Thin Places A Pilgrimage Home:

Thin Places Ann Armbrrecht, 2008-11-28 *Thin Places* is an eloquent meditation on what it means to move between cultures and how one might finally come home a particular paradox in a culture that lacks deep ties to the natural world During the 1990s Ann Armbrrecht an American anthropologist made several trips to northeastern Nepal to research how the Yamphu Rai acquired farmed and held onto their land how they perceived their area s recent designation as a national park and conservation area and whether as she believed they held a wisdom about living on the earth that the industrialized West had forgotten What Armbrrecht found instead were men and women who shared her restlessness people also driven by the feeling that there must be more to life than they could find in their village We each blamed our dissatisfaction on something in the world she writes not something in ourselves or in the stories we told ourselves about that world If only we lived elsewhere then we would be at home Charting Armbrrecht s travels in the mountains of Nepal and in the United States and her disintegrating marriage back home *Thin Places* is ultimately an exploration not of the sacred far off but of the sacredness of places that are between between the internal and external landscape the self and others and the self and the land She finds that home is not a place where we arrive but a way of being in place wherever that place may be Along the way Armbrrecht explores the disconnections in our most intimate relationships how they stem from the same disconnections that create our destruction of the land and how one cannot be healed without attending to the other

The New Apologetics Ian S. Markham, 2020-03-27 Skepticism about Christianity abounds Building on the work of Charles Taylor Ian S Markham argues that contemporary skepticism is more a mood than an intellectual repudiation of Christian theology In its attempt to accommodate science the church too often opts for deistic responses that take the spiritual out of the material Against this response Markham argues for a rich imaginative account of the world that is grounded in Christian revelation and affirms spiritual causation angels and the reality of the saints It is a clarion call for the Western church to learn from the church in the Global South and create a rich theology that lives up to its professed values as a genuinely inclusive church
