International Perspectives on Mathematics Curriculum Denisse R Thompson,Mary Ann Huntley,Christine Suurtamm,2018-01-01 Curriculum can be defined in a variety of ways It might be viewed as a body of knowledge a product or a process Curricula can differ as they are conceptualized from various theoretical perspectives to address the needs of teachers students and the context of schooling One reason to study curriculum is to reveal the expectations processes and outcomes of students school learning experiences that are situated in different cultural and system contexts further studies of curriculum practices and changes are much needed to help ensure the success of educational reforms in the different cultural and system contexts Kulm Li 2009 p 709 This volume highlights international perspectives on curriculum and aims to broaden the wider mathematics education community s understandings of mathematics curriculum through viewing a variety of ways that curricula are developed understood and implemented in different jurisdictions countries Within this volume we define curriculum broadly as the set of mathematics standards or outcomes the messages inherent in mathematics curriculum documents and resources how these standards are understood by a variety of stakeholders and how they are enacted in classrooms The focus is on the written implied and enacted curriculum in various educational settings throughout the world

Leading for Instructional Improvement Stephen Fink,Anneke Markholt,2011-02-17 Leading for Instructional Improvement Educational experts agree that quality teaching is the single most important factor in improving educational outcomes for all students Teaching is a highly sophisticated and complex endeavor requiring deep expertise on the part of teachers and school leaders This book shows how teacher school and district leaders can cultivate the expertise of teachers to deliver high quality instruction for all students Leading for Instructional Improvement captures the nationally acclaimed work conducted by the Center for Educational Leadership at the University of Washington in its effort to improve the quality of teaching and leadership in schools across the country The book provides extensive practical guidance grounded in theory and research along with powerful stories and examples from classrooms schools and districts Many of the tools protocols and frameworks contained in this book can be accessed electronically by visiting the Center for Educational Leadership website

at www.k12leadership.org Praise for *Leading for Instructional Improvement* This book offers insights that are invaluable to educators who seek to enhance teacher effectiveness now. The ideas presented are practical and applicable to schools in a variety of settings. PEDRO A. NOGUERA, Ph.D., Peter L. Agnew, Professor of Education, Steinhardt School of Culture, Education, and Development, and executive director, Metropolitan Center for Urban Education. A deep and thoughtful look at how the issue of expertise is cultivated. Seizing upon their Center's research-based instructional framework, the authors provide important insights and tools. DR. BEVERLY HALL, superintendent, Atlanta Public Schools. In this age of intense focus on how we evaluate teachers, we have to remember that any evaluation is only as good as the evaluator. This extremely useful book provides an excellent roadmap for how principals can become more effective in the most important aspect of their work: instructional leadership. JERRY D. WEAST, Ed.D., superintendent of schools, Montgomery County Public Schools, Maryland. Fink and Markholt offer practitioners a guide to effective teaching. *Leading for Instructional Improvement* asks us to heed the lessons within and support the kind of teacher education that will improve student achievement for today's schools and those of tomorrow. BARNETT BERRY, president, Center for Teaching Quality.

Revisiting Professional Learning Communities at Work® Richard DuFour, Rebecca DuFour, 2009-11-01. This 10th anniversary sequel to the authors' best-selling book *Professional Learning Communities at Work™*. *Best Practices for Enhancing Student Achievement* merges research, practice, and passion. The most extensive, practical, and authoritative PLC resource to date, it goes further than ever before into best practices for deep implementation, explores the commitment consensus issue, and celebrates successes of educators who are making the journey.

Year/Glance Pacing Chart Gr1 CA Math 02 HSP, 2001 *Kid by Kid, Skill by Skill* Robert Eaker, Janel Keating, 2015-07-20. Written for educators and administrators, this book explores professional learning communities from a teacher's perspective. Focused chapters survey effective and collaborative team actions, instructional practices that enhance teacher efficiency, and the role teacher judgment and classroom context play in determining instructional outcomes. The authors show that shifting teachers' focus from teaching to learning creates a lasting commitment to PLC success.

Over-Tested and Under-Prepared Bob Sornson, 2022-11-23. Pressured by standardized testing and rigid pacing guidelines, many schools are forced to cover too much content too quickly without being able to meet the needs of individual students. In this powerful book from acclaimed author and presenter Bob Sornson, you'll learn how shifting from curriculum-based instruction to competency-based, personalized learning can help students become more successful, confident, and engaged learners. Each chapter is easy to digest and provides compelling research, strategies, and anecdotes to inspire conversation and action. This second edition provides updated statistics and examples of schools successfully using competency-based learning models to help you bring about meaningful change. Teachers, administrators, and community leaders will all find practical resources and a clear rationale for transforming our current educational system into a new, dynamic model of teaching and learning.
