The Palgrave Handbook of Anarchism

Carl Levy, Matthew S. Adams, 2018-06-22 This handbook unites leading scholars from around the world in exploring anarchism as a political ideology from an examination of its core principles an analysis of its history and an assessment of its contribution to the struggles that face humanity today Grounded in a conceptual and historical approach each entry charts what is distinctive about the anarchist response to particular intellectual political cultural and social phenomena and considers how these values have changed over time At its heart is a sustained process of conceptual

definition and an extended examination of the core claims of this frequently misunderstood political tradition It is the definitive scholarly reference work on anarchism as a political ideology and should be a crucial text for scholars students and activists alike *Energy In World History* Vaclav Smil,2019-04-15 Every human activity entails the conversion of energy Changes in the fundamental sources of energy and in the use of energy sources are a basic dimension of the evolution of society Our appreciation of the significance of these processes is essential to a fuller understanding of world history Vaclav Smil offers a comprehensive look at the role **Creating and Contesting Carolina** Michelle LeMaster,Bradford J. Wood,2013-11-01 The essays in *Creating and Contesting Carolina* shed new light on how the various peoples of the Carolinas responded to the tumultuous changes shaping the geographic space that the British called Carolina during the Proprietary period 1663 1719 In doing so the essays focus attention on some of the most important and dramatic watersheds in the history of British colonization in the New World These years brought challenging and dramatic changes to the region such as the violent warfare between British and Native Americans or British and Spanish the no less dramatic development of the plantation system and the decline of proprietary authority All involved contestation whether through violence or debate The very idea of a place called Carolina was challenged by Native Americans and many colonists and metropolitan authorities differed in their visions for Carolina The stakes were high in these contests because they occurred in an early American world often characterized by brutal warfare rigid hierarchies enslavement cultural dislocation and transoceanic struggles for power While Native Americans and colonists shed each other s blood to define the territory on their terms colonists and officials built their own version of Carolina on paper and in the discourse of early modern empires But new tensions also provided a powerful incentive for political and economic creativity The peoples of the early Carolinas reimagined places reconceptualized cultures realigned their loyalties and adapted in a wide variety of ways to the New World Three major groups of peoples European colonists Native Americans and enslaved Africans shared these experiences of change in the Carolinas but their histories have usually been written separately These disparate but closely related strands of scholarship must be connected to make the early Carolinas intelligible *Creating and Contesting Carolina* brings together work relating to all three groups in this unique collection *A History of Stability and Change in Lebanon* Joseph Bayeh,2017-06-30 Lebanon is a country whose domestic politics have even more than others in the region been at the mercy of changes on the international stage Having been under Ottoman and French rule in the nineteenth and early twentieth centuries the post World War II era has seen Lebanon subjected to Israeli Syrian and American interventions which have all threatened the country s stability as a state Joseph Bayeh argues that it is this international dimension which holds the key to an in depth understanding of the country In support of this argument Bayeh examines Lebanese history from its early days under the Ottomans to the present day in order to show how international shifts and conflicts have had their impact on Lebanon With changes such as the fall of the Ottoman empire the rise of US power after World War II the end of the Cold War and the new

focus on the region in the aftermath of 9 11 Lebanon has at various junctures been bolstered or undermined Bayeh tracks all of this offering insights into the workings of Lebanon s domestic politics which will appeal to researchers of the international relations of the Middle East and Lebanon s political history

Sea of Storms Stuart B. Schwartz, 2016-07-26 A panoramic social history of hurricanes in the Caribbean The diverse cultures of the Caribbean have been shaped as much by hurricanes as they have by diplomacy commerce or the legacy of colonial rule In this panoramic work of social history Stuart Schwartz examines how Caribbean societies have responded to the dangers of hurricanes and how these destructive storms have influenced the region s history from the rise of plantations to slavery and its abolition to migrations racial conflict and war Taking readers from the voyages of Columbus to the devastation of Hurricane Katrina Schwartz looks at the ethical political and economic challenges that hurricanes posed to the Caribbean s indigenous populations and the different European peoples who ventured to the New World to exploit its riches He describes how the United States provided the model for responding to environmental threats when it emerged as a major power and began to exert its influence over the Caribbean in the nineteenth century and how the region s governments came to assume greater responsibilities for prevention and relief efforts that by the end of the twentieth century were being questioned by free market neoliberals Schwartz sheds light on catastrophes like Katrina by framing them within a long and contentious history of human interaction with the natural world Spanning more than five centuries and drawing on extensive archival research in Europe and the Americas *Sea of Storms* emphasizes the continuing role of race social inequality and economic ideology in the shaping of our responses to natural disaster
