Historical Dictionary of the Korean War Paul M. Edwards,2010-06-10 The Korean War has often been regarded as a forgotten war although that is certainly unfair It was if anything a rather crucial war within the ambit of the Cold War started by North Korea in 1950 and although the bulk of the fighting was over by 1954 peace has never been concluded and the two sides still face off over the demilitarized zone On the other side of the zone is South Korea which has since become a very prosperous and democratic country while North Korea has achieved relatively little So that war is certainly not forgotten by the Koreans And given the large number of deaths and casualties it is still remembered by many in the United States and other allies as well as China and the Soviet Union This Historical Dictionary of the Korean War now in its second edition does much to jolt our memory and inform us about the war This is done first in a lengthy chronology tracking the war but also the path to war and what happened after The introduction covers the war as a whole trying to make sense of it The dictionary section provides all of the necessary details on significant persons places and events battles and other engagements military units and material as well as the political economic and social background There are also maps and a list of acronyms This is really the ideal source for information in addition to which it also has an extensive bibliography **The Army Historian**

Ground Forces in the Korean War 1950-53 (2) Robert C. Mackowiak, 2025-04-22 This study of the evolving uniforms and personal equipment used by US ground forces in the Korean War features new full color artwork and previously unpublished photographs In June 1950 US soldiers and Marines deployed in the Korean War were dressed and equipped largely as they had been in the closing stages of World War II but by 1953 major innovations had transformed their appearance Featuring eight pages of specially commissioned artwork alongside carefully chosen photographs some never previously published this study charts the evolution of the US troops uniforms and gear through three years of bitter fighting The deployment of a US expeditionary force in Korea entailed uniform and equipment shortages and resulted in widespread improvisation among the troops The rapid movement of the first stages of the conflict made resupply very difficult a situation compounded by the need for cold weather clothing In 1951 the beginnings of position warfare offered the opportunity for soldiers and Marines to customize their uniforms and gear Flak jackets were introduced in both services The infantryman's basic load lightened substantially with men on the line often requiring little more than their fatigues flak vest and helmet All of these developments are explained and depicted in this fully illustrated study from an authority of the uniforms and personal gear of the Korean War period
