Eating and Believing David Grumett, Rachel Muers, 2011-11-03 What are the links between people's beliefs and the foods they choose to eat? In the modern Western world dietary choices are a topic of ethical and political debate but how can centuries of Christian thought and practice also inform them? And how do reasons for abstaining from particular foods in the modern world compare with earlier ones? This book will shed new light on modern vegetarianism and related forms of dietary choice by situating them in the context of historic Christian practice. It will show how the theological significance of embodied practice may be retrieved and reconceived in the present day. Food and diet is a neglected area of Christian theology and Christianity is conspicuous among the modern world's religions in having few dietary rules or customs. Yet historically food and the practices surrounding it have significantly shaped Christian lives and identities. This collection prepared collaboratively includes contributions on the relationship between Christian beliefs and food practices in specific historical contexts. It considers the relationship between eating and believing from non-Christian perspectives that have in turn shaped Christian attitudes and practices. It also examines ethical arguments about vegetarianism and their significance for emerging Christian theologies of food

D.N. Dunlop, A Man of Our Time T. H. Meyer, 2014-11-10 D. N. Dunlop 1868-1935 combined remarkable practical and organizational abilities in industry and commerce with gifted spiritual and esoteric capacities. A personal friend of W. B. Yeats and Rudolf Steiner, Dunlop was responsible for founding the World Power Conference today the World Energy Council and played leading roles in the Theosophical Society and later the Anthroposophical Society. In his business life he pioneered a cooperative approach towards the emerging global economy. Meyer's compelling narrative of Dunlop's life begins on the Isle of Arran where the motherless boy is brought up by his grandfather. In a landscape rich with prehistoric standing stones the young Dunlop has formative spiritual experiences. When his grandfather dies he struggles for material survival but devotedly studies occult literature. The scene moves to Dublin where Dunlop becomes a friend of W. B. Yeats and the poet seer A. E. and develops an active interest in Madame Blavatsky's

Theosophy Arriving in London via New York Dunlop is now a lecturer writer and the editor of a monthly journal but alongside his esoteric interests he rises to a foremost position in the British electrical industry masterminding the first World Power Conference Dunlop's life is to change forever through his meeting with Rudolf Steiner which brought instant recognition He was immediately convinced that Steiner was the Knower the Initiate the bearer of the Spirit to his age Dunlop's close involvement with anthroposophy leading to his eventual position as Chair of the British Society is described in detail from the momentous conferences in Penmaenmawr and Torquay to his transformative relationships with Eleanor Merry W J Stein Ita Wegman and Ludwig Polzer Hoditz Meyer features important material on the Anthroposophical Society's tragic split that allows for a true evaluation of this difficult period in the organization's history This second enlarged edition features substantial additions of new material and an Afterword by Owen Barfield *The American Theosophist*, 1911 The Routledge History of Food Carol Helstosky, 2014-10-03 The history of food is one of the fastest growing areas of historical investigation incorporating methods and theories from cultural social and women's history while forging a unique perspective on the past The Routledge History of Food takes a global approach to this topic focusing on the period from 1500 to the present day Arranged chronologically this title contains 17 originally commissioned chapters by experts in food history or related topics Each chapter focuses on a particular theme idea or issue in the history of food The case studies discussed in these essays illuminate the more general trends of the period providing the reader with insight into the large scale and dramatic changes in food history through an understanding of how these developments sprang from a specific geographic and historical context Examining the history of economic technological and cultural interactions between cultures and charting the corresponding developments in food history The Routledge History of Food challenges readers' assumptions about what and how people have eaten bringing fresh perspectives to well known historical developments It is the perfect guide for all students of social and cultural history **Star of the Magi**, 1899 **The Russian Revolution of 1917 - Memory and Legacy** Carol S. Leonard, Daniel Orlovsky, Jurej Petrov, 2024-07-30 The way in which the Russian Revolution of October 1917 is regarded and commemorated has changed considerably over time and is a contentious subject well demonstrated by the absence of any official commemoration in Russia in 2017 a huge contrast to the very large celebrations which took place in Soviet times This book which brings together a range of leading historians of the Russian Revolution from both Russia and the West and both younger and older historians explores the changes in the way in which the October 1917 Revolution is commemorated and also examines fundamental questions about what the Russian Revolution indeed what any revolution was anyway Among the issues covered are how Soviet and Western historians diverged in their early assessments of what the Revolution achieved how the period studied by historians has recently extended both much earlier before 1917 and much later afterwards and how views of the Revolution within the Soviet Union changed over time from acceptance of the official Communist Party interpretation to more independent viewpoints Overall the book provides a major reassessment

of one of the twentieth century s most important events
