Things of Darkness Kim F. Hall, 1996 **Diversity and Difference in Early Modern London** Jacob

Selwood, 2016-05-23 London in the sixteenth and seventeenth centuries was a surprisingly diverse place home not just to people from throughout the British Isles but to a significant population of French and Dutch immigrants to travelers and refugees from beyond Europe's borderlands and from the 1650s to a growing Jewish community Yet although we know much about the population of the capital of early modern England we know little about how Londoners conceived of the many peoples of their own city *Diversity and Difference in Early Modern London* seeks to rectify this addressing the question of how the inhabitants of the metropolis ordered the heterogeneity around them Rather than relying upon literary or theatrical representations this study emphasizes day to day practice drawing upon petitions government records guild minute books and taxation disputes along with plays and printed texts It shows how the people of London defined belonging and exclusion in the course of their daily actions through such prosaic activities as the making and selling of goods the collection of taxes and the daily give and take of guild politics This book demonstrates that encounters with heterogeneity predate either imperial expansion or post colonial immigration In doing so it offers a perspective of interest both to scholars of the early modern English metropolis and to historians of race migration imperialism and the wider Atlantic world An empirical examination of civic economics taxation and occupational politics that asks broader questions about multiculturalism and Englishness this study speaks not just to the history of immigration in London itself but to the wider debate about evolving notions of national identity in the sixteenth and seventeenth centuries **Women and Race in Early Modern Texts** Joyce

Green MacDonald, 2002-05-30 Joyce Green MacDonald discusses the links between women's racial sexual and civic identities in early modern texts She examines the scarcity of African women in English plays of the sixteenth and seventeenth centuries the racial identity of the women in the drama and also that of the women who watched and sometimes wrote the plays The coverage also includes texts from the late fourteenth to the early eighteenth centuries by among others Shakespeare Jonson Davenant the Countess of Pembroke and Aphra Behn MacDonald articulates many of her discussions of early modern women's races through a comparative method using insights drawn from critical race theory women's history and contemporary disputes over canonicity multiculturalism and Afrocentrism Seeing women as identified by their race and social standing as well as by their sex this book will add depth and dimension to discussions of women's writing and of gender in Renaissance literature **Gender and Power in Britain 1640-1990** Susan Kingsley Kent, 2002-01-04 Gender and Power in Britain is an

original and exciting history of Britain from the early modern period to the present focusing on the interaction of gender and power in political social cultural and economic life Using a chronological framework the book examines the roles responsibilities and identities of men and women how power relationships were established within various gender systems how women and men reacted to the institutions laws customs beliefs and practices that constituted their various worlds class racial and ethnic considerations the role of empire in the development of British institutions and identities the civil war twentieth century suffrage the world wars industrialisation Victorian morality

Selected Writings Marguerite de Navarre, 2008-11-15 Marguerite de Navarre 1492 1549 was the sister and wife to kings and a pivotal influence in sixteenth century France An astute politician and diligent humanist she was a champion of gender equality and the evangelical reform movement which recognized that the clergy was more concerned with maintaining the church s power than ministering to the faithful As the years passed and the glitter of life at court waned however Marguerite came to realize her true vocation writing *Selected Writings* brings together a representative sampling of Marguerite s varied writings most of it never before translated into English enabling Anglophone readers to enjoy the full breadth of her work for

the first time From verse letters and fables to mythological pastoral tales from spiritual songs to a selection of novellas from the Heptameron the wide range of works included here will reveal Marguerite de Navarre to be one of the most important writers male or female of sixteenth century France The Correspondence between Princess Elisabeth of Bohemia and René Descartes Princess Elisabeth of Bohemia,René Descartes,2007-11-01 Between the years 1643 and 1649 Princess Elisabeth of Bohemia 1618 80 and Ren Descartes 1596 1650 exchanged fifty eight letters thirty two from Descartes and twenty six from Elisabeth Their correspondence contains the only known extant philosophical writings by Elisabeth revealing her mastery of metaphysics analytic geometry and moral philosophy as well as her keen interest in natural philosophy The letters are essential reading for anyone interested in Descartes s philosophy in particular his account of the human being as a union of mind and body as well as his ethics They also provide a unique insight into the character of their authors and the way ideas develop through intellectual collaboration Philosophers have long been familiar with Descartes s side of the correspondence Now Elisabeth s letters never before available in translation in their entirety emerge this volume adding much needed context and depth both to Descartes s ideas and the legacy of the princess Lisa Shapiro s annotated edition which also includes Elisabeth s correspondence with the Quakers William Penn and Robert Barclay will be heralded by students of philosophy feminist theorists and historians of the early modern period **Laboring Women** Jennifer L. Morgan,2011-09-12 When black women were brought from Africa to the New World as slave laborers their value was determined by their ability to work as well as their potential to bear children who by law would become the enslaved property of the mother s master In *Laboring Women* Reproduction and Gender in New World Slavery Jennifer L Morgan examines for the first time how African women s labor in both senses became intertwined in the English colonies Beginning with the ideological foundations of racial slavery in early modern Europe *Laboring Women* traverses the Atlantic exploring the social and cultural lives of women in West Africa slaveowners expectations for reproductive labor and women s lives as workers and mothers under colonial slavery Challenging conventional wisdom Morgan reveals how expectations regarding gender and reproduction were central to racial ideologies the organization of slave labor and the nature of slave community and resistance Taking into consideration the heritage of Africans prior to enslavement and the cultural logic of values and practices recreated under the duress of slavery she examines how women s gender identity was defined by their shared experiences as agricultural laborers and mothers and shows how given these distinctions their situation differed considerably from that of enslaved men Telling her story through the arc of African women s actual lives from West Africa to the experience of the Middle Passage to life on the plantations she offers a thoughtful look at the ways women s reproductive experience shaped their roles in communities and helped them resist some of the more egregious effects of slave life Presenting a highly original theoretically grounded view of reproduction and labor as the twin pillars of female exploitation in slavery *Laboring Women* is a distinctive contribution to the literature of slavery and the history of women **The History of**

Feerick, 2010-10-02

Strangers in Blood explores in a range of early modern literature the association between migration to foreign lands and the moral and physical degeneration of individuals Arguing that in early modern discourse the concept of race was primarily linked with notions of bloodline lineage and genealogy rather than with skin colour and ethnicity Jean E Feerick establishes that the characterization of settler communities as subject to degenerative decline constituted a massive challenge to the fixed system of blood that had hitherto underpinned the English social hierarchy Considering contexts as diverse as Ireland Virginia and the West Indies *Strangers in Blood* tracks the widespread cultural concern that moving out of England would adversely affect the temper and complexion of the displaced individual changes that could be fought only through willed acts of self discipline In emphasizing the decline of blood as found at the centre of colonial narratives Feerick illustrates the unwitting disassembling of one racial system and the creation of another *Intimacy and Sexuality in the Age of*
