flexstudy.com **Stress Less, Live More** Richard Blonna, 2010-04-01 I'm never going to finish this project on time. This is hopeless. Everything's going wrong. Why do I try to do everything at once? A busy life is full of stressful situations that's a given. But that doesn't mean there is nothing you can do. Your thoughts can actually affect the way your brain processes stress for better or worse. Most of the time our brains compound the problem adding thoughts of self-doubt and frustration to already difficult situations. *Stress Less Live More* presents a program based in acceptance and commitment therapy (ACT) that can help you train your brain to react to stress in a different way. With the mindfulness and acceptance techniques in this book you'll clear out mental clutter, enhance your focus and concentrate on the present moment so that you can channel your energy into what matters most to you. It's that simple. Learn to mindfully accept what can't be changed. Find peace and contentment in the present moment. Practice relaxation skills you can use to calm yourself in a crisis. Make time for yourself by asserting your right to say no.

Gladiator Philip Wylie, 2021-03-16T23:07:58Z *Gladiator* first published in 1930 tells the story of Hugo Danner who is given superhuman speed, endurance, strength and intelligence by his father as an experiment in creating a better human. We follow Hugo throughout his life viewed from his perspective from childhood when Hugo first discovers he's different from others to adulthood as Hugo tries to find a positive outlet for his abilities around the time of the first World War. *Gladiator* has been made into a 1938 comedy movie and is thought to be the inspiration for the Superman comic books though this has not been confirmed. This book is part of the Standard Ebooks project which produces free public domain ebooks.
