They Like Jesus But Not The Church Insights From Emerging Generations:

They Like Jesus But Not the Church Dan Kimball, 2007 Kimball provides an overview of the six most common objections emerging generations have with church and Christianity along with the biblical answers to these objections and examples of how churches are facing this challenge **The Church and the Surprising Offense of God's Love (Foreword by Mark Dever)** Jonathan Leeman, 2010-01-08 When the world speaks of love it often means unconditional acceptance Many churches have adopted this mind set in their practice of membership and discipline if they have not done away with such structures entirely Yet God's love and God's gospel are different than what the world expects writes Jonathan Leeman They're centered in his character which draws a clear boundary between what is holy and what is not It's this line that the local church should represent in its member practices because the careful exercise of such authority is God's means for guarding the gospel marking off a people and thereby defining his love for the world So how should churches receive and dismiss members How should Christians view their submission to the church Are there dangers in such submission **The Church and the Surprising Offense of God's Love** responds with biblical theological and practical guidance from both corporate and individual perspectives It's a resource that will help pastors and their congregations upend worldly conceptions and recover a biblical understanding and practice of church authority *Varieties of Personal Theology* David T. Gortner, 2016-02-17

Varieties of Personal Theology starts from the premise that all human beings are folk theologians active not only in constructing selves but also in constructing worlds and guiding philosophies of life Through fascinating in-depth interviews and surveys David Gortner looks specifically at emerging adults aged 18-25 as young theologians who regardless of religious background wrestle with fundamental questions of place purpose ultimate cause and ultimate aims in life This book charts the subtle and significant influences of social class family school work peer relationships religion and intrinsic attitudes and dispositions on young adults' personal theologies and traces the ways their personal theologies connect with choices they make in their daily lives in education jobs leisure and relationships Intentionally crossing boundaries between religious and social science fields Gortner combines perspectives from both to demonstrate how theological diversity persists in America despite some clear culturally dominant trends This book reveals how American young adults are active theologians forging diverse ways of seeing and being in the world shaped by their experiences and in turn continuing to shape their choices in life

Religions and Churches in a Common Europe János Wildmann, 2012-10 The European religious landscape is changing fundamentally Are we experiencing a decline revival recycling or transformation of religion Moreover will Europe become a museum of religions or a laboratory of new religious experiences A group of experts from different disciplines and nationalities meeting in Pecs Hungary the European Capital of Culture 2010 examines in detail the contrasting developments around the religious lives of individuals communities institutions emerging from processes of secularisation relativisation and privatisation believing without belonging What emerges is a picture of very contrasting mega trends with positive and

negative aspects characterised for example by a sharp decline in traditional situations as well as the emergence of new situations rich of flurries which are featured mostly under the so called creative minorities On which heritage of ultimate values does the EU and its member states want to base the cohesion of the new society while respecting cultural diversities and religious pluralism What happens in the world of religions cannot be side lined if we are looking for an appropriate response Important indications can be provided by the way in which the heads of religious institutions as well as communities and individuals live in possible dialogue in a European society that is increasingly multicultural multi ethnic and multi religious The analysis of on going experiences in Europe shows that a truly constructive dialogue can give a vital contribution to the strengthening of social cohesion and democracy But what are the real terms in this confrontation In other words what is tolerable And what is acceptable European experts who have worked with a multidisciplinary and systemic approach of the analysis of these phenomena attended the initiatives of the European Research Group R I P E Religious Innovation and Pluralism in 21st Century Europe which was founded in 2006 by P When the Church Was a Family Joseph H. Hellerman,2009 A study of the early Christian church in the Mediterranean region and its emphasis on collective good over individual desire clarifies much about what is wrong with the American church today Faith Forward Volume 3 David Csinos,2018-05-30 In one of his best known songs Bruce Cockburn sings about lovers in a dangerous time Well there s no doubt that our world is under siege and that we are living in a dangerous time With massive crises threatening life all over our planet economic crises social crises ecological crises the list goes on and on our faith can t afford to ignore the reality of our diverse and fragile world Our faith needs to move or inspire us to get our hands not just dirty but downright bruised and bloody as we work against the tremendous forces of hatred death and suffering in our world That s what this third volume in the Faith Forward series is about It s about forming Christian lovers in the dangerous time in which we live It s about dousing the flames of hatred and suffering in our world by pouring out unconditional sacrificial love It s about having rich and meaningful and difficult conversations about how we can do ministry with children youth and families in ways that have the power to heal the world How can we empower children and youth to disrupt the world with God s love How can we empower them to overturn the tables and shatter the walls and to pour out compassion and justice and love in the world This kind of ministry isn t easy or popular work And it isn t going to pack kids into our church But it s truly life and death work and we need to do it as embodiments of God s hope and healing Like the other books in this series Faith Forward Volume 3 collects the wisdom of some the leading thinkers and shakers and movers in the arena of ministry with children and youth including Alaa Basatneh Brian D McLaren Soong Chan Rah Waltrina N Middleton Daniel White Hodge Lisa and Mark Scandrette Marcia J Bunge Leslie Neugent Ivy Beckwith Eboo Patel Almeda M Wright and Amy K Butler **I Like Jesus But Not Christianity** Dan Kimball,2020-12 For emerging generations who are open spiritually but skeptical of the church and Christianity Kimball presents six of the most common objections made of organized religion with answers based on the

words and actions of Jesus to provide a clearer picture of vintage Christianity **They Like Jesus, But Not the Church** Dan Kimball, 2005 Religion and Politics in the Contemporary United States R. Marie Griffith, Melani McAlister, 2008-06-09 This collection of essays from a special issue of American Quarterly explores the complex and sometimes contradictory ways that religion matters in contemporary public life Religion and Politics in the Contemporary United States offers a groundbreaking cross disciplinary conversation between scholars in American studies and religious studies The contributors explore numerous modes through which religious faith has mobilized political action They utilize a variety of definitions of politics ranging from lobbying by religious leaders to the political impact of popular culture Their work includes the political activities of a very diverse group of religious believers Christians Jews Muslims Hindus Buddhists and others In addition the book explores the meanings of religion for people who might contest the term those who are spiritual but not religious for example as well as activists who engage symbols of faith and community but who may not necessarily consider themselves members of a specific religion Several essays also examine the meanings of secular identity humanist politics and the complex evocations of civil religion in American life No other book on religion and politics includes anything like the diversity of religions ethnicities and topics that this one does from Mormon political mobilization to attempts at Americanizing Muslims in the post 9 11 United States from C sar Ch vez to James Dobson from interreligious cooperation and conflict over Darfur to the global politics surrounding the category of Hindus and South Asians in the United States *American Book Publishing Record* , 2007 They Like Jesus But Not the Church Dan Kimball, 2008-03-09 Kimball provides an overview of the six most common objections emerging generations have with church and Christianity along with the biblical answers to these objections and examples of how churches are facing this challenge Life Together in the Way of Jesus Christ Dan R. Stiver, 2009 Dan Stiver has crafted an engaging one volume introduction to Christian beliefs based on his experience teaching introductory theology courses While describing how traditional theology came to be he explains for both undergraduates and graduate students how theology is already a part of their life of faith As he examines traditional theological issues and such current topics as globalization and ecology Stiver treats theology as a living dynamic activity Employing useful case studies his groundbreaking approach helps students understand what theology is and shows them that they are participants in creating an ongoing vigorous theology that will remain at the center of their faith for the rest of their lives **An Inside Look at 10 of Today's Most Innovative Churches** Elmer L. Towns, 1990 **The Congregationalist** , 1928 *The Cambridge Review* , 1913 Jesus: A New Vision Marcus J. Borg, 2009-10-13 In this exciting and thought provoking work top Bible expert Marcus J Borg portrays Jesus as a charismatic healer sage and prophet who is still an inspiring figure today Returning to the topic of his first book Jesus A New Vision Borg introduces us to a Jesus we have never met before a revolutionary figure who possesses a more exciting moral vision than that of traditional Christianity According to Jesus a movement in the church today is catching up with where scholarship has brought us in understanding Christian

origins Borg argues that once the church discards the archaic doctrines it currently embraces Christians will be able to appreciate Jesus in a whole new way Jesus is another remarkable work of scholarship from Marcus Borg Marcus J Borg author of the bestseller Heart of Christianity is Hunderer Distinguished Professor of Religion and Culture at Oregon State University and author of the bestselling Meeting Jesus Again for the First Time Reading the Bible Again for the First Time and The God We Never Knew and coauthor of Jesus A New Vision with N T Wright He was an active member of the Jesus Seminar when it focused on the historical Jesus and he has been chair of the Historical Jesus section of the Society of Biblical Literature In every generation there is a handful of writers of whom it can be said Read everything they write Marcus Borg is one of these today Walter Wink author of The Human Being **Men and Missions** ,1912 *The Christian World Pulpit* ,1914 Outlook Alfred Emanuel Smith,Francis Walton,1875 *The Nation* ,1885
