Sourcebook of Family Theories and Methods Pauline Boss,William J. Doherty,Ralph LaRossa,Walter R. Schumm,Suzanne K. Steinmetz,2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production

Awards,2015-11-30 FacultyAwards.org is the first and only university awards program in the United States based on faculty peer evaluation. Faculty Awards was created to recognize outstanding faculty members as viewed by their Faculty peers at colleges and universities across the United States. Faculty members voted through the 2014-2015 academic year for their peers at their academic departments and schools within a number of categories. Access to FacultyAwards.org to nominate and vote for Faculty was limited to university professors or faculty members at accredited U.S. institutions of higher education. Faculty members were nominated and voted for by other faculty members in their own academic departments and schools. We strove to maintain an accurate peer review process. Voting was not open to students or the public at large. In addition, faculty members voted for educators only at their own college or university. Winners for the 2014-2015 academic year in all departments and colleges across U.S. institutions of higher education were announced in March 2015 and are permanently archived at FacultyAwards.org as well as recognized in this 2015 print edition of the Faculty Awards Compendium. For the academic year 2014-2015, votes were cast to nominate and vote for Faculty members and no self-voting was allowed to assure the integrity of the whole process. This volume of the Faculty Awards Compendium includes Faculty awardees within Fine Arts, Humanities, Liberal Arts, and Social Sciences Disciplines for the 2014-2015 academic year. A total of 1608 winning Faculty members in 584 higher education institutions were determined after tallying the votes. We would like to thank all Faculty members who participated in the voting process and to wish all the Faculty awardees continued success in their academic endeavors. We look forward to resuming the voting process for the 2015-2016 academic year awards.

EBOOK: Human Communication: South African edition Stewart Tubbs, Sylvia Moss, Nicolette Papastefanou, 2012-05-16. The new South African edition of Tubbs and Moss offers examples, applications, and cases tailored to the local market whilst retaining the successful focus on the principles and contexts of communication studies. The authors link theory and research with fundamental concepts and create plentiful opportunities for students to apply their understanding and develop useful communication skills. The new edition is fully updated with the most up-to-date research and examples with a strong focus on cultural diversity, technology, and local applications.

The Material Life of Human Beings Michael Brian Schiffer, Andrea R. Miller, 1999. Through a broad range of examples, this text demonstrates how theories of behaviour and communication have too often ignored the fundamental importance of objects in human life.

Media and Entertainment Industry Management Sunghan Ryu, 2024-04-19. The media and entertainment industry (MEI) differs significantly from traditional industries in many respects. Accordingly, the management of strategy, marketing, and other business practices in the MEI necessitates a unique approach. Sunghan Ryu offers students focused and relevant insights into critical topics illustrated by vivid examples from the MEI. Unlike typical introductory textbooks on business and management, this book does not overemphasize complicated layers of

theory Instead it presents essential concepts and frameworks in a digestible manner and supplements them with opportunities to apply this knowledge to real world cases The textbook demonstrates how knowledge can be constructively implemented in business and management scenarios It is structured into 12 chapters divided into five core modules 1 Overview of the MEI 2 The Fundamentals of Management 3 Marketing Management 4 Digital Business and Management and 5 New Business Models and Entrepreneurship Students will gain the ability to explain key concepts and frameworks across core business and management domains and develop analytical skills through diverse real world cases in the MEI Based on this knowledge they will be equipped to identify management related issues in the MEI and arrive at practical and effective solutions This book is an essential guide for students who wish to understand business and management in the dynamic world of the MEI

Communication in Modern Social Ordering Kai Eriksson, 2011-07-21 Communication in Modern Social Ordering investigates the modern history of communication in relation to the thinking of the political community in the United States By illustrating the intertwining of the technological developments in communication methods and its community building effects the different representations of society and their political implications are examined against the development of communication systems from the telegraph to the telephone to computer networks It was the telegraph that made communication a continual process thus freeing it from the rhythmical

motion of the postal service and from physical transportation in general and provided both a model and a mechanism of control Using the theories of both Foucault and Heidegger to provide a lens for new investigation the author studies not the meanings of communication and its logic as such but rather the conditions and structures that allow meanings and logic to be formulated in the first place The book offers an original combination of historical analysis with an ontological discussion of the evolution of telecommunications in the U S as a phenomenon of modern social ordering Exploring Psychology Study Guide Richard O. Straub,2004-03-31 This study guide for David Myers best selling text for introductory psychology courses is compelling and concise with a global perspective on psychology This edition has been thoroughly updated and includes new features and a media supplements package
