L Head, 2016-03-15 Part detective story part love affair and pure adventure storytelling at its best a celebration of the thrill of exploration and the lure of wild places during the search for the elusive Nechisar Nightjar In 1990 a group of Cambridge scientists arrived at the Plains of Nechisar in Ethiopia On that expedition they collected more than two dozen specimens saw more than three hundred species of birds and a plethora of rare butterflies dragonflies reptiles mammals and plants As they were gathering up their findings a wing of an unidentified bird was packed into a brown paper bag It was to become the most famous wing in the world This wing would set the world of science aflutter Experts were mystified The wing was entirely unique It was like nothing they had ever seen before Could a new species be named based on just one wing After much discussion a new species was announced Nechisar Nightjar or Camprimulgus Solala which means only wing And so birdwatchers like Vernon began to dream Twenty two years later he

joins an expedition of four to find this rarest bird in the world In this gem of nature writing Vernon captivates and enchants as he recounts the searches by spotlight through the Ethiopian plains and allows the reader to mediate on nature exploration our need for wild places and the human compulsion to name things The Rarest Bird in the World is a celebration of a certain way of seeing the world and will bring out the explorer in everyone who reads it RSPB Everyday Guide to British Wildlife Charlie Elder,2025-05-22 This informative and engaging guide for beginner wildlife watchers and nature enthusiasts describes the mammals reptiles amphibians fish and insects commonly seen in the British Isles Do you know the difference between a hare and a rabbit And could you tell a grasshopper from a cricket or a porpoise from a dolphin A companion to our popular photographic bird guide The RSPB Everyday Guide to British Wildlife will help you identify more than 100 of our most common and widespread species from the back garden and town centre to the countryside and coast Species accounts include friendly text written by Charlie Elder beautiful colour photos fun facts and top tips to help you identify crucial species characteristics while you're out and about The easy to use layout helps beginners quickly find what they are looking for and the book also includes practical advice and information on a range of fascinating topics including wildlife ponds gardening for pollinators and rockpool residents Richly detailed and accessible this helpful guide is a perfect introduction for anyone keen to get outside and learn more about the extraordinary range of wildlife we can see in Britain *Facing extinction: the world's rarest birds and the race to save them* Paul F.
