Thetford Grammar School David Seymour,2016-04-21 Thetford Grammar School s formation is shrouded in mystery but it may date back as far as 631 First re founded by the Bishop of Norwich in 1114 the school was revitalised following the dissolution of the monasteries and firmly re established by an Act of Parliament in 1610 and then by a new foundation document in 1876 A Girls School was set up alongside the ancient Boys School in 1888 and both schools spent the middle years of the twentieth century as county council grammar schools before their re foundation as a co educational independent school in 1981 Written to coincide with the 450th anniversary of Thetford Grammar School s re founding and drawing on the school s archives David Seymour discusses four and a half centuries of governance pupils headteachers ushers and assistant teachers phases of building and the development of the curriculum *Books in Print* ,1948 [A Short History of Thetford Grammar School](#) G. R. Blaydon,1920 [The English Grammar Schools to 1660](#) Foster Watson,1908 **The English Grammar Schools to 1660** Foster Watson,2023-07-18 In this groundbreaking study Foster Watson provides a comprehensive look into the English grammar schools of the 17th century tracing their history and development and exploring their curriculum and teaching practices With insights into the social and cultural context of the period this book is an essential resource for anyone interested in the history of education This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant [The English Grammar Schools to 1660](#) Foster Watson,2015-07-07 Excerpt from The English Grammar Schools to 1660 Their Curriculum and Practice The object of this book is to present an account of the development of the teaching in the English Grammar Schools from the time of the Invention of Printing up to 1660 It is a history of the practice of the schools of their curricula and of the differentiated subjects of instruction in distinction from the history of the theories of educational reformers as to what ought to be taught and how existing methods might be improved The basis of the work is therefore bibliographical It has been impossible within the space at disposal to include a statement of all the bibliographical detail on which the generalisations are based but throughout the attempt has been made to describe really representative documents and school text books The study of English educational history has not hitherto included much consideration of the old school text books used in the 16th and 17th centuries Yet this seems to be the safest way of securing a sound basis for the study of the school practice of the times It will be evident how much use has been made of the Ludus Literarius 1612 and 1627 of John Brinsley and the New Discovery of the Old Art of Teaching School of Charles Hoole 1660 This has been the more necessary because

as yet there are no reprints of those outstanding historical documents of 17th century school work About the Publisher
