Thinking About Death Immortality Badham:

The Eclipse of Eternity T. Walter, 1995-12-17 Many people still believe in life after death but modern institutions operate as though this were the only world eternity is now eclipsed from view in society and even in the church This book carefully observes the eclipse what caused it how full is it what are its consequences will it last How significant is recent interest in near death experiences and reincarnation **Perspectives on Death and Dying** Arthur S. Berger, 1989

'Hell': A Hard Look at a Hard Question David J. Powys, 2007-01-01 I welcome this rigorous examination of some of the many questions which are raised by the doctrine of hell At a time when it is rare to hear even heaven spoken about in our churches it is encouraging that this sober theme is once more in our sights It was plainly often on the lips of Jesus Nigel M de S Cameron Trinity International University Dr Powys has pursued a rigorous examination of the Scriptures He rivets our attention on what the New Testament actually says about the fate of the unrighteous This is a seminal work David Claydon Federal Secretary CMS Australia The author writing from a position of biblical conservatism has presented a powerful convincing and scholarly case for the view that the unrighteous will forfeit resurrection life in the Kingdom of God It is in my judgment the most thorough treatment of the issue in recent years John W Pryor Macquarie University This book is an impressive thorough discussion of a thorny question Dr Powys is at home in many branches of biblical studies He examines the biblical evidence carefully and sets his case out lucidly and with real insight showing convincingly how ill founded are many ancient and many recent views on the fate of the unrighteous His own solution of a set of complex exegetical and theological issues is judicious and clearly the end result of careful thought from the Foreword by Graham Stanton University of Cambridge David Powys has made a significant contribution to an increasingly important debate His book's real strength lies in its very careful study of New Testament teaching in the light of a comprehensive analysis of the Old Testament and Jewish literature This literature is rightly seen not merely as background but as the key to a right understanding of the New Testament teaching I wish that such a clear discussion had been available when I first began engaging with these questions Stephen Travis St John's College Nottingham David Powys was educated at The University of Melbourne He gained degrees in arts and social work studied theology at Ridley College and was ordained in 1981 Dr Powys has ministered in four Melbourne parishes He is an Examining Chaplain to the Archbishop of Melbourne and a member of Archbishop in Council and National Synod He was awarded the Doctor of Theology by the Australian College of Theology in 1994 for his *The Hermeneutics of Hell* The present volume is a slightly abbreviated version of that dissertation Immortal Souls Edward Feser, 2024-09-04 *Immortal Souls* provides as ambitious and complete a defense of Aristotelian Thomistic philosophical anthropology as is currently in print Among the many topics covered are the reality and unity of the self the immateriality of the intellect the freedom of the will the immortality of the soul the critique of artificial intelligence and the refutation of both Cartesian and materialist conceptions of human nature Along the way the main rival positions in contemporary philosophy

and science are thoroughly engaged with and rebutted Reviews Edward Feser's book is a Summa of the nature of the human person it is therefore both a rather long but brilliant monograph and a valuable work for consultation Each of the human faculties discussed is treated comprehensively with a broad range of theories considered for and against and although Feser's conclusions are firmly Thomistic one can derive great benefit from his discussions even if one is not a convincedhylomorphist Every philosopher of mind would benefit from having this book within easy reach Howard Robinson Professor Emeritus of Philosophy Central European University Feser defends the Aristotelian and Thomistic system effectively bringing it into dialogue with recent debates and drawing on some of the best of both analytic Kripke Searle Bonjour Fodor and phenomenological Heidegger Merleau Ponty Dreyfus philosophy He deftly rebuts objections to Thomism both ancient and modern Anyone working today on personal identity the unity of the self the semantics of cognition free will or qualia will need to engage with the analysis and arguments presented here Robert C Koons Professor of Philosophy University of Texas at Austin

Thinking About Death and Immortality Paul Badham, 2015-12-01 For many people belief in the afterlife has evaporated Scientific discoveries about the history of our species our growing understanding of the vastness of the universe new findings in brain research these things and many others conspire to make belief in immortality difficult In this thoughtful companion to scientific realities of our time Paul Badham explores the grounds on which the hope of immortality central for Christian doctrine can be revitalized today He suggests that the possibility of a relationship between God and human beings is confirmed by our religious experience and that resurrection and immortality need each other Written in a balanced even handed tone it is a helpful considered and ultimately hopeful discussion for people with questions Even those who don't ultimately agree with the author's conclusions will benefit from the engagement Includes chapters on the evidential value of near death experiences concepts of heaven and arguments against belief in hell
