Reis, 2009 Teeming with a population of 3.5 million at the end of the 19th century the island of Manhattan couldn't meet the city's demand for rapid transit with its horse drawn trolleys and elevated train lines New York City needed a subway system After four years of digging and diverting miles of utilities and tunneling under the Harlem River the city's residents celebrated a new era in mass transit on October 27, 1904 with the opening of a nine mile subway route In the century to come the New York subway would grow and expand to a system that runs 24 hours a day seven days a week with 6,400 cars 468 stations a daily ridership of 4.5 million and 842 miles of track longer than the distance from New York to Chicago Politics graffiti and unbelievable construction challenges combined to make the building and running of the New

 Agata Krzychylkiewicz,2006 This book is the first critical attempt made in any language to re examine the entire oeuvre of
 Bruno Jasie ski 1901 1938 It takes into account the writer s lifelong concerns but places them in the context of the universal
 value of his writing generated by his modernist passions and his fascination with the grotesque an artistic device that was
 consonant with his need to portray life in all its complexities The author relies on the grotesque as an element that unifies
 Jasie ski s futuristic poetry with his prose Especially important in this regard is the close reading of Jasie ski s satiric
 grotesques written in the Soviet Union The author does not avoid the intricacies and difficult questions of Jasie ski s
 ideological commitment but focuses mainly on the consequences that the highly ambivalent and ambiguous nature of the
 grotesque has on the interpretation of his work Bulletin of the Public Library of the City of Boston Boston Public
