Encyclopedia of Action Research David Coghlan, Mary Brydon-Miller, 2014-08-11 Action research is a term used to
describe a family of related approaches that integrate theory and action with a goal of addressing important organizational
community and social issues together with those who experience them It focuses on the creation of areas for collaborative
learning and the design enactment and evaluation of liberating actions through combining action and research reflection and
action in an ongoing cycle of cogenerative knowledge While the roots of these methodologies go back to the 1940s there has
been a dramatic increase in research output and adoption in university curricula over the past decade This is now an area of
high popularity among academics and researchers from various fields especially business and organization studies education
health care nursing development studies and social and community work The SAGE Encyclopedia of Action Research brings
together the many strands of action research and addresses the interplay between these disciplines by presenting a state of
the art overview and comprehensive breakdown of the key tenets and methods of action research as well as detailing the
work of key theorists and contributors to action research **Books in Print** , 1977 Workshop Manual 365/371XP
