Women In Nazi Germany:

Women in Nazi Germany Jill Stephenson, 2014-05-12 From images of jubilant mothers offering the Nazi salute to Eva Braun and Magda Goebbels women in Hitler's Germany and their role as supporters and guarantors of the Third Reich continue to exert a particular fascination This account moves away from the stereotypes to provide a more complete picture of how they experienced Nazism in peacetime and at war What was the status and role of women in pre Nazi Germany and how did different groups of women respond to the Nazi project in practice Jill Stephenson looks at the social cultural and economic organisation of women's lives under Nazism and assesses opposing claims that German women were either victims or villains of National Socialism

Growing Up Female in Nazi Germany Dagmar Reese, 2006-06-26 Growing Up Female in Nazi Germany explores the world of the Bund Deutscher Mädel (BDM) the female section within the Hitler Youth that included almost all German girls aged 10 to 14 The BDM is often enveloped in myths German girls were brought up to be the compliant handmaidens of National Socialism their mental horizon restricted to the three Ks of Kinder Kirche and kitchen and church Dagmar Reese however depicts another picture of life in the BDM She explores how and in what way the National Socialists were successful in linking up with the interests of contemporary girls and young women and providing them a social life of their own The girls in the BDM found latitude for their own development while taking on responsibilities that integrated them within the folds of the National Socialist state At last available in English this pioneering study provides fresh insights into the ways in which the Nazi regime changed young Aryan women's lives through appeals to female self esteem that were not obviously defined by Nazi ideology but drove a wedge between parents and children Thoughtful analysis of detailed interviews reveals the day to day functioning of the Third Reich in different social milieus and its impact on women's lives beyond 1945 A must read for anyone interested in the gendered dynamics of Nazi modernity and the lack of sustained opposition to National Socialism Uta Poiger University of Washington In this highly readable translation Reese provocatively identifies Nazi girls league members surprisingly positive memories and reveals significant implications for the functioning of Nazi society Reaching across disciplines this work is for experts and for the classroom alike Belinda Davis Rutgers University Dagmar Reese is The Moses Mendelssohn Zentrum Potsdam researcher on the DFG project Georg Simmels Geschlechtertheorien im fin de siècle Berlin 2004 William Templer is a widely published translator from German and Hebrew and is on the staff of Rajamangala University of Technology Srivijaya

Women in the Holocaust Dalia Ofer, Lenore J. perpetrators victims followers and bystanders Gisela Bock *The Grodno Ghetto and its underground a personal narrative* Liza Chapnik *The key game* Ida Fink 5050 Women in Nazi Society Jill Stephenson, 2013-03-05 This fascinating book examines the position of women under the Nazis The National Socialist movement was essentially male dominated with a fixed conception of the role women should play in society while man was the warrior and breadwinner woman was to be the homemaker and childbearer The Nazi obsession with questions of race led to their insisting that women should be encouraged by every means to bear children for Germany since Germany's declining birth rate in the 1920s was in stark contrast with the prolific rates among the inferior peoples of eastern Europe who were seen by the Nazis as Germany's foes Thus women were to be relieved of the need to enter paid employment after marriage while higher education which could lead to ambitions for a professional career was to be closed to girls or at best available to an exceptional few All Nazi policies concerning women ultimately stemmed from the Party's view that the German birth rate must be dramatically raised

German Women's Life Writing and the Holocaust Elisabeth Krimmer, 2018-09-20 Examines women's life writing in order to shed light on female complicity in the Second World War and the Holocaust *Women and the Nazi East* Elizabeth Harvey, Professor of Psychology Elizabeth Harvey, 2003-01-01 Examination of the role of German women in borderlands activism in Germany's eastern regions before 1939 and their involvement in Nazi measures to Germanize occupied Poland during World War II Harvey analyses the function of female activism within Nazi imperialism its significance and the extent to which women embraced policies intended to segregate Germans from non Germans and to persecute Poles and Jews She also explores the ways in which Germans after 1945 remembered the Nazi East **Mothers, Warriors, Guardians of the Soul** Geraldine Horan, 2003 This study shows that women involved in National Socialism in the years 1924-1934 developed and shaped a recognizable discourse which communicated and reflected their position and status within the NS movement The analysis is based on a variety of text types produced by members of NS women's organisations and includes official correspondence circulars reports pamphlets monographs and articles from NS women's journals It draws upon several areas of linguistic theory including feminist linguistics semantics pragmatics and discourse analysis and the salient features identified in the female discourse are placed within a sociolinguistic framework While previous research into the language of the NS system has largely ignored the possibility of a cohesive female discourse the study supports the idea that this discourse was dynamic and at times heterogeneous whilst also displaying many self-defining and self-referential features It is characterised by its ambiguities and apparent contradictions which expresses separateness and difference yet also solidarity with the NSDAP **Women in European Holocaust Films** Ingrid Lewis, 2018-01-19 This book considers how women's experiences have been treated in films dealing with Nazi persecution Focusing on fiction films made in Europe between 1945 and the present this study explores dominant discourses on and cinematic representation of women as perpetrators victims and resisters Ingrid Lewis contends that European Holocaust Cinema underwent a rich and complex trajectory of change

with regard to the representation of women This change both reflects and responds to key socio cultural developments in the intervening decades as well as to new directions in cinema historical research and politics of remembrance The book will appeal to international scholars students and educators within the fields of Holocaust Studies Film Studies European Cinema and Women s Studies Sexuality in Modern German History Katie Sutton,2023-01-12 Sexuality in Modern German History offers both a detailed survey of this key subject and a new intervention in the history of sexuality in modern Germany It investigates the diverse and often contradictory ways in which individuals activists doctors politicians artists church leaders reform movements and cultural commentators have defined normal or natural sexuality in Germany over the past two centuries Katie Sutton explores how these definitions have been used to shape identities behaviours bodies and practices from norms of heterosexual marital reproductive sex to ideas around the policing and categorisation of unnatural or deviant bodies and practices Covering a range of crucial themes including birth control prostitution queer and trans rights and heterosexual intimacy this important text comes with 30 illustrations and a wealth of primary source extracts and secondary literature helpfully integrated to enable further insight and analysis This is a vital volume for all students and scholars with an interest in modern Germany or the history of sexuality in modern Europe
