Wrenching Traditions:

Moral Tradition and Individuality John Kekes, 1991-11-12 In this study John Kekes develops the view that good lives depend on maintaining a balance between one's moral tradition and individuality. Our moral tradition provides the forms of good lives and the permissible ways of trying to achieve them. But to do so the author argues we must grow in self-knowledge and self-control to make our characters suitable for realizing our aspirations. In addressing general readers as well as scholars, Kekes makes these philosophical views concrete by drawing on a rich variety of literary sources including among others the works of Sophocles, Henry James, Tolstoy, and Edith Wharton. The first half of the work concentrates on social morality, establishing the conditions all good lives must meet. The second discusses personal morality, the sphere of individuality. Its development enables us to discover what is important to us and how we can fit our personal aspirations into the forms of life our moral tradition provides. Kekes's argument derives its inspiration from Aristotle's objectivism, Hume's emphasis on custom and feeling, and Mill's concentration on individuals and their experiments in living. This book is a nontechnical yet closely reasoned attempt to provide a contemporary answer to the age-old question of how to live well.

1-2 Kings William Barnes, 2012 The Cornerstone Biblical Commentary series provides up-to-date evangelical scholarship on the Old and New Testaments. Each volume is designed to equip pastors and Christian leaders with exegetical and theological knowledge to better understand and apply God's Word by presenting the message of each passage as well as an overview of other issues surrounding the text. The commentary series has been structured to help readers understand the meaning of Scripture passage by passage through the entire Bible. The New Living Translation is an authoritative Bible translation rendered faithfully into today's English from the ancient texts by 90 leading Bible scholars. The NLT's scholarship and clarity breathe life into even the most difficult to understand Bible passages, but even more powerful are stories of how people's lives are changing as the words speak directly to their hearts. That's why we call it *The Truth Made Clear*. William Barnes, ThD, Harvard Divinity School, has worked extensively in the Historical books of the OT, published several commentaries and scholarly articles, and is a contributor to *Biblica: The Bible Atlas*. His interests include OT history and chronology as well as narrative and poetic structure and sequencing in the Hebrew Bible and the NT. He served as a member of the NLT Translation Team for 1-2 Kings.

Canons and Contexts Paul Lauter, 1991 The essays in this volume represent the author's effort to reconstruct American literature by establishing a theory of canonical criticism which aims to open up the canon of American literature to the works of women, minorities, and working class writers.

Handbook of Critical Race Theory in Education Marvin Lynn, Adrienne D. Dixon, 2021-10-25 This handbook illustrates how education scholars employ Critical Race Theory (CRT) as a framework to bring attention to issues of race and racism in education. It is the first authoritative reference work to provide a truly comprehensive description and analysis of the topic from the defining conceptual principles of CRT in Law that gave shape to its radical underpinnings to the political and social implications of the

field today It is divided into six sections covering innovations in educational research policy and practice in both schools and in higher education and the increasing interdisciplinary nature of critical race research New chapters broaden the scope of theoretical lenses to include LatCrit AsianCrit and Critical Race Feminism as well as coverage of DisCrit Studies Research Methods and other recent updates to the field This handbook remains the definitive statement on the state of critical race theory in education and on its possibilities for the future

Valuing Hindu Women's Domestic Shrine Traditions as Reproductive Labor Ashlee Norene Andrews, 2024-10-07 Historically in middle class Bengali Hindu households it has been the matriarch's responsibility to arrange and maintain the domestic shrine and to perform daily rituals of deity worship and caretaking termed in this book as domestic shrine traditions These traditions are often assimilated with the other domestic caretaking labor women are expected to complete for their families Utilizing a years long ethnography with Bengali American Hindu women and drawing from Marxist feminist Social Reproduction Theory this book argues that domestic shrine traditions are reproductive labor that is essential to the transnational and transgenerational sustenance of Hindu traditions and subjectivities As the first monograph focused on Hindu women's domestic shrine traditions in the United States this book illuminates both the value of these traditions for the women who maintain them and how these traditions connect immigrant Hindus to family and ethno religious identity in ways unmatched by the public Hindu temple or organization

Communication and the Globalization of Culture Shaheed Nick Mohammed, 2011-09-16 Shaheed Nick Mohammed's Communication and the Globalization of Culture Beyond Tradition and Borders provides a unique perspective on the concept of culture and its fate in the globalized mediated environment Acknowledging widespread fears of cultural erosion at the hands of dominant global forces Mohammed argues that what we understand as culture has always been the product of global forces including those of trade and exchange Our very conceptions of culture are questioned The sanctity of tradition religion and heritage the book suggests should give way to an appreciation of the quite mundane origins of cultural artifacts invented often as matters of political or social expedience adopted sometimes in accidents of history and canonized by time into the catechisms of cultural belief Communication and the Globalization of Culture also suggests several mechanisms by which pragmatic social practices and fictional discourses make their way into the cultural beliefs and traditions of societies Shaheed Nick Mohammed examines how the modern globalized environment gives rise to cultural practices that demonstrate cultural inventions imagined communities and manufactured cultural products suggesting that such inventions and imaginations are not uniquely modern but rather a continuation of cultural inventions that long pre date our media globalized environment

Organizational Climate and Culture Mark G. Ehrhart, Benjamin Schneider, William H. Macey, 2013-11-20 The fields of organizational climate and organizational culture have co existed for several decades with very little integration between the two In Organizational Climate and Culture An Introduction to Theory Research and Practice Mark G Ehrhart Benjamin Schneider and William H Macey break down the barriers between these fields to

encourage a broader understanding of how an organization's environment affects its functioning and performance Building on in depth reviews of the development of both the organizational climate and organizational culture literatures the authors identify the key issues that researchers in each field could learn from the other and provide recommendations for the integration of the two They also identify how practitioners can utilize the key concepts in the two literatures when conducting organizational cultural inquiries and leading change efforts The end product is an in depth discussion of organizational climate and culture unlike anything that has come before that provides unique insights for a broad audience of academics practitioners and students African-American Perspectives and Philosophical Traditions John Pittman, John P.

Crime and Criminality Sally M. Edwards, Terry D. Edwards, Charles B. Fields, 2013-08-01 First published in 1996 One of the primary goals of this series has been to explore new areas of criminology and criminal justice topics that constitute the frontiers of the field This work edited by Sally Edwards Terry Edwards and Charles Fields exemplifies that purpose in its coverage of environmental crime While corporate and political crime developed slowly into mainstream criminology over the last half century environmental crime as an area of emphasis is still in its infancy It is unusual to have many varied and informative perspectives early in a subject's development This volume however demonstrates that many people are already examining environmental crime perhaps as an extension of both the greater environmental movement and the broadening of the popular parameters of crime **India and Its Intellectual Traditions: of Love, Advaita, Power, and Other Things**
