World Religions 2015 A Voyage Of Discovery 4th Edition:

World Religions (2015) Jeffrey Brodd, 2015 The updated edition of this highly acclaimed text continues to help young people unlock the doors to the world's major religious traditions. The textbook highlights recent events in the history of these traditions and helps eleventh and twelfth graders understand the people, dimensions, and religious principles of the world's major religions. NEW in this edition: New! A new modern design with updated fonts, imagery, and colors brings new life to each page. New! Each chapter begins with an updated opener to help draw students' attention to key information that will be covered in the chapter. New! Updated events and statistics encourage discussion and a deeper understanding of the different religions. New! Thought-provoking activities are embedded within each chapter to allow students to immerse themselves in and explore the content further. New! Term definitions are now reflected in a sidebar directly on the page where the term is first introduced, making them easier for students to find and use. New! A master glossary has been added to provide students a single point of reference for all significant terms. Encourages eleventh and twelfth graders to explore the people, dimensions, and religious principles of the key religions of the world. Psychiatric Mental Health Nursing Mary C. Townsend, Karyn I. Morgan, 2017-10-19 Clearly written comprehensive coverage of psychiatric mental health nursing delivers what nursing students need to meet the challenges of health care today. Its evidence-based holistic approach to nursing practice focuses on both physiological and psychological disorders. Designed to be used in longer psychiatric mental health nursing courses, this text provides students with a comprehensive grounding in therapeutic approaches as well as must-know DSM-5 disorders and nursing interventions. Hollywood or History? Thomas E. Malewitz, Adam P. Zoeller, 2023-01-01 Teaching and learning through Hollywood or commercial film and television productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. However, purposeful and effective instruction through film is not problem-free, and many challenges accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we are developing a collection of practical classroom-ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic-mindedness. The NCSS College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading, and writing. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically 6-12 teachers of social studies and world religion content, by offering a collection of classroom-ready tools based on the Hollywood or History strategy and designed to foster inquiry through the careful use of selected motion pictures and television productions. Topics of interest include the roots, rituals, symbols, beliefs, and controversial or significant people or events related to The Abrahamic Religions: Judaism, Christianity, Islam; Eastern Religions: Philosophies, Hinduism, Buddhism; Indigenous Religions; Spirituality; First Nations.
