Believing Minds. Fernando José Walsh, 2025-10-09 Is science truly the enemy of faith Can a practicing scientist believe in God Is there an inevitable clash between scientific knowledge and the Bible From Copernicus 1473 1543 to contemporary researchers 200 highly distinguished scientists provide compelling testimony that science clearly affirms a Creator one perfectly consistent with the God revealed in the Scriptures This book delves into the lives and powerful convictions of these titans of science who were also giants of faith The culmination of years of deep investigation this book uncovers a profound truth often obscured by media influence the supposed incompatibility between science and faith is a fallacy Instead it reveals that modern science was born and accelerated by thinkers who based their research on the foundational belief in a wisely designed universe They saw nature s laws as the imprint of a Supreme Creator who empowered humanity created in His image to discover these laws for universal good Explore the inspiring journeys remarkable achievements and deep spiritual convictions of legendary figures like Newton Galileo Pascal Morse Pasteur Edison Marconi and Einstein Featured within are over 30 Nobel Prize winners in crucial scientific fields alongside astronauts whose perspectives were transformed by their experiences Grounded in extensive meticulous research the book champions its thesis with undeniable clarity Science demonstrates that God exists Derek Barton 1918 1998 Nobel Laureate in Chemistry 1969 *Hope* Charlene Moorer, NCC LPC, 2022-08-25 Hope Heart of Peaceful Endurance A Godly Resilience In our ever evolving world where nefarious happenings are occurring regularly and positivity seems to be obscure we all seem to be searching for hope It is the possession we need and perhaps long for to encourage every passing day When things look impossible or in despair we have to build up our hope and lean on our faith Hope is a skill In this easy to read yet powerful book Charlene takes you through five practical steps on employing your hope skills There is exploration through subjective and dictionary definitions of hope before introducing the steps of this indistinct skill In addition we will journey through ways that hope can be stolen and conversely how we can sustain or reinforce our hope through action even during trying times We are more resilient than we give ourselves credit By using Bible verses real life narratives constructive levity and pragmatic ingenuity the goal is to convey to the reader how to identify and utilize the hope steps how to prevent the enemy from stealing your hope why you have to watch your words or words spoken over you what the Bible has to say about hope how to look for the butterfly moments and pursue resilience how antagonistic feelings can affect your hope why hope is the link between faith and wellness where our hope comes from why you are worth it and being kind to yourself During tough times hope is not the easiest to hold on to However it is the best gift you can give yourself Be encouraged and allow God to minister to you Happy reading **The Key Principles to Live a Happy, Healthy and Successful Life** D Livingstone M, 2011-10 This book gives you the key principles that if you read understand and apply your life will change and you will be on your way to achieving

How to Read More Martin Udogie, Dick kramer, 2014-08-01 It doesn't take days or weeks or months to read a book. It takes hours. READ MORE explains how. Most people readily admit that reading books is beneficial and wish they could read a bit more and in some cases a lot more. But most people also have what seem like perfectly valid excuses for not reading chief among which are lack of time work load and responsibility. Yes they all seem perfectly understandable excuses until you read this book and discover accounts of people going out of their way to indulge in the habit. From Rudi Giuliani who as New York Mayor during 9 11 finally arrived home at past 2 A M on the night of that fateful day and still picked up a book to read to Barack Obama who

went on a one week vacation in 2010 with over 2 300 pages of reading to George W Bush whose formula for reading was to enter into a reading contest with his top presidential aide Karl Rove Then there is the challenge of the 99% majority for whom affordability might also be a ready excuse Yet Dr Ben Carson today a world famous neurosurgeon and bestselling author traces his turnaround to the reading habit instilled in him in fifth grade by his single mother who wasnt even literate at the time And there are several other examples But what of the other 1% the rich and famous for whom time is priceless Bill Gates as CEO of Microsoft had a Think Week dedicated to reading And as Singapore Prime Minister Lee Kuan Yew took out time to recharge his batteries at Harvard A commitment to a regime of habitual reading takes more than mental conviction It takes doing And unlike what most people have come to believe reading a book doesnt take days or weeks It takes hours This book demonstrates how and reveals other simple steps that anyone can follow to develop a life time habit of enjoyable reading and reap its rewards **Surviving Society** ,2021-02-15 Surviving Society is your mini guide to changing the way you think loving yourself and setting goals for your life
