**Culture: Raise 'low', Rethink 'high.' A Representation of the Academic Potential of So-Called 'Low' Culture** Emma Buchanan, 2020-11-15 Despite or more likely due to being the culture which most affects and interacts with the masses the broad and definition evading category of popular culture remains a second class citizen in academia relegated to a position of low below a culture deemed high and worthy of scholarly inquiry This eclectic collection of essays aims to convince that this inequality must be addressed by exploring a variety of supposedly low cultural types and texts through an academic lens proving that so called low culture can be a valuable contribution to academic research That said raising the low does not mean making it high turning it into an elite category to be accessed only by experts Rather the authors are unswerving in their approach that academic writing and fan writing are not mutually exclusive On the contrary it is their knowledge and passion as fans of their subject matter that has inspired their chapters all of which draw upon their considerable experience of engaging as fans in what they discuss All the chapters have been written by postgraduate students seeking to inspire a new empiricism through which their interests might be fully pursued in their futures as scholars Emma Buchanan is a British postgraduate researcher and television fan
