Urdu Journalism Books:

A History of Urdu Journalism, 1822-1857, 2020 **Urdu Literature and Journalism** Shafey Kidwai, Shāfe' Qidvā'ī, 2014

Urdu Press in Britain Sajid Mansoor Qaisrani, 1990 **Media, War, and Terrorism** Peter van der Veer, Shoma

Munshi, 2004 *Media War and Terrorism* analyses for the first time responses to the events of 9/11 and its repercussions from the point of view of Asian and Middle Eastern countries. Perhaps controversially the contributors argue that while the US and to an extent European media seems largely unified in their coverage and silence in public debate of the events surrounding the attacks on the World Trade Centre there exists open critical debate in other parts of the world. By examining the use of media as an instrument of warfare and analyzing the construction of public opinion in mediated electronic warfare this book clearly shows the difference in perspectives between public opinion in the US and the rest of the world. Moving away from popular assumptions that societies in the West are democratic and progressive and those in the Middle East and Asia are either authoritarian or under developed this examination of the media in those countries suggests the exact opposite. In combining an examination of the general theoretical issues concerning the use of the media as an instrument of warfare with rich geographically diverse case studies the editors are able to provide a diverse and intriguing analysis of the impact and inter connectedness of national and global medias. Bringing together contributions from academics, journalists and media practitioners from all over the world *Media War and Terrorism* is an essential read for all of those seeking an informed non Western perspective on the events following 9/11. Mass Media in India, 2004 *Mediascape and The State* Sheikh Moinuddin, 2017-02-04 This book investigates image politics during elections and how the political discourse is reflected during the Uttar Pradesh assembly elections in 2012 by the media and the state. It reveals new dimensions of media geography in India and makes image construction and interpretation easy to comprehend. This interdisciplinary approach is located at the interface of geography with social, political, cultural and media sciences. The book draws a geographical interpretation of politics to reveal the role of both media and the state to shape the political discourse with special focus on the privileged position of the heartland Uttar Pradesh in Indian politics. It studies the mediascape by highlighting application of media in both public and private spheres and discussing the importance of both old and new media e.g. print, radio, TV, social media. Several crucial aspects are discussed and answered: How do media and politicians construct politics around the issue of minorities? How do media communalize issues during the election campaign? How can local issues gain national importance and shape national politics? This book appeals to scientists but also to graduates and postgraduates that want to understand the way image politics are performed.
