chinese tradition His views also have much to offer contemporary philosophy suggesting new ways of thinking about familiar problems While Wang is best known as a critic and skeptic Alexis McLeod argues that these aspects of his thought form only a part of a larger positive project aimed at discerning truth in a variety of senses

The Metaphysics of Chinese Moral Principles Mingjun Lu, 2022-01-17 In *The Metaphysics of Chinese Moral Principles* author Mingjun Lu seeks to construct and establish the metaphysics of Chinese morals as a formal and independent branch of learning by abstracting and systemizing the universal principles presupposed by the primal virtues and key imperatives in Daoist and Confucian ethics Lu proposes that the metaphysical foundation of Chinese moral principles as reinstated in this book brings to light not only the universality of its core values and ideals but also a pivotal though hitherto neglected key to the enduring vibrancy of a civilization that has lasted several millennia

Truth and Governance William A. Galston, Tom G. Palmer, 2021-09-14 Taking the long view of conflicts between truth and political power What role does truth play in government In context of recent political discourse around the globe and especially in the United States it is easy to believe that truth in the form of indisputable facts is a matter of debate But it is also important to remember that since ancient times every religious and philosophical tradition has wrestled with this question In this volume scholars representing ten traditions Western and Eastern religious and secular address the nature of truth and its role in government Among the questions they address When is deception permissible or even a good thing What remedies are necessary and useful when governments fail in their responsibilities to be truthful The authors consider the relationship between truth and governance in democracies but also in non democratic regimes Although democracy is distinctive in requiring truth as a fundamental basis for governing non democratic forms of government also cannot do without truth entirely If ministers cannot give candid advice to rulers the government's policies are likely to proceed on false

premises and therefore fail If rulers do not speak truthfully to their people trust will erode Each author in this book addresses a common set of issues the nature of truth the morality of truth telling the nature of government which shapes each tradition s understanding of the relationship between governance and truth the legitimacy and limits of regulating speech and remedies when truth becomes divorced from governance Truth and Governance will open readers eyes to the variety of possible approaches to the relationship between truth and governance Readers will find views they thought self evident challenged and will come away with a greater understanding of the importance of truth and truth telling and of how to counter deliberate deception

Philosophy of Language, Chinese Language, Chinese Philosophy Bo

Mou,2018-06-26 From the constructive engagement vantage point of doing philosophy of language comparatively this anthology explores 1 how reflective elaboration of some distinct features of the Chinese language and of philosophically interesting resources concerning language in Chinese philosophy can contribute to our treatment of a range of issues in philosophy of language and 2 how relevant resources in contemporary philosophy of language can contribute to philosophical interpretations of reflectively interesting resources concerning the Chinese language and Chinese texts The foregoing contributing fronts constitute two complementary sides of this project This volume includes 12 contributing essays and 2 engagement background essays which are organized into six parts on distinct issues The anthology also includes the volume editor s theme introduction on comparative philosophy of language and his engaging remarks for three parts

Introducing Chinese Philosophy Douglas Berger,2025-04-03 This book presents an introductory survey of the major themes thinkers and texts philosophical genres and profound insights of the Chinese philosophical tradition Its coverage ranges from the foundational history of Chinese thought in the 6th 5th centuries BCE up to the present day The first two chapters provide an overview of the broad history of Chinese philosophy identifying its major texts and thinkers and offer examples of the different literary styles in which philosophy was written throughout the ages The remaining chapters explore major and ever pervasive themes of Chinese philosophical reflection from a holistic portrayal of the natural order and the relational nature of human beings to debates about ethics and personhood that span the entire development of the heritage The major questions addressed by the volume are as follows What are the most important texts and who are the most influential figures of the history of Chinese philosophy and what were their historical and social circumstances How did Chinese thinkers work in such a variety of literary styles from dramatized conversation storytelling and poetry to commentary and analysis to the many different genres of Buddhist literature to modern historical and academic writing What are the varieties of cosmic or natural holism found in the various schools of Chinese philosophy Proto Daoist Buddhist Confucian and modern and how are they articulated and defended How have Chinese philosophers throughout history presented the nature of the person in Confucian Daoist Buddhist and contemporary perspectives Why is the notion of the relational person so persistently central to Chinese thought How was the personhood of women conceptualized throughout

the centuries particularly by Chinese women philosophers How did the various notions of personhood shape Chinese philosophers views of ethics and the ideal social and political order How did Confucian Mohist Legalist Daoist and Buddhist perspectives on these issues change through the centuries up to the present Each chapter includes sections for Further Readings and a Glossary at the back of the book briefly describes the major time periods figures themes and concepts in Chinese philosophy Key Features Presents an overview of important thinkers ideas and debates from the entire history of Chinese philosophy up to the present day Acquaints readers with the many varieties of literary style and frameworks of formal argumentation that have existed in the Chinese tradition Identifies the major themes of the Chinese tradition while showing how various schools and thinkers dealt with them differently Explores the importance of relational personhood and the various ways it is formulated in Chinese philosophy Includes coverage of how women philosophers present their own personhood in Chinese history and up to today Examines the many different ethical and political implications of Chinese theories of personhood throughout the culture s and state s history Gives the reader a sense of the complexity nuances and insights of modern Chinese thinkers on politics and society

Semantics and Truth Jan Woleński, 2020-01-01 The book provides a historical with an outline of the history of the concept of truth from antiquity to our time and systematic exposition of the semantic theory of truth formulated by Alfred Tarski in the 1930s This theory became famous very soon and inspired logicians and philosophers It has two different but interconnected aspects formal logical and philosophical The book deals with both but it is intended mostly as a philosophical monograph It explains Tarski s motivation and presents discussions about his ideas pro and contra as well as points out various applications of the semantic theory of truth to philosophical problems truth criteria realism and anti realism future contingents or the concept of correspondence between language and reality

Asian Philosophies and the Idea of Religion Sonia Sikka, Ashwani Peetush, 2020-09-28 With a focus on Asian traditions this book examines varieties of thought and self transformative practice that do not fit neatly on one side or another of the standard Western division between philosophy and religion It contains chapters by experts on Buddhist Confucian Taoist Hindu and Jain philosophies as well as ancient Greek philosophy and recent contemplative and spiritual movements The volume also problematizes the notion of a Western philosophical canon distinguished by rationality in contrast to a religious Eastern other These original essays creatively lay the groundwork needed to rethink dominant historical and conceptual categories from a wider perspective to arrive at a deeper more plural and global understanding of the diverse nature of both philosophy and religion The volume will be of keen interest to scholars and students in the Philosophy of Religion Asian and Comparative Philosophy and Religious Studies

Beyond the Troubled Water of Shifei Lin Ma, Jaap van Brakel, 2019-05-21 In recent decades a growing concern in studies in Chinese intellectual history is that Chinese classics have been forced into systems of classification prevalent in Western philosophy and thus imperceptibly transformed into examples that echo Western philosophy Lin Ma and Jaap van Brakel offer a methodology to counter this

approach and illustrate their method by carrying out a transcultural inquiry into the complexities involved in understanding shi and fei and their cognate phrases in the Warring States texts the Zhuangzi in particular The authors discuss important features of Zhuangzi's stance with regard to language meaning knowledge doubt questioning equalizing and his well known deconstruction of the discourse in ancient China on shifei Ma and van Brakel suggest that shi and fei apply to both descriptive and prescriptive languages and do not presuppose any fact value dichotomy and thus cannot be translated as either true false or right wrong Instead shi and fei can be grasped in terms of a pre philosophical notion of fitting Ma and van Brakel also highlight Zhuangzi's idea of walking two roads as the most significant component of his stance In addition they argue that all of Zhuangzi's positive recommendations are presented in a language whose meaning is not fixed and that every stance he is committed to remains subject to fundamental questioning as a way of life

Self-Cultivation in Chinese and Greco-Roman Philosophy David Macheek, 2025-05-15 In early China and ancient Greece self cultivation was considered crucial for leading a flourishing fulfilled life In this cross cultural study David Macheek presents and interprets six influential Greek and Chinese self cultivation theories advocated by Mengzi Zhuangzi and Xunzi as well as Plato Aristotle and the Stoics in order to put forward the overarching narrative that self cultivation amounts to strengthening the best part of the human self the heart in the Chinese context and the mind in the Greek context Advancing new readings of classic texts Macheek shows that Greek approaches to self cultivation privilege intellectual pursuits while Chinese approaches give more weight to non intellectual activities such as learning manual crafts and performing rituals He also demonstrates how both ancient traditions understand the self as a heterogeneous community of organic entities each needing different provisions to flourish which aligns the ancient Greek view closer to the early Chinese view As such this book reinforces the underlying structural and conceptual similarities between the two traditions and makes an important contribution to diversifying philosophical conversations

Philosophy of the Ancient Maya Alexis McLeod, 2017-12-26 This book investigates some of the central topics of metaphysics in the philosophical thought of the Maya people of Mesoamerica particularly from the Preclassic through Postclassic periods This book covers the topics of time change identity and truth through comparative investigation integrating Maya texts and practices such as Classic Period stelae Postclassic Codices and Colonial era texts such as the Popol Vuh and the books of Chilam Balam and early Chinese philosophy

Moral Psychology of Confucian Shame Bongrae Seok, 2017-01-13 Early Confucian philosophers notably Confucius and Mencius emphasized moral significance of shame in self cultivation and learning In their discussion shame is not just a painful sense of moral failure or transgression but also a moral disposition and a form of moral excellence i e virtue that is essential to Confucian self cultivation In Moral Psychology of Confucian Shame Bongrae Seok argues that shame is a genuine moral emotion and moral disposition Engaging with recent studies of social psychology cultural psychology biology and anthropology Seok explains that shame is a uniquely evolved form of moral emotion that is comparable to but not identical with guilt The author goes on to develop an

interpretation of Confucian shame that reveals the embodied interactive and transformative nature of the Confucian moral self

Fundamentals of Comparative and Intercultural Philosophy Lin Ma, Jaap van Brakel, 2016-03-25 Discusses the conditions of possibility for intercultural and comparative philosophy and for crosscultural communication at large This innovative book explores the preconditions necessary for intercultural and comparative philosophy Philosophical practices that involve at least two different traditions with no common heritage and whose languages have very different grammatical structure such as Indo Germanic languages and classical Chinese are a particular focus Lin Ma and Jaap van Brakel look at the necessary and not so necessary conditions of possibility of interpretation comparison and other forms of interaction and how we can speak of similarities and differences in this context The authors posit that it is necessary to dissolve the question of universalism versus relativism by replacing the ideal language paradigm with a paradigm of family resemblances and that it is not necessary to share a common language to engage in comparison Numerous case studies are presented including many comparisons of Western and Chinese concepts

An Introduction to Hanfei's Political Philosophy Henrique Schneider, 2018-11-27 This is the first book to make the philosophy of Hanfei available at an introductory level This fascinating thinker not only directly influenced the first Chinese Empire but also embodied the strongest alternative to Confucianism in Chinese thought Even today his thinking influences China It introduces key concepts and arguments in Hanfei's legalist philosophy It also contextualizes this thinking within Chinese history and in a comparative approach The book will appeal to a wide audience interested in Chinese political philosophy as well as to historians social and political scientists

This is likewise one of the factors by obtaining the soft documents of this **Theories Truth Chinese Philosophy Comparative** by online. You might not require more era to spend to go to the ebook creation as with ease as search for them. In some cases, you likewise realize not discover the declaration Theories Truth Chinese Philosophy Comparative that you are looking for. It will categorically squander the time.

However below, behind you visit this web page, it will be hence definitely simple to get as without difficulty as download guide Theories Truth Chinese Philosophy Comparative

It will not allow many mature as we notify before. You can attain it even though take action something else at home and even in your workplace. hence easy! So, are you question? Just exercise just what we have the funds for under as with ease as evaluation **Theories Truth Chinese Philosophy Comparative** what you once to read!
