A History of Women in Russia Barbara Evans

Clements, 2021-12-22 A survey of the key political, economic, social, and cultural developments in Russian women's history from 900 to 2010 and their impact on the nation. Synthesizing several decades of scholarship by historians East and West, Barbara Evans Clements traces the major developments in the history of women in Russia and their impact on the history of the nation. Sketching lived experiences across the centuries, she demonstrates the key roles that women played in shaping Russia's political, economic, social, and cultural development for over a millennium. The story Clements tells is one of hardship and endurance, but also one of achievement by women who, for example, promoted the conversion to Christianity, governed estates, created great art, rebelled against the government, established charities, built the tanks that rolled into Berlin in 1945, and flew the planes that strafed the retreating Wehrmacht. This daunting and complex history is presented in an engaging survey that integrates this scholarship into the field of Russian and post-Soviet history. The product of a lifetime of engagement by one of the preeminent authorities on the history of Russian women, the book reflects the author's deep expertise in primary sources as well as her familiarity with the secondary literature. Choi Chatterjee, California State University Los Angeles. A significant achievement in scholarship on Russian women and gender. Among this text's many strengths are its lucidity, readability, and engaging synthesis of a large number of both primary and secondary sources. Its erudite contextualization of the history of Russian women within a larger European framework ensures its interest for and accessibility to a wide readership, especially those outside of the Slavic field. Slavic and East European Journal. Clements's writing is engaging, clear, and jargon-free, making this book easily accessible to a general audience. Highly recommended. Choice. This daunting and complex history is presented in an engaging survey that integrates this scholarship into the field of Russian and post-Soviet history. Journal of Turkish Weekly.

Women Military Pilots of World War II Lois K.

Merry, 2014-01-10 More than 2000 women in the United States, Great Britain, and the Soviet Union flew military airplanes in organized units during World War II, yet their stories are largely unknown. These pilots ferried aircraft, flew targets for ground artillery practice, tested airplanes and equipment, and many of them flew in combat. The women pilots proved that they could manage bombers and fighters as well as their male counterparts, and several later remarked that the airplanes didn't care who flew them. Topics covered include the training of female pilots, how female flight units were developed and structured, the hazards of conflict, and how these women reintegrated into civilian life following the war. Blood Letters Lian

Xi, 2018-03-20 The staggering story of the most important Chinese political dissident of the Mao era, a devout Christian who was imprisoned, tortured, and executed by the regime. Blood Letters tells the astonishing tale of Lin Zhao, a poet and journalist.

arrested by the authorities in 1960 and executed eight years later at the height of the Cultural Revolution. The only Chinese citizen known to have openly and steadfastly opposed communism under Mao, she rooted her dissent in her Christian faith and expressed it in long prophetic writings done in her own blood and at times on her clothes and on cloth torn from her bedsheets. Miraculously, Lin Zhao's prison writings survived though they have only recently come to light. Drawing on these works and others from the years before her arrest as well as interviews with her friends, her classmates and other former political prisoners, Lian Xi paints an indelible portrait of courage and faith in the face of unrelenting evil.
