Worship And The New Cosmology Liturgical And Theological Challenges:

Worship and the New Cosmology Catherine Vincie, 2014-08-14 What is the Christian response to developments in the hard sciences What do discoveries at the macro and micro levels have to say about Christian theology about a theology of God Christology pneumatology and creation How do the developments in systematic theology that do take the advances in cosmology and the New Sciences seriously come to bear on our worship life These are the questions that are addressed in this text It is an initial effort to bring cosmology and the New Sciences into dialogue with developments in systematic and sacramental theology This book also suggests some ways in which these developments might appear in our worship Overall the author is concerned to reduce the cognitive dissonance between our scientifically informed everyday lives and our life of faith

Sacramentality Renewed Lizette Larson-Miller, 2016 Tracing developments in sacramental theology over the past twenty five years this study explores a growing ecumenical dynamism in both the academic study of sacramentality and its centrality in pastoral applications But how does ecumenical excitement in a renewed discovery of sacramental theology fit with different theologies of church and different pastoral beliefs and practices How does the universality of academic accessibility in the form of an expansive ecumenical sharing of perspectives meet the particularities of pastoral reality and ecclesial polity Arguing in favor of fruitful ecumenical conversation this book also focuses on the crucial interaction of ecclesiology liturgical practice and sacramentality which raises the need for a creative tension between the particularities of a given ecclesial system and the catholicity of Christian sacramentality Using Anglican sacramental theologies and Anglicanism as vehicles of exploration this study contributes to an overview of the state of the field of sacramental theology in the twenty first century while challenging the assumption that one size fits all In sacramental theology as in other important areas of Christian life unity in diversity may be the basis for authentic lived sacramentality

Art and Architecture for Congregational Worship Richard S. Vosko, 2019-09-26 A deep strain of tribal politics is dividing societies around the globe Organized religions are also coping with scandals disappointments and polarizing ideologies The history of Christianity reveals that such frictions deeply wound the church Fr Richard S Vosko recognizes that liturgical buildings are metaphorical expressions of the people of God He proposes in a relational way that when all physical and psychological boundaries in a place of worship are removed people will discover a common ground Building on theological foundations and design principles Vosko envisions what an egalitarian servant church can look like In a bold but thoughtful manner he

Theology and Ecology in Dialogue

Dermot A. Lane, 2020-05-21 This book opens with an examination of the meaning of the innocent sounding category of Integral Ecology in contemporary thought and its significance for theology today According to well known Irish theologian Dermot Lane Integral Ecology changes everything In this book he focuses on the neglected implications of Integral Ecology for systematic theology Ecology challenges theology to reimagine who we are who the Spirit of God is who Christ is where creation is going and what is the role of liturgy in society all in the glare of the ecological crisis This book also mines the theology within and behind the ground breaking encyclical Laudato Si On Care for our Common Home Until fairly recently climate change was left to the scientists politicians and activists More is needed Now is the time to hear voice of religion in that debate in the public forum with a view to initiating new transformative practices in society in politics and in religions This new book will be of interest to activists politicians priests christian educators and theologians The book is born out of the conviction that climate change is not just one more problem to be addressed by politicians rather it is the challenge facing humanity in the 21st century and as such is the challenge underlying all other challenges at this moment in history

Worship and Church Latkovich, Sallie, Phan, Peter C., 2019 These essays cover historical systematic spiritual and spiritual aspects as well as social justice issues in relation to liturgy Dialectics of the Big Bang and the Absolute Existence of the Multiverse Gregory Phipps, 2024-06-11 This interdisciplinary book develops a dialectical narrative about the beginning of the universe by combining Hegel's philosophy with texts about the Big Bang theory Scientific accounts of the Big Bang indicate that the first second of existence was an eventful period in which the universe progressed through six different epochs Bringing together cosmological narratives and Hegel's writings particularly *The Science of Logic* Gregory Phipps reads this movement as a dialectical progression a sequence of transitions among interlinked concepts like being and nothing finitude and infinitude and space and time Phipps also draws upon Hegel's conception of absolutes to outline a model of the multiverse In doing so he argues that Hegelian readings of the first second offer speculative snapshots of a hypothetical multiverse that contains the full and probably infinite scope of existence Acknowledging the profound impact that the Big Bang theory can produce on understandings of age old philosophical concerns this study importantly brings Hegel's philosophy into dialogue with contemporary science tracing intersections in his speculative thought and the more creative and imaginative dimensions of cosmology For scholars and readers interested in Hegelianism and in the crosscurrents between philosophy science and narrative
