Third Grade Framework Common Core Pacing Guide:

From Rigorous Standards to Student Achievement Laura Mc Cullough, 2013-09-27 This book showcases strategies which support teachers and principals as they implement high standards for students At the same time it demonstrates how to meet the needs of diverse learners

Kim Bailey, Chris Jakicic, 2013-07-23 Leverage teamwork to integrate the CCSS into your curriculum and build on a foundational knowledge of PLCs You ll gain a comprehensive understanding of the shifts required to implement the standards in core content areas and find valuable tips and strategies for creating strong collaborative practices Identify the essential standards determine learning targets define proficiency learn how to design rigorous assessments and more

PLC+ Douglas Fisher, Nancy Frey, John Almarode, Karen Flories, Dave Nagel, 2019-05-16 What makes a powerful and results driven Professional Learning Community PLC The answer is collaborative work that expands the emphasis on student learning and leverages individual teacher efficacy into collective teacher efficacy PLC Better Decisions and Greater Impact by Design calls for strong and effective PLCs plus and that plus is YOU Until now the PLC movement has been focused almost exclusively on students and what they were or were not learning But keeping student learning at the forefront requires that we also recognize the vital role that you play in the equation of teaching and learning This means that PLCs must take on two additional challenges maximizing your individual expertise while harnessing the power of the collaborative expertise you can develop with your peers PLC is grounded in four cross cutting themes a focus on equity of access and opportunity high expectations for all students a commitment to building individual self efficacy and the collective efficacy of the professional learning community and effective team activation and facilitation to move from discussion to action The PLC framework supports educators in considering five essential questions as they work together to improve student learning Where are we going Where are we now How do we move learning forward What did we learn today Who benefited and who did not benefit The PLC framework leads educators to question practices as well as outcomes It broadens the focus on student learning to encompass educational equity and teaching efficacy and in doing so it leads educators to plan and implement learning communities that maximize individual expertise while harnessing the power of collaborative efficacy

Aligning Third-grade Fractions Curriculum with the Common Core State Standards: a Teacher's Plan for Implementation

Brooke L.N.. Webster,California State University, Sacramento,2013 The last implementation of state standards was in 1997 when California and the rest of the country were in an economic climate that supported growth in so many aspects including education In 2010 the state of California adopted new State Standards set forth by the federal and state governments California teachers are tasked with implementing these standards however many teachers are not being provided with the necessary tools to support their teaching With larger class sizes and little to no money teachers are being asked to change in an environment that offers them little to no support Common Core Standards are of the educational future in California Due to the lack of financial support in buying new curriculum that aligns to these standards teachers will have rely on their own professional practices to help them implement to these new standards For the teachers in many districts this means developing support lessons and materials that align with these new standards while using their old non aligned curriculum as the base This master s project will help teachers to bridge the curricular gap in the fractions unit of the third grade math curriculum Macmillan McGraw Hill 2008 The project s supplemental lessons will coincide with the textbook lessons while at the same time aligning with the CCSS This project includes written lesson plans that can be easily implemented by third grade teachers in my district and will assist them to be teaching based upon the new CCSS Using the current third grade curriculum alongside the Common Core State Standards National Governor s Association Center for Best Practices and Council of Chief State School Officers NGA CCSSO 2010 as well as other fractions resources I developed supplemental fractions lessons that any teacher could use In addition to the detailed lessons themselves the project contains all instructional materials including student in class worksheets and suggested assessments
