Howe also struggled to redefine the American Left in an environment that discounted and marginalized it. Indeed, these interviews may have particular significance today, a period of new opportunities for the liberal Left yet one in which it struggles to construct some coherent identity and compelling program. The editors worked with the full cooperation of Howe's family. His daughter Nina contributed an afterword and provided a number of illustrations and photos that have never before appeared in print. The Rise and Fall of Jewish American Literature Benjamin Schreier, 2020-09-18

Benjamin Schreier argues that Jewish American literature's dominant cliché of breakthrough—that is, the irruption into the heart of the American cultural scene during the 1950s of Jewish American writers like Bernard Malamud, Philip Roth, Saul Bellow, and Grace Paley—must also be seen as the critically originary moment of Jewish American literary study. According to Schreier, this is the primal scene of the Jewish American literary field, the point that the field cannot avoid repeating and replaying in instantiating itself as the more or less formalized academic study of Jewish American literature. More than sixty years later, the field's legibility, the very condition of its possibility, remains overwhelmingly grounded in a reliance on this single ethnological narrative. In a polemic against what he sees as the unexamined foundations and stagnant state of the field, Schreier interrogates a series of professionally powerful assumptions about Jewish American literary history: how they came into being and how they hardened into cliché. He offers a critical genealogy of breakthrough and other narratives through which Jewish Studies has asserted its compelling self-evidence, not simply under the banner of the historical realities Jewish Studies claims to represent but more fundamentally for the intellectual and institutional structures through which it produces these representations. He shows how a historicist scholarly narrative quickly consolidated and became hegemonic in part because of its double articulation of a particular American subject and of a transnational historiography that categorically identified that subject as Jewish. The ethnological grounding of the Jewish American literary field is no longer tenable, Schreier asserts, in an argument with broad implications for the reconceptualization of Jewish and other identity-based ethnic studies.

A Mirror in the Roadway Morris Dickstein, 2021-08-10

In a famous passage in *The Red and the Black*, the French writer Stendhal described the novel as a mirror being carried along a roadway. In the twentieth century, this was derided as a naïve notion of realism. Instead, modern writers experimented with creative forms of invention and dislocation. Deconstructive theorists went even further, questioning whether literature had any real reference to a world outside its own language, while traditional historians challenged whether novels gave a trustworthy representation of history and society. In this book, Morris Dickstein reinterprets Stendhal's metaphor and tracks the different worlds of a wide array of twentieth-century writers, from realists like Theodore Dreiser, Sinclair Lewis, Edith Wharton, and Willa Cather through modernists like Franz Kafka and Samuel Beckett to wildly inventive postwar writers like Saul Bellow, Günter Grass, Mary McCarthy, George Orwell, Philip Roth, and Gabriel García Márquez. Dickstein argues that fiction will always yield rich insight into its subject and that literature can also be a form of historical understanding. Writers refract the world through their

forms and sensibilities He shows how the work of these writers recaptures yet also transforms the life around them the world inside them and the universe of language and feeling they share with their readers Through lively and incisive essays directed to general readers as well as students of literature Dickstein redefines the literary landscape a landscape in which reading has for decades been devalued by society and distorted by theory Having begun with a reconsideration of realism the book concludes with several essays probing the strengths and limitations of a historical approach to literature and criticism

Write like a Man Ronnie A. Grinberg, 2024-03-26 How virility and Jewishness became hallmarks of postwar New York's combative intellectual scene In the years following World War II the New York intellectuals became some of the most renowned critics and writers in the country Although mostly male and Jewish this prominent group also included women and non Jews Yet all of its members embraced a secular Jewish machismo that became a defining characteristic of the contemporary experience Write like a Man examines how the New York intellectuals shared a uniquely American conception of Jewish masculinity that prized verbal confrontation polemical aggression and an unflinching style of argumentation Ronnie Grinberg paints illuminating portraits of figures such as Norman Mailer Hannah Arendt Lionel and Diana Trilling Mary McCarthy Norman Podhoretz Midge Decter and Irving Howe She describes how their construction of Jewish masculinity helped to propel the American Jew from outsider to insider even as they clashed over its meaning in a deeply anxious project of self definition Along the way Grinberg sheds light on their fraught encounters with the most contentious issues and ideas of the day from student radicalism and the civil rights movement to feminism Freudianism and neoconservatism A spellbinding chronicle of mid century America Write like a Man shows how a combative and intellectually grounded vision of Jewish manhood contributed to the masculinization of intellectual life and shaped some of the most important political and cultural debates of the postwar era

Irving Howe and the Critics John Rodden, 2005-01-01 Irving Howe and the Critics is a selection of essays and reviews about the work of Irving Howe 1920-93 a vocal radical humanist and the most influential American socialist intellectual of his generation Howe authored eighteen books edited twenty five more wrote dozens of articles and reviews and edited the magazine Dissent for forty years after founding it His writings cover subjects ranging from U S labor to the vicissitudes of American communism and socialism to Yiddishkeit and contemporary politics His book World of Our Fathers The Journey of the East European Jews to America and the Life They Found and Made received the National Book Award for Nonfiction John Rodden has chosen essays and reviews that focus on Howe's major works and on the disputes they generated He features both Dissent contributors and those who have dissented from the Dissenters on the Right as well as the Left Rodden includes a few stern assessments of Howe from his less sympathetic critics testifying not only to the range of response from admiration to hostility that his work received but also to his stature on the Left as a prime intellectual target of neoconservative fire

The Unexamined Orwell John Rodden, 2012-08-17 A reflection on Orwell as idea that outlines some of the misconceptions and misuses of the Orwell name Modern Fiction Studies The year 1984 is just a

memory but the catchwords of George Orwell's novel *Nineteen Eighty Four* still routinely pepper public discussions of topics ranging from government surveillance and privacy invasion to language corruption and bureaucratese. Orwell's work pervades the cultural imagination while others of his literary generation are long forgotten. Exploring this astonishing afterlife has become the scholarly vocation of John Rodden, who is now the leading authority on the reception impact and reinvention of George Orwell, the man and writer as well as of Orwell, the cultural icon and historical talisman. In *The Unexamined Orwell*, Rodden delves into dimensions of Orwell's life and legacy that have escaped the critical glare. He discusses how several leading American intellectuals have earned the title of Orwell's successor, including Lionel Trilling, Dwight Macdonald, Irving Howe, Christopher Hitchens, and John Lukacs. He then turns to Germany and focuses on the role and relevance of *Nineteen Eighty Four* in the now defunct communist nation of East Germany. Rodden also addresses myths that have grown up around Orwell's life, including his more than half-legendary encounter with Ernest Hemingway in liberated Paris in March 1945, and analyzes literary issues such as his utopian sensibility and his prose style. Finally, Rodden poses the endlessly debated question: What would George Orwell do? and speculates about how the prophet of *Nineteen Eighty Four* would have reacted to world events. In so doing, Rodden shows how our responses to this question reveal much about our culture's ongoing need to reappropriate Orwell.

The Intellectual Species John Rodden, 2022-01-17. This book explores the prospects for survival of what we have come to know as the intellectual in the post-Gutenberg age. It addresses the contemporary history of this species spawned in the print age, meditating on the precarious future of intellectual life in the digital era of nanosecond soundbites, fake news, smart phones, and clicks and scrolls in lieu of reading. The book ponders these issues as it addresses the examples of a diverse group of British, American, French, and German intellectuals of the post-World War II era. These case histories showcase concretely the state of the culture in the context of particular lives, offering diverse intellectual portraiture featuring a wide range of writers across the ideological spectrum. The key family resemblance of these figures is that most of them are contrarians, regardless of whether they were freelance writers or academic intellectuals, American or British or European, and chiefly imaginative writers or non-fiction writers and scholars. Among the intellectuals discussed are George Orwell, Dwight Macdonald, Irving Howe, Camille Paglia, Albert Camus, Robert Havemann, and others. Regardless of which intellectual domains occupied their energies, the histories of all of them yield insight into the transformation of cultural life in recent decades and the contrasting challenges faced by intellectuals of earlier eras versus our own. These issues are of paramount significance for all those who care about the life of the mind and the future of homo sapiens.
