Up Before Daylight Life Histories From The Alabama Writers Project 1938 1939:

Up Before Daylight James Seay Brown, 1982 These compelling accounts of hard times and hard work reveal human courage dignity and resilience from a generation that endured the Great Depression One achievement of the 1930s Federal Writers Project was its ambitious collection of life histories based on interviews with southern workers and farmers For Up before Daylight James Seay Brown chose 28 of the more than 100 accounts from throughout Alabama as a rich sampling from the Tennessee Valley to the Gulf Coast and from cities as well as rural regions First published in 1982 Up before Daylight is now available in a reprint edition containing a revised preface by the editor and a new foreword by Alabama historian Wayne Flynt

Voices from Slavery Norman R. Yetman, 2012-03-15 Vivid descriptions of the horrors of slave auctions and many other unforgettable and sometimes unrepeatable details of slave life Accompanied by 32 starkly compelling photographs

Rural Worlds Lost Jack Temple Kirby, 1986-12-01 Immediately following the Civil War and for many years thereafter southerners proclaimed a New South implying not only the end of slavery but also the beginning of a new era of growth industrialization and prosperity Time has shown that those declarations at least in terms of progress and prosperity were premature by several decades Life for an Alabama tenant farmer in 1920 did not differ significantly from the life his grandfather led fifty years earlier In fact the South remained primarily a land of poor farming folks until the 1940s Only then and after World War II did the real New South of industrial growth and urban development begin to emerge Jack Temple Kirby s massive and engaging study examines the rural southern world of the first half of this century its collapse and the resulting modernization of southern society The American South was the last region of the Western world to undergo this process and Rural Worlds Lost is the first book to so thoroughly assess the profound changes modernization has wrought Kirby painstakingly charts the structural changes in agriculture that have occurred in the South and the effects these changes have had on people both at work and in the community He is quick to note that there is not just one South but many emphasizing the South s diversity not only in terms of race but also in terms of crop type and topography and the resultant cultural differences of various areas of the region He also skillfully compares southern life and institutions with those in other parts of the country noting discrepancies and similarities Perhaps even more significant however is Kirby s focus on the lives and communities of ordinary people and how they have been transformed by the effects of modernization By using the oral histories collected by WPA interviewers Kirby shows firsthand how rural southerners lived in the 1930s and what forces shaped their views on life He assesses the impact of cash upon traditional rural economies the revolutionary effects of New Deal programs on the rich and poor and the forms and cultural results of migration Kirby also treats home life recording attitudes toward marriage and sex health maintenance and class relationships not to mention sports and leisure moonshining and the southerner s longstanding love hate relationship with the mule Rural Worlds Lost based on exceptionally extensive research in archives throughout the South and in federal agricultural censuses definitively charts the enormous changes that

have taken place in the South in this century Writing about Kirby s previous book *Media Made Dixie* Time Magazine noted Kirby s scholarship of rare lucidity That same high level of scholarship as well as an undeniable affection for the region is abundantly evident in this new path breaking book **AlabamaNorth** Kimberley Louise Phillips,1999 Examines the experiences and activities of African Americans in Cleveland Ohio from 1915 through 1945 discussing migration the labor market organized labor community and more *The Farm Security Administration and Rural Rehabilitation in the South* Charles Kenneth Roberts,2024-01-12 This book fills an important void in the historical literature on New Deal reform and significantly updates Sidney Baldwin s 1968 book on the FSA Through the lens of the programs of the FSA Charles Kenneth Roberts does an excellent job of relating how New Deal programs attempted to rehabilitate poor rural southerners Aaron D Purcell author of *Arthur Morgan A Progressive Vision for American Reform* As the roaring twenties turned into the depressed thirties southern farmers far removed from the urban prosperity Americans had enjoyed during the 1920s heyday found already difficult farming conditions greatly intensified by the onset of the Great Depression Agricultural incompetence plagued the rural South through the misuse of land depletion of natural resources and a system of single crop farming that failed to adequately provide for growing families on small farms especially in the cotton producing Southeast Poverty and desperation came to define the farming communities of the rural South both in reality and in Americans collective conscious In *The Farm Security Administration and Rural Rehabilitation in the South* Charles Kenneth Roberts traces the administrative and political history of the Farm Security Administration FSA and reconciles the administration s goals with Franklin D Roosevelt s overall vision for the New Deal Roberts takes a grassroots approach to dissecting the FSA s history While other studies have focused on FSA photography or community building or even policy making in terms of top down government directives Roberts focuses on the people and state governments who faced an immediate need to aid southern farmers within their own borders and to boost their states crumbling agricultural economic bases Roberts focuses on rural rehabilitation as a key aspect of the FSA and defines the agency s legacy not in terms of its failures but rather in terms of an idealistic program whose modest successes were ultimately too few to effect real change for southern farmers Though Roosevelt failed to adequately recognize the plight of the southern farmer and political infighting hindered many of the administration s goals the creation of the FSA stands as one of the first efforts to provide sustained relief to struggling southern farmers In light of other federal programs of the era the FSA may seem like a mere footnote to the New Deal outside of its small but revered photography program But as Roberts shows the FSA s legacy has endured to the present day Charles Kenneth Roberts is a lecturer in history at Georgia Perimeter College His articles have appeared in the *Alabama Review* *Southern Historian* and *Agricultural History* *Documenting Cultural Diversity in the Resurgent American South* Margaret Dittmore,Frederick J. Hay,1997 Based on case studies this work includes discussions of research into various forms of documentation of Southern folk culture such as recorded music oral history film and archival research Also

examined is the cultural diversity that exists in the state of Louisiana *Mid-America Folklore* ,1998 *A History of Women in the United States* Doris Weatherford,2004 This four volume reference is intended for high school students and above as well as the general public The first volume opens with introductory essays on the history of feminism on women in various eras from early America through World War II and postwar eras and on women s history in terms of political participation and social activism race and ethnicity and cultural representation These essays are signed and include references Following are alphabetically arranged state articles each opening with a literary quote by a woman and comprising a narrative history supplemented with boxed features spotlighting events people and trends a timeline a biographical section on prominent women a description of relevant sites resources a state map primary document excerpts and a chart of key statistical information Appendices include a chronology primary documents statistical tables and an extensive general bibliography Numerous scholars contributed working under the editorial leadership of Weatherford U of South Florida Annotation 2004 Book News Inc Portland OR booknews com *The Journal of Southern History* Wendell Holmes Stephenson,2005 Includes section Book reviews **The Alabama Baptist Historian** ,1984 **The Alabama Review** ,1986 **Talk about Trouble** Nancy J. Martin-Perdue,Charles L. Perdue,1996 Talk about Trouble presents 61 Writers Project life histories that depict Virginia men and women both blacks and whites and offer a cross section of ages occupations experiences and cultural and class backgrounds Headnotes set the context for each life history and introduce people and themes that link individual events and experiences *The Southern Historian* ,1983 *The White House Looks South* William E. Leuchtenburg,2005-10-01 Perhaps not southerners in the usual sense Franklin D Roosevelt Harry S Truman and Lyndon B Johnson each demonstrated a political style and philosophy that helped them influence the South and unite the country in ways that few other presidents have Combining vivid biography and political insight William E Leuchtenburg offers an engaging account of relations between these three presidents and the South while also tracing how the region came to embrace a national perspective without losing its distinctive sense of place According to Leuchtenburg each man had one foot below the Mason Dixon Line one foot above Roosevelt a New Yorker spent much of the last twenty five years of his life in Warm Springs Georgia where he built a Little White House Truman a Missourian grew up in a pro Confederate town but one that also looked West because of its history as the entrep t for the Oregon Trail Johnson who hailed from the former Confederate state of Texas was a westerner as much as a southerner Their intimate associations with the South gave these three presidents an empathy toward and acceptance in the region In urging southerners to jettison outworn folkways Roosevelt could speak as a neighbor and adopted son Truman as a borderstater who had been taught to revere the Lost Cause and Johnson as a native who had been scorned by Yankees Leuchtenburg explores in fascinating detail how their unique attachment to place helped them to adopt shifting identities which proved useful in healing rifts between North and South in altering behavior in regard to race and in fostering southern economic growth *The White House Looks South* is the

monumental work of a master historian At a time when race class and gender dominate historical writing Leuchtenburg argues that place is no less significant In a period when America is said to be homogenized he shows that sectional distinctions persist And in an era when political history is devalued he demonstrates that government can profoundly affect people s lives and that presidents can be change makers

The News-letter of the Society for the Study of Southern Literature Society for the Study of Southern Literature,1995 **Guide to Reprints 2002** Irene Izod,2001-10 Program of the ... Annual Meeting Organization of American Historians. Meeting,1998 Dixie's Forgotten People Wayne Flynt,2004

The best sort of introductory study packed with enlightening information The Times Literary Supplement Poor whites have been isolated from mainstream white Southern culture and have been in turn stereotyped as rednecks and Holy Rollers discriminated against and misunderstood In their isolation they have developed a unique subculture and defended it with a tenacity and pride that puzzles and confuses the larger society Written 25 years ago this book was one scholar s attempt to understand these people and their culture For this new edition Wayne Flynt has provided a new retrospective introduction and an up to date bibliography
