initiates a dialogue on the theory of justice in the world and stimulates further debate and research In recent years studies on justice related issues such as fairness and impartiality have become increasingly popular Undoubtedly this has to do with the various manifestations of injustice not only in regions and countries but also in the world s economic and political orders Currently the world is dominated by the Western theory of justice which has led to a series of irrational actions of injustice by certain Western countries in the name of justice The world is in urgent need of a universal theory of justice acceptable to all countries to guide their acts in international affairs The book provides a modern interpretation of classical Chinese institutional ethics and reconstructs the Chinese theory of justice in order to initiate a dialogue between the Western and Eastern world on the theory of justice and to contribute to the establishing of a universal theory of justice in the real sense
