Paul Jones, 1989 By exploring five common Christian perspectives theological worlds this volume helps readers understand the basis of their own Christian attitudes identify the sources of their confusions about life and the church and come to a deeper appreciation of the assumptions and motivations of others Author W Paul Jones demonstrates that each of the five theological worlds has a legitimate basis in both Scripture and tradition He explores why the citizens of each world have great difficulty understanding and accepting the legitimacy of other worlds and why people of goodwill often misconstrue the words and intentions of others Theological Worlds offers thoughtful insight to all Christians who want to understand and deal effectively with other human beings Christian educators will appreciate the references to literature books plays songs poetry which illustrate the characteristics of residents of the five worlds and point toward ways to achieve nurturing experiences for students and congregations Preachers will find the volume helpful as a means of crafting sermons that speak to the diversity of experience among their church members **Remnant Christianity in a Post-Christian World** W. Paul Jones, 2021-11-03 The contemporary Christian church is in critical decline both in membership and finances All attempts at reversal are failing primarily because of the consuming socioeconomic secular dynamic in which society is immersed in its self destructive course Consequently Christian imagery is losing its conceivability and credibility and past motivations that once encouraged belief have lost their appeal Without these as points of contact the demise of the institutional church will be relentless despite all efforts to halt it Yet as at other crisis points in history the divine promise has been to raise a faithful remnant with sufficient promise to outlast whatever the societal demise After carefully analyzing the ingredients of our societal crisis the author develops the contours of a Remnant Church to be set in place now within the present institutional churches This necessitates distilling a vital spirituality and discerning the heart of a preservable tradition sufficient to claim both personal and communal commitment Thereby prepared for the long haul the Remnant Church can emerge as a prophetic alternative *Confident Witness--changing World* Craig Van Gelder, 1999 In Confident Witness Changing World twenty two scholars and skilled ministry practitioners explore this complex question not only theoretically but also in practical terms immediately useful to pastors and church leaders *Melodies of a New Monasticism* Craig Gardiner, 2018-03-09 The New Monastic Movement is a vibrant source of renewal for the church s life and mission Many involved in this movement have quoted Dietrich Bonhoeffer s conviction that the church must recover ancient spiritual disciplines if it is to effectively engage the powers that be Melodies of a New Monasticism adopts a musical metaphor of polyphony the combination of two or more lines of music to articulate the way that these early Christian virtues can be woven together in community Creatively using this imagery this book draws on the theological vision of Bonhoeffer and the contemporary witness of George MacLeod and the Iona Community to explore the interplay between discipleship doctrine

and ethics A recurring theme is the idea of Christ as the cantus firmus the fixed song around which people perform the diverse harmonies of God in church and world including worship ecumenism healing peace justice and ecology Growing a Healing Ministry Kathy Edmison,2004 This book is based directly on the experience and wisdom of those who have established energy touch healing ministries in congregational settings Theology After Reading Darren J.
