**Three-fisted Tales of "Bob"** Ivan Stang, 1990      **Invented Religions** Carole M. Cusack, 2016-05-06 Utilizing contemporary scholarship on secularization individualism and consumer capitalism this book explores religious movements founded in the West which are intentionally fictional Discordianism the Church of All Worlds the Church of the SubGenius and Jediism Their continued appeal and success principally in America but gaining wider audience through the 1980s and 1990s is chiefly as a result of underground publishing and the internet This book deals with immensely popular subject matter Jediism developed from George Lucas Star Wars films the Church of the Flying Spaghetti Monster founded by 26 year old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students The Church of All Worlds focus on Gaia theology and environmental issues makes it a popular focus of attention The continued success of these groups of Invented Religions provide a unique opportunity to explore the nature of late post modern religious forms including the use of fiction as part of a bricolage for spirituality identity formation and personal orientation      *Fiction, Invention and Hyper-reality* Carole M. Cusack, Pavol Kosnáč, 2016-11-18 The twentieth century was a period of rapid change for religion Secularisation resulted in a dramatic fall in church attendance in the West and the 1950s and 1960s saw the introduction of new religions including the International Society for Krishna Consciousness ISKCON the Church of Scientology and the Children of God New religions were regarded with suspicion by society in general and Religious Studies scholars alike until the 1990s when the emergence of a second generation of new new religions based on popular cultural forms including films novels computer games and comic books and highly individualistic spiritualities confirmed the utter transformation of the religio spiritual landscape Indeed Scientology and ISKCON appeared almost traditional and conservative when compared to the radically de institutionalised eclectic parodic fun loving and experimental fiction based invented and hyper real religions In this book scholarly treatments of cutting edge religious and spiritual trends are brought into conversation with contributions by representatives of Dudeism the Church of All Worlds the Temple of the Jedi Order and Tolkien spirituality groups This book will simultaneously entertain shock challenge and delight scholars of religious studies as well as those with a wider interest in new religious movements      **Magic, Rhetoric, and Literacy** William A. Covino, 1994-07-28 This book presents a selective introductory reading of key texts in the history of magic from antiquity forward in order to construct a suggestive conceptual framework for disrupting our conventional notions about rhetoric and literacy Offering an overarching pointed synthesis of the interpenetration of magic rhetoric and literacy William A Covino draws from theorists ranging from Plato and Cornelius Agrippa to Paulo Freire and Mary Daly and analyzes the different magics that operate in Renaissance occult philosophy and Romantic literature as well as in popular indicators of mass literacy such as The Oprah Winfrey Show and The National Enquirer Magic Rhetoric and Literacy distinguishes two kinds of magic rhetoric that continue to affect our

psychological and cultural life today Generative magic rhetoric creates novel possibilities for action within a broad sympathetic universe of signs and symbols Arresting magic rhetoric attempts to induce automatistic behavior by inculcating rules and maxims that function like magic ritual formulas JUST SAY NO In this connection the literate individual is one who can interrogate arresting language and generate counter spells      **Forthcoming Books** Rose Arny,1990      **The Complete, Cross-referenced Guide to the Baby Buster Generation's Collective Unconscious** Glenn Gaslin,Rick Porter,1998 From Atari to oat bran glasnost to Boy George this comprehensive alphabetized and witty guide takes readers through the big 80s a concise cross referenced catalogue of historical events artistic achievements technological developments cultural triumphs and of course Smurfberry Crunch Now as 70s nostalgia peaks the next and possibly even sillier decade takes the spotlight as a new generation embraces its embarrassing past Includes cultural high points such as Baby on Board Dallas Eurythmics Flashdance Inspector Gadget Just Say No Kate Allie Live Aid McDLT Pac Man Rainforests Teddy Ruxpin Underoos Valley Girls Xanadu and much too much more      Beneath the Underground Bob Black,1994 The first in depth exploration from within of the rapidly growing cultural phenomenon which received its name from the author Bob Black the marginals milieu You could also call it the do it yourself subculture It consists of the perhaps 20 000 self publishers of micro circulation zines and other self produced art music pamphlets and posters      **Science Fiction, Fantasy & Horror** ,1990 A comprehensive bibliography of books and short fiction published in the English language      **Olderr's Fiction Index** ,1990      Mondo 2000 R.
