Manners David Meagher decided to write another book on the subject He abhors crude and crass behaviour yet found himself getting mad at others and teetering on the edge of becoming one of the ill mannered people he so despised So instead of getting angry all the time and risking becoming known as that crazy guy who yells out his car window at people he decided the time was right to get back into the manners business The A to Z of Modern Manners looks at the new forces shaping the way we live as well as some old ones and suggests the best ways to behave It s not about pointing the finger at people and calling out bad behaviour okay there s a bit of that but he hasn t named anyone it s about using common sense and thinking about how your actions might make other people feel in that situation There is no right or wrong way to walk and text simultaneously There is however a way to do it that will cause the least inconvenience for everyone else using the footpath You can work out what form that takes by having a little empathy for your fellow humans That s just good manners
