Worlding Cities Asian Experiments And The Art Of Being Global:

Worlding Cities Ananya Roy,Aihwa Ong,2011-08-15 Worlding Cities is the first serious examination of Asian urbanism to highlight the connections between different Asian models and practices of urbanization It includes important contributions from a respected group of scholars across a range of generations disciplines and sites of study Describes the new theoretical framework of worlding Substantially expands and updates the themes of capital and culture Includes a unique collection of authors across generations disciplines and sites of study Demonstrates how references to Asian power success and hegemony make possible urban development and limit urban politics **Urban Utopias** Tereza Kuldova,Mathew A.

Varghese,2017-03-09 This book brings anthropologists and critical theorists together in order to investigate utopian visions of the future in the neoliberal cities of India and Sri Lanka Arguing for the priority of materiality in any analysis of contemporary ideology the authors explore urban construction projects special economic zones fashion ramps films archaeological excavations and various queer spaces In the process they reveal how diverse co existing utopian visions are entangled with local politics and global capital and show how these utopian visions are at once driven by visions of excess and by increasing expulsions It s a dystopia already in the making one marred by land grabs and forced evictions rising inequality and the loss of urbanity and civility **The Urbanising Dynamics of Global China** Hyun Bang Shin,Yimin

Zhao,Sin Yee Koh,2025-05-02 The book focuses on the urban dimension of global China especially regarding the impacts of its urbanising dynamics on the re imaginings and manifestations of global urban futures It situates China s urban question in contemporary global change and vice versa by understanding the rise of global China as an urban process that weaves together compressed spaces variegated times and trans scalar power dynamics in the making of global capitalism The overseas expansion of China s economic influence has long been foregrounded in media reports and policy debates especially with the rise of the Belt and Road Initiative that has turned China into one of the key investors in the global South The term global China has been widely adopted to depict the geopolitical dimension of this immense flow of capital This edited volume explores the urban manifestation of global China at different scales and involving diverse actors discussing the ways in which the urban has been reconfigured by China s global expansion and uncovering the differentiated modes of speculative and spectacular urban production at present Observing from Ghana India Malaysia and China chapters in this book collectively make theoretical methodological and empirical contributions to recognise the dynamics of speculation articulation and translation in global capitalism where China plays an increasingly significant role Three main themes have guided the book s interrogation of what global China implies These include a transplanting models and urbanism b multi scalar construction of temporality and c situating the urban China model in global capitalism These aspects mark the core of the book s endeavour to extend the critique of our changing urban conditions at present This book was originally published as a special issue of Urban Geography **Making Cultural Cities in Asia** June Wang,Tim Oakes,Yang Yang,2015-12-22 This book examines the

vast and largely uncharted world of cultural creative city making in Asia It explores the establishment of policy models and practices against the backdrop of a globalizing world and considers the dynamic relationship between powerful actors and resources that impact Asian cities Making Cultural Cities in Asia approaches this dynamic process through the lens of assemblage how the policy models of cultural creative cities have been extracted from the flow of ideas and how re invented versions have been assembled territorialized and exported This approach reveals a spectrum between globally circulating ideals on the one hand and the place based contexts and contingencies on the other At one end of the spectrum this book features chapters on policy mobility in particular the political construction of the web of communication and the restructuring or rescaling of the state At the other end chapters examine the increasingly fragmented social forces their changing roles in the process and their negotiations alignments and resistances This book will be of interest to researchers and policy makers concerned with cultural and urban studies creative industries and Asian studies Cities of the Global South Reader Faranak Miraftab, Neema Kudva, 2014-10-10 The Cities of the Global South Reader adopts a fresh and critical approach to the field of urbanization in the developing world The Reader incorporates both early and emerging debates about the diverse trajectories of urbanization processes in the context of the restructured global alignments in the last three decades Emphasizing the historical legacies of colonialism the Reader recognizes the entanglement of conditions and concepts often understood in binary relations first third worlds wealth poverty development underdevelopment and inclusion exclusion By asking whose city whose development the Reader rigorously highlights the fractures along lines of class race gender and other socially and spatially constructed hierarchies in global South cities The Reader's thematic structure where editorial introductions accompany selected texts examines the issues and concerns that urban dwellers planners and policy makers face in the contemporary world These include the urban economy housing basic services infrastructure the role of non state civil society based actors planned interventions and contestations the role of diaspora capital the looming problem of adapting to climate change and the increasing spectre of violence in a post 9 11 transnational world The Cities of the Global South Reader pulls together a diverse set of readings from scholars across the world some of which have been written specially for the volume to provide an essential resource for a broad interdisciplinary readership at undergraduate and postgraduate levels in urban geography urban sociology and urban planning as well as disciplines related to international and development studies Editorial commentaries that introduce the central issues for each theme summarize the state of the field and outline an associated bibliography They will be of particular value for lecturers students and researchers making the Cities of the Global South Reader a key text for those interested in understanding contemporary urbanization processes

Polycrisis and Economic Development in the Global South Hebatallah Adam, Ravinder Rena, 2024-11-08 Global polycrisis refers to the simultaneous occurrence of multiple interconnected crises It is marked by the convergence and interaction of combined events such as geopolitical tensions economic instability environmental degradation public health

emergencies and social disturbance In this context this book explores the challenges and opportunities encountered by the Global South amid political instability climate change humanitarian crises technological advancements and regional cooperation The book adopts a multidisciplinary framework integrating theoretical studies with empirical cases from various southern regions in Africa Asia and Latin America This approach helps to foster an in depth understanding of the complex challenges associated with development in these regions The book emphasizes the perspectives and experiences of Global South countries providing a platform for their voices to be heard This allows readers to gain a more nuanced understanding of the unique contexts perspectives and successful experiences of countries in Africa Asia and Latin America Furthermore it investigates issues such as governance security migration development and emergent technologies illuminates the role of regional organizations in fostering regional integration peace and stability and ultimately provides a comprehensive and refined analysis of the Global South that challenges prevalent stereotypes and offers new perspectives on the world s complex realities today It includes case studies that enhance the practical relevance of the book offering real world examples that illustrate the theoretical concepts and highlightingsuccessful approaches to addressing development challenges The book will appeal to scholars researchers and students interested in comprehending and addressing the challenges

encountered by the Global South in a time of global polycrisis **The Urbanism of Exception** Martin J. Murray,2017-03-10

This book argues that understanding global urbanism in the twenty first century requires us to cast our gaze upon vast city regions without an urban core **Studies in Religion and the Everyday** Farhana Ibrahim,2024-02-27 *Studies in Religion and the Everyday* is a collection of essays addressing the contours of religious beliefs and practices in the context of everyday life in India Events and processes in contemporary India especially post the 1990s have contributed to distinct modes of articulating religious practices This volume is an attempt to historicize and problematize the categorization of religion as a universally held and analytically distinct feature of human life and seeks to understand the conditions historical political discursive and processes of authorization under which a particular set of practices values and dispositions constitutes the religious at a specific point in time By bringing together studies that draw from diverse methodological and epistemological approaches the book will serve as a useful introduction to religion in India for the general reader and as an indispensable resource for students and researchers The volume presents fresh perspectives on existing fields of study such as the city capital minorities secularization and the state no longer seen as distinct from religion but actively co produced with religion in the context of the theoretical rubric of the everyday thereby marking a departure from approaching the question of religion solely through the lens of identity and conflict *Emerging Global Cities* Alejandro Portes,Ariel C.

Armony,2022-12-27 Certain cities most famously New York London and Tokyo have been identified as global cities whose function in the world economy transcends national borders Without the same fanfare formerly peripheral and secondary cities have been growing in importance emerging as global cities in their own right The striking similarity of the skylines of

Dubai Miami and Singapore is no coincidence despite following different historical paths all three have achieved newfound prominence through parallel trends In this groundbreaking book Alejandro Portes and Ariel C Armony demonstrate how the rapid and unexpected rise of these three cities recasts global urban studies They identify the constellation of factors that allow certain urban places to become emerging global cities centers of commerce finance art and culture for entire regions The book traces the transformations of Dubai Miami and Singapore identifying key features common to these emerging global cities It contrasts them with global hopefuls cities that at one point or another aspired to become global and analyzes how Hong Kong is threatened with the loss of this status Portes and Armony highlight the importance of climate change to the prospects of emerging global cities showing how the same economic system that propelled their rise now imperils their future Emerging Global Cities provides a powerful new framework for understanding the role of peripheral cities in the world economy and how they compete for and sometimes achieve global standing

Urban Geography Andrew E. G. Jonas, Eugene McCann, Mary Thomas, 2015-03-09 Urban Geography a comprehensive introduction to a variety of issues relating to contemporary urban geography including patterns and processes of urbanization urban development urban planning and life experiences in modern cities Reveals both the diversity of ordinary urban geographies and the networks flows and relations which increasingly connect cities and urban spaces at the global scale Uses the city as a lens for proposing and developing critical concepts which show how wider social processes relations and power structures are changing Considers the experiences lives practices struggles and words of ordinary urban residents and marginalized social groups rather than exclusively those of urban elites Shows readers how to develop critical perspectives on dominant neoliberal representations of the city and explore the great diversity of urban worlds
