Mythmaking across Boundaries Züleyha Çetiner-Öktem, 2016-04-26 This volume explores the dynamics of myths throughout time and space along with the mythmaking processes in various cultures literatures and languages in a wide range of fields ranging from cultural studies to the history of art The papers brought together here are motivated by two basic questions How are myths made in diverse cultures and literatures And do all different cultures have different myths to be told in their artistic pursuits To examine these questions the book offers a wide array of articles by contributors from various cultures which focus on theory history space place philosophy literature language gender and storytelling Mythmaking across Boundaries not only brings together classical myths but also contemporary constructions and reconstructions through different cultural perspectives by transcending boundaries Using a wide spectrum of perspectives this volume instead of emphasising the different modes of the mythmaking process connects numerous perceptions of mythmaking and investigates diversities among cultures languages and literatures viewing them as a unified whole As the essays reflect on both academic and popular texts the book will be useful to scholars and students as well as the general reader

**The Shek Kip Mei Myth** Alan Smart, 2006-06-01 Alan Smart raises serious questions about the standard view that Hong Kong's mass public housing programme was a direct and humane response by the Government to the Shek Kip Mei fire Rather he argues that the Government's response to that fire was grudging and incremental rather than a sharp and radical turning point and that the security and stability of Hong Kong weighed as heavily possibly more so in the decisions than the predicament of the fire victims His research shows that a whole sequence of major fires after Shek Kip Mei and the political costs of the Mainland sending comfort missions to fire victims both before and after were needed to bring about the final commitment to provide mass public housing In his critical examination of the conventional position Professor Smart bases his case on a thorough reading of government records and provides a careful investigation into the origins of the public housing policy in Hong Kong This volume makes an important contribution to the postwar history of Hong Kong and is a significant addition to the study of its modern development

are central to this critical appraisal of Beauvoir's legacy demonstrating the contemporary relevance of her thought as it diagnoses the present and looks toward change for a better future This book will be of great interest to undergraduate and postgraduate students looking to engage with the political content of Simone de Beauvoir's work and the timely application of her ideas
