Unger,2019-03-26 One of The Christian Science Monitor s Best Nonfiction Books of 2018 An engrossing read a historically and psychologically rich account of the young Picasso and his coteries in Barcelona and Paris The Washington Post and how

he achieved his breakthrough and revolutionized modern art through his masterpiece *Les Femmes d'Alger (O.J. Version O)*. In 1900, eighteen-year-old Pablo Picasso journeyed from Barcelona to Paris, the glittering capital of the art world. For the next several years, he endured poverty and neglect before emerging as the leader of a bohemian band of painters, sculptors, and poets. Here, he met his first true love and enjoyed his first taste of fame. Decades later, Picasso would look back on these years as the happiest of his long life. Recognition came first from the avant-garde, then from daring collectors like Leo and Gertrude Stein. In 1907, Picasso began the vast, disturbing masterpiece known as *Les Femmes d'Alger (O.J. Version O)*. Inspired by the painting of Paul Cézanne and the inventions of African and tribal sculpture, Picasso created a work that captured the disorienting experience of modernity itself. The painting proved so shocking that even his friends assumed he'd gone mad, but over the months and years, it exerted an ever-greater fascination on the most advanced painters and sculptors, ultimately laying the foundation for the most innovative century in the history of art.

In *Picasso and the Painting That Shocked the World*, Miles J. Unger combines the personal story of Picasso's early years in Paris, his friendships, his romances, his great ambition, his fears, with the larger story of modernism and the avant-garde. *The Christian Science Monitor*: "This is the story of an artistic genius with a singular creative gift. It is riveting. This engrossing book chronicles with precision and enthusiasm a painting with lasting impact in today's art world." Publishers Weekly starred review: "all of it played out against the backdrop of the world's most captivating city."

Excerpt from *The World's Painters and Their Pictures*: "The present universal interest in the subject of historic art and the indications that very soon it will hold equal importance in our school curriculums with those of general history and literature are sufficient excuse for the making of a new book which treats of the world's painters and paintings. It is hoped that the volume will be of especial usefulness to young students of the subject to whom it has been carefully adapted as well as to the general reader. In it reference will be found to painters of greatest note in the history of art; a careful analysis of the characteristics of their work; and abundant and well-arranged information concerning their most noted pictures, all in accordance with the decisions of the latest and most authoritative criticism. This latter feature will be found of unusual service to those who are preparing to visit the picture galleries of the Old World. The significance of colors as used by the old masters, and the emblems by which saints and other sacred personages when found in an old picture may be readily recognized, as well as the pronouncing vocabulary of artists' names, are useful features of the book. It also contains a list of pictures which have grown familiar to the public through reproduction, together with names of their painters and the places where they are to be found."
