Thinking Critically About Moral Problems:

Thinking Critically about Moral Problems Thomas F. Wall, 2003 In contrast to most texts designed to introduce students to contemporary moral problems this book is designed to present students with a method for how to think for themselves in a morally reasoned fashion Honing students critical thinking skills through continuous reference to a step by step method of moral analysis this text covers not only many timely moral problems associated with life and death social justice and sex and reproduction but many major ethical theories as well such as utilitarianism deontology virtue ethics and egoism Building on the methodology and critical successes of his THINKING CRITICALLY ABOUT PHILOSOPHICAL PROBLEMS Wadsworth 2002 Wall s new book provides students with clear and readily accessible models of rigorous moral analysis to guide their own deliberations about the most crucial moral issues of our time

Thinking Critically about Ethical Issues RUGGIERO, 2019-01-30 Thinking Critically About Ethical Issues encourages students to reason out for themselves the best answers to moral problems rather than providing neat answers for students to swallow and regurgitate Striking a balance between the theoretical and the practical Ruggiero s text discusses the history of ethics but its focus is on doing ethics to promote the development of critical thinking skills and to help students acquire confidence in their own judgement The short chapter length allows students to spend less time reading and more time doing ethical analysis

Thinking Critically about Philosophical Problems Thomas F. Wall, 2001 Cited by one reviewer as a work of stunning originality this new text presents philosophy both as a collection of fundamental problems and as a method to solve problems the method of critical thinking Students become active participants in doing philosophy in using the method of philosophy as philosophers do when they are thinking well The various parts of the text are organized to reflect a recurring pattern of critical thinking and exercises are provided throughout the text to sharpen these thinking skills in the context of solving philosophical problems In addition to addressing individual philosophical problems this text also encourages students to integrate their solutions into a coherent worldview

Thinking Critically about Ethical Issues Vincent R. Ruggiero, 1997 An introduction to the role of critical thinking in moral reasoning Emphasis is on the application of ethical principles to the kinds of moral issues students face in their daily lives

Thinking Critically about Ethical Issues Vincent Ryan Ruggiero, 1992 An introduction to the role of critical thinking in moral reasoning Emphasis is on the application of ethical principles to the kinds of moral issues students face in their daily lives

Thinking Critically about Ethical Issues W/analyzing Moral Issues Vincent Ryan Ruggiero,2014 **Thinking Critically About Ethical Issues**

Vincent Ruggiero,2007-04-13 This concise accessible text emphasizes doing ethical analysis and thinking critically about ethical issues rather than focusing on ethical theory or the history of ethics Ruggiero s readers are invited to apply ethical principles to issues that exemplify the kinds of moral challenges encountered in everyday life It engages students minds stimulates enthusiasm and makes teaching more effective and rewarding

Thinking Critically About Abortion Nathan Nobis,Kristina Grob,2019-06-19 This book introduces readers to the many arguments and controversies concerning abortion While it argues for ethical and legal positions on the issues it focuses on how to think about the issues not just what to think about them It is an ideal resource to improve your understanding of what people think why they think that and whether their and your arguments are good or bad and why It s ideal for classroom use discussion groups organizational learning and personal reading From the Preface To many people abortion is an issue for which discussions and debates are frustrating and fruitless it seems like no progress will ever be made towards any understanding much less resolution or even compromise Judgments like these however are premature because some basic techniques from critical thinking such as carefully defining words and testing definitions stating the full structure of arguments so each step of the reasoning can be examined and comparing the strengths and weaknesses of different explanations can help us make progress towards these goals When emotions run high we sometimes need to step back and use a passion for calm cool critical thinking This helps us better understand the positions and arguments of people who see things differently from us as well as our own positions and arguments And we can use critical thinking skills help to try to figure out which positions are best in terms of being supported by good arguments after all we might have much to learn from other people sometimes that our own views should change for the better Here we use basic critical thinking skills to argue that abortion is typically not morally wrong We begin with less morally controversial claims adults children and babies are wrong to kill and wrong to kill fundamentally because they we are conscious aware and have feelings We argue that since early fetuses entirely lack these characteristics they are not inherently wrong to kill and so most abortions are not morally wrong since most abortions are done early in pregnancy

before consciousness and feeling develop in the fetus Furthermore since the right to life is not the right to someone else's body fetuses might not have the right to the pregnant woman's body which she has the right to and so she has the right to not allow the fetus use of her body This further justifies abortion at least until technology allows for the removal of fetuses to other wombs Since morally permissible actions should be legal abortions should be legal it is an injustice to criminalize actions that are not wrong In the course of arguing for these claims we 1 discuss how to best define abortion 2 dismiss many common question begging arguments that merely assume their conclusions instead of giving genuine reasons for them 3 refute some often heard everyday arguments about abortion on all sides 4 explain why the most influential philosophical arguments against abortion are unsuccessful 5 provide some positive arguments that at least early abortions are not wrong 6 briefly discuss the ethics and legality of later abortions and more This essay is not a how to win an argument piece or a tract or any kind of apologetics It is not designed to help anyone win debates everybody wins on this issue when we calmly and respectfully engage arguments with care charity honesty and humility This book is merely a reasoned systematic introduction to the issues that we hope models these skills and virtues Its discussion should not be taken as absolute proof of anything much more needs to be understood and carefully discussed always *Thinking Critically* John Chaffee, 1994 *Thinking Critically* 8 e teaches the fundamental thinking reasoning reading and writing abilities that students need for academic success The text begins with basic skills related to personal experience and then carefully progresses to the more sophisticated reasoning skills required for abstract academic contexts *Thinking Critically* introduces students to the cognitive process while teaching them to develop their higher order thinking and language abilities A number of distinctive characteristics make the text an effective tool for both instructors and students Exercises discussion topics and writing assignments encourage active participation stimulating students to critically examine their own and others thinking

Essays on Political Morality Richard Mervyn Hare, 1998 R M Hare one of the most widely discussed of today's moral philosophers presents a selection of essays in which he brings ethical theory lucidly to bear on moral problems arising in politics He examines our obligation to obey the law the limits of legitimate lawbreaking civil violence and war rights of various sorts and their supposed conflict with utility justice distributive and retributive and care of the environment His arguments are amply illustrated by specific examples The volume substantiates the author's claim that help with such problems can be found in philosophy and particularly in his own ethical theory which draws together the best insights of Kant and utilitarians **Moral Dilemmas** Christopher W. Gowans, 1987 This volume brings together the principal contributions to the recent debate concerning the nature of moral dilemmas In addition to background selections from Kant Mill Bradley and Ross it includes essays by Alan Donagan Philippa Foot R M Hare Ruth Barcan Marcus Thomas Nagel Bas C van Fraassen Bernard Williams and others *The Moral University* Maurice R.
