Women, Work, and Clothes in the

Eighteenth-Century Novel Chloe Wigston Smith, 2013-06-13 This book charts the novel s vibrant engagement with clothes examining how fiction revises and reshapes material objects within its pages

European Fans in the 17th and 18th Centuries Miriam Volmert, Danijela Bucher, 2019-12-02 In 17th and 18th century Europe folding fans were important socially coded fashion accessories In the course of the 18th century painted and printed fan leaves displayed an increasing variety of visual motifs and artistic subject matter while many of them also addressed contemporary political and social topics This book studies the visual and material diversity of fans from an interdisciplinary perspective The individual essays analyze fans in the context of the fine and applied arts discussing the role of fans in cultures of communication and examining them as souvenir objects and vehicles for political and social messages

Material Literacy in 18th-Century Britain Bloomsbury Publishing, 2020-09-03 The eighteenth century has been hailed for its revolution in consumer culture but Material Literacy in Eighteenth Century Britain repositions Britain as a nation of makers It brings new attention to eighteenth century craftswomen and men with its focus on the material knowledge possessed not only by professional artisans and amateur

makers but also by skilled consumers This edited collection gathers together a group of interdisciplinary scholars working in the fields of art history history literature and museum studies to unearth the tactile and tacit knowledge that underpinned fashion tailoring and textile production It invites us into the workshops drawing rooms and backrooms of a broad range of creators and uncovers how production and tacit knowledge extended beyond the factories and machines which dominate industrial histories This book illuminates for the first time the material literacies learnt enacted and understood by British producers and consumers The skills required for sewing embroidering and the textile arts were possessed by a large proportion of the British population men women and children professional and amateur alike Building on previous studies of shoppers and consumption in the period as well as narratives of manufacture these essays document the multiplicity of small producers behind Britain s consumer revolution reshaping our understanding of the dynamics between making and objects consumption and production It demonstrates how material knowledge formed an essential part of daily life for eighteenth century Britons Craft technique practice and production the contributors show constituted forms of tactile languages that joined makers together whether they produced objects for profit or pleasure

Women's Writing, 1660-1830 Jennie Batchelor, Gillian Dow, 2016-12-19 This book is about mapping the future of eighteenth century women s writing and feminist literary history in an academic culture that is not shy of declaring their obsolescence It asks what can or should unite us as scholars devoted to the recovery and study of women s literary history in an era of big data on the one hand and ever more narrowly defined specialization on the other Leading scholars from the UK and US answer this question in thought provoking cross disciplinary and often polemical essays Contributors attend to the achievements of eighteenth century women writers and the scholars who have devoted their lives to them and map new directions for the advancement of research in the area They collectively argue that eighteenth century women s literary history has a future and that feminism was and always should be at its heart Featuring a Preface by Isobel Grundy and a Postscript by Cora Kaplan

Novels, Needleworks, and Empire Chloe Wigston Smith, 2024-03-12 The first sustained study of the vibrant links between domestic craft and British colonialism In the eighteenth century women s contributions to empire took fewer official forms than those collected in state archives Their traces were recorded in material ways through the ink they applied to paper or the artifacts they created with muslin silk threads feathers and shells Handiwork such as sewing knitting embroidery and other crafts formed a familiar presence in the lives and learning of girls and women across social classes and it was deeply connected to colonialism Chloe Wigston Smith follows the material and visual images of the Atlantic world that found their way into the hands of women and girls in Britain and early America in the objects they made the books they held the stories they read and in doing so adjusted and altered the form and content of print and material culture A range of artifacts made by women including makers of color brought the global into conversation with domestic crafts and consequently placed images of empire and colonialism within arm s reach Together fiction and handicrafts offer new evidence of women s material contributions to the home s place

century genre commitment to contemporaneity that restyles the novel itself
